No 85

Commissioner's Office
Colacommund 14 Aug 75

From

J. R. Cockrell Esq
Commissioner. Nilgiris

To

The Secretary to the
Board of Revenue
Madras.

Sir

Indorsement on Government
Order No 1042 of 12 July 1875 directs me
to report through the Inspector of Forests
regarding the cultivation of the Carob tree
referred to in the Report of the Superin-
tendent of the Botanical Gardens for
1873-74.

2. I have the honor to state that
there are upwards of five dozen plants
of the Carob tree (*Ceratonia Siliqua*)
established on the Government Gardens
at Buthur all of which are healthy
and making vigorous growth. Several
of the largest plants were transplanted
in the Autumn of last year and have
now attained a height of nearly 4 feet.

Press

G.O. No.
B.P. No.

3. Some seeds of the Carol tree were supplied to Col Scott, who reports on the trees raised by him to the following effect:-
"There are 17 plants varying in size from 6 to 18 inches on the Lower Estate in a very healthy condition and 10 on the Upper, but these latter plants owing to the greater altitude not being so vigorous in their growth, the ultimate success of the experiment in respect to them seems somewhat doubtful."

The Estate referred to is the Whymullay Coffee Estate situated on the southern slopes of the Hills.

4. The Superintendent of the Botanical Gardens believes that if the cultivation should prove remunerative the tree can be grown in the Coffee Districts of Mysore and Mysore.
