Famine Relief.

No. 529A. Read the following Proceedings of the Board of Revenue, dated 6th March 1877, No. 1,053 :—

Read the following letter from W. S. WHITESIDE, Esq., Collector of North Arcot, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated Chendraghiri, 22nd February 1877, No. 133.

I HAVE the honor to forward, herewith, for the information of the Board of Revenue, copy of the Acting Sub-Collector's report* on the progress of relief-works in his division for the month of January last.

*No. 74, dated 15th February 1877.

ENCLOSURE No. 1.

From G. D. IRVINE, Esq., Acting Sub-Collector, to W. S. WHITESIDE, Esq., Collector of North Arcot, dated Poloor, 15th February 1877, No. 74.

I HAVE the honor to submit progress report of relief-works in my division for the month of January. I regret that, partly through oversight and partly through pressure of work, the report has not been sent before this.

2. As regards Vellore Taluk, I have little to add to my report for December. The same three principal works are in progress. I am unable to give the precise amount of work done upon each, as I have not received account from the Talukdar, whose time has been fully occupied hitherto with the construction of the relief-camp at Vellore. I have visited each of the roads in progress. The work done upon the Abdullapuram road shows an improvement upon what had been done at my former visit. The work on the Pinnathur road was not being carried out satisfactorily. I had occasion to find very grave fault with the maistry, and since the commencement of this month I have been obliged to dismiss him. I trust that the work will now be done in a more satisfactory way.

3. A large pond at Alimalumungapuram has been cleared and deepened at a cost of Annas 1-6 per cubic yard. This I consider very satisfactory.

4. The work of clearing and deepening the Suriagunta tank and its subordinate works have been vigorously pushed on, but there is still work for several months more. The introduction of task-work upon this work in particular has caused a marked improvement, and the coolies are now doing a fairly satisfactory amount of work, considering their numbers and condition.

5. Owing to my presence having been constantly required at head-quarters in connection with the formation of the relief-camp, I have not been able to personally inspect any of the works in the Goodiathum and Arcot Taluqs, except the channel supplying Robinson's gunta at Cautapady. This work has been finished with the exception of baling the water into the pond. I had reason in December to find great fault with the work, and am happy to have been able to report to you that it had been afterwards most satisfactorily completed. It is a most useful work.

6. I find from the Tahsildar's report that a fair amount of work has been done upon the other works. Road-work seems to have been executed at from 1 Anna to 1½ Annas per cubic yard. Some of the roads have, as you are aware, been stopped under the orders of the Board of Revenue since the commencement of this month.

7. The clearing and deepening of a number of drinking-water ponds along the new road from Moranum to Darsi, referred to in my last report, has been proceeded with during the month.

8. I have already reported at different times regarding the charitable relief given in the town of Vellore, and therefore do not think it necessary to touch upon that subject further.

*Proceedings of the Madras Government, Revenue Department,
16th March 1877.*

9. As far as I have seen, the physical condition of the coolies has certainly not deteriorated during the past month, and there has been no material difference in the numbers employed.

22nd Feb 1877

And to be
Sir
Your most Obedt^t Servt
W. S. Whiteside
Collector

Enclosure No 74.

From
G. D. Irvine Esquire
Ag. Sub. Collector of North Arcot.

To
W. S. Whiteside Esquire
Collector of North Arcot.

Sir,

I have the honor to submit
Progress report of relief works in my
division for the month of January.
I regret that, partly through over-
sight and partly through pressure
of work, the report has not been

Sent

sent before this.

2. As regards Vellore Taluk,
I have little to add to my
report for December, the same
three principal works are in
progress. I am unable to
give the precise amount of
work done upon each, as I
have not received account
from the Subildar, whose
time has been fully occupied
lately with the construction
of the Relief Camp at Vellore.
I have visited each of the roads
in progress. The work done upon
the Abdullapuram road shows
an improvement upon what had
been done at my former visit.
The work on the Pinnathur Road
was

was not being carried out satisfactorily. I had occasion to find very grave fault with the masonry & since the commencement of this month, I have been obliged to dismiss him. I trust that the work will now be done in a more satisfactory way.

3. A large pond at Alimalu: Mungapam has been cleared and deepened at a cost of Rs 1-6-0 per cubic yard. This I consider very satisfactory.

4. The work of clearing and deepening the Suriagunta Park, & its subordinate works have been vigorously pushed on, but there is still work for several

Months

Months more. The introduction of task work upon this work in particular has caused a marked improvement, and the coolies are now doing a fairly satisfactory amount of work, considering their numbers and condition.

5. Owing to my presence having been constantly required at head quarters in connexion with the formation of the Relief Camp, I have not been able to personally inspect any of the works in the Goodiatham & Arcot Taluqs except the channel supplying Robinson's fountain at Gantpady. This work has been finished

with

with the exception of baling
the water into the pond.

I had reason in December
to find great fault with the
work, and am happy to have
been able to report to you that
it had been afterwards most
satisfactorily completed.
It is a most useful work.

6. I find from the Sub:
Sildar's report that a fair
amount of work has been
done upon the other works.

Road work seems to have
been executed at from 1 anna
to $1\frac{1}{2}$ annas per cubic yard.
Some of the roads have, as
you are aware, been stopped

11/20/76
under the orders of the Board
of Revenue since the commence-
ment of this month.

7. The clearing and deepening
of a number of drinking water
ponds and along the new
road from Merarum to Dusi,
referred to in my last report,
has been proceeded with during
the month.

8. I have already reported
at different times regarding
the charitable Relief given
in the town of Vellore & therefore
do not think it necessary
to touch upon that subject
further.

9. As far as I have seen,
the

the physical condition of the
coolies has certainly not
deteriorated during the past
month - and there has been
no material difference in
the numbers employed.
