Proceedings of the Madras Government, Revenue Department,
13th March 1877.

Famine Relief.

No. 431. Read the following letter from G. MACKENZIE, Esq., Acting Head Assistant Collector of Coimbatore, to A. WEDDERBURN, Esq., Collector of Coimbatore, dated Tiroopoor, 2nd March 1877, No. 66 :—

In reply to your endorsement, No. 298, on G.O., No. 407, of the 30th January 1877, I have the honor to state that, although there is generally throughout this division inconvenience because some wells have failed, yet I do not apprehend that at the very worst part of the hot weather there will be worse than inconvenience.

2. In the part of Pulladum taluq near Avenashy was first felt this scarcity of water owing to failing wells, but even there there are garden wells whose supply will not fail, and the worst that can happen is that people may be obliged to travel four or five miles to a well, but this state of things, I hope, may not arrive.

3. The wells near the Noyel river are not likely to fail.

4. The western part of Pollachy taluq has not suffered as it had a good rainfall. In the east and south of that taluq some wells are failing but not to such an extent as to cause any apprehension, and in April we may expect thunderstorms on the Anamullays which will send some water down the jungle streams.

5. In Oodoomulpetta taluq there is the Amravati river which never entirely dries up. In the northern part of the taluq there may be distress if wells fail still more before rain.

6. The subject is engaging earnest attention, and detailed reports are being prepared in answer to your circular of February 3rd.

No. 40.

of Coimbatore.

To

The Collector of Coimbatore.

Sir

In reply to your endorsement
No. 298 on G. O. No. 407. of the 30th
January 1877, I have the honor to state
that although there is generally throughout
this Division inconvenience because
some wells have failed yet I do not
apprehend that at the very worst part
of the hot weather there will be worse
than inconvenience -

2. In the part of Pulladum Talug
near Avenashy was first felt this

scarcity of water owing to failing wells but even there there are garden wells whose supply will not fail -and the worst that can happen is that people may be obliged to travel four or five miles to a well but this state of things, I hope, may not arrive. —

3. The wells near the Noyel river are not likely to fail

4. The western part of Pollachy Taluq has not suffered as it had a good rain-fall. — In the east and south of that Taluq some wells are failing but not to such an extent as to cause any apprehension and in April we may expect thunderstorms on the Anamallays which will send some

water down the Jungle streams. —

5. In Udumulpetta Taluq there is the Amravati river which never entirely dries up. In the northern part of the Taluq there may be distress if wells fail still more before rain.

6. The subject is engaging earnest attention and detailed reports are being prepared in answer to your Circular of February 3d. —

I have &c
