Famine Relief.

No. 354. Read the following Proceedings of the Board of Revenue, dated 27th February 1877, No. 906:--

Read the following letter from W. LOGAN, Esq., Collector of Malabar, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Calicut, 19th February 1877, No. 38.

IN continuation of my letters, Nos. 28 and 32, dated 10th and 15th instant, respectively, on the condition of the laboring classes of Wynaad, and with special reference to paragraph 15 of the former, I have the honor to enclose copy of an extract from a letter just received from the Medical Officer in charge of Manantoddy, reporting thirty-five authenticated cases of cholera, besides others which may have been such.

2. I have directed the Wynaad authorities to provide separate accommodation for the cholera patients at Manantoddy, and I propose debiting the charges to the Famine Funds, as the introduction of the disease is clearly owing to an influx of starving immigrants from Mysore.

3. I solicit early orders on my letter applying for a grant of Rupees 5,000.

ENCLOSURE No. 1.

From Surgeon A. HEWSTON, Wynaad, to W. LOGAN, Esq., Collector of Malabar, dated Manantoddy, 16th February 1877.

I HAVE the honor to report that cholera has made its appearance in this locality. The first case was reported on the 4th of February, and since that date there have been about thirty-five authenticated cases, with fully two-thirds of them fatal.

2. A number of sudden deaths are also reported to have occurred on some Native and a few European estates which do not provide any medical aid for their sick, and it is supposed that these were also cholera cases, but I have no means of procuring any reliable information regarding them.

3. The disease has not been confined to any special locality, but the reported attacks have occurred all over North Wynaad and with similar results everywhere. It first appeared at Manantoddy, then at Dindamall Peria (which has furnished about a third of the whole number attacked), also at Korothe, Panamaram, Olicut, Tirivelly, and other places. During the past four days there have been fewer seizures and more favorable results. I am of opinion that it has been introduced from the Mysore country, and it is reported to be prevailing to a somewhat serious extent about Hunta Santa and near Bowby on the frontier.

(True Extract.)

(Signed) W. LOGAN,
Collector.

SUBMITTED for the orders of Government whether the charge should be debited to Famine Relief or not.

2. The grant of Rupees 5,000 referred to has been sanctioned.

(True Copies and Extract.)

(Signed) H. E. STOKES,
Secretary.

To the Collector of Malabar

Sir,

I have the honor to report that cholera has made its appearance in this locality. The first case was reported on the 4th February, and since that date there have been about 35 authenticated cases with fully $\frac{2}{3}$ ^d of them fatal numbers of.

A. pudden deaths are also reported & have occurred in some natives & a few Europeans. Estates which do not provide any medical aid for their peck, & it is supposed that there were also cholera cases, but I have no means of procuring any reliable information regarding them.

The disease has not been confined to any special locality but the reported attacks have occurred all over North Wynnad & with similar results everywhere. It first

appeared at Manantoddy, then at Pindamall Penia which has furnished about a third of the whole number attacked; also at Koolth Panamaram, Ollint, Tinnelley & other places. During the past 4 days there have been several seizures & more favorable results. I am of opinion that it has been introduced from the Mysore country: & it is reported to be spreading to a considerable extent about Hunka -
-sunka & near Bowly on the frontier.

From *The Rev. B?*

Dated Feb 27th 1877

FOR ORDERS.

I do not think it can
 be changed to *permanence*
 R. C. 1/3
 Hall belongs to
 Dr. Logan says that
 cholera has been introduced
 into Louisiana by starving
 immigrants from Mexico &
 asked that the cost of making
 provision for combating the
 outbreak should be paid for
 from *Louisiana Funds*.

I submit ^{that} the claim is
unreasonable - There is
no connection whatever
between starvation of cholera
though starving people are
more susceptible than well
fed ones to the influences
productive of the disease.
