*Proceedings of the Madras Government, Revenue Department,
24th January 1876.*

No. 183. Read the following letter from the First Assistant Resident, Hyderabad, to the Secretary to the Government of Madras, Revenue Department, Fort St. George, dated Hyderabad Residency, 18th December 1875, No. 2,164:—

With reference to previous correspondence ending with this office letter, No. 3,482, dated 12th February 1874, concluding the adjustment of the water-rate formerly claimed by the Madras Irrigation and Canal Company for water supplied to the lands of Sultanpur and Kalampad in His Highness the Nizam's territory, I am to state that in a communication now received from His Highness' Minister it is intimated that no water is supplied directly by the opening of the sluices, but that along the course of the Company's canal, owing to percolation of water, the adjoining lands are moistened to a certain degree, and Sir Salar Jung, G.C.S.I., considers that no claim for water-rate on this account can be strictly held to be tenable.

2. Under these circumstances, the Resident trusts that the Irrigation Company will see fit to take effectual means to prevent the escape of water from their canal in the above manner, or, if they fail to do so, make no claim for water-rate in future on His Highness the Nizam's Government.

No. 184. ORDER THEREON, 24th January 1876, No. 92.

Irrigation, No. 4.

REFERRED to the Public Works Department with advertence to the Government Order marginally noted for issue of the necessary orders.

Sir,

With reference to previous correspondence
ending with this office letter No. 3482 dated 12th Feb^r
1876 concluding the adjustment of the water rate
formerly claimed by the Madras Irrigation and
Canal Company for water supplied to the
of Sultanpur and Kalampad in His Highness
the Regent's Territory, I am to state that in a com-
munication now received from His Highness
Minister it is intimated that no water is sup-
plied directly by the opening of the sluices but
that along the course of the Company's canal
owing to percolation of water the adjoining lands
are moistened to a certain degree, and Sir
Jung G. C. I. considers that no claim for water
on this account can be strictly held to be tenable.
