Proceedings of the Madras Government, Revenue Department,
20th March 1877.

Famine Relief.

No. 643A. Read the following Proceedings of the Board of Revenue, dated 12th March 1877, No. 1,143 :—

Read the following letter from A. WEDDERBURN, Esq., Collector of Coimbatore, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated 6th March 1877, No. 91.

THE allotment for collecting metal for existing roads in the great majority of cases was originally proposed at the rate of Rupees 110 per mile, as the metal costs from Annas 6 to 14 a cubic yard according as the material is procurable at the road-side or at a distance; an average of Annas 10 per cubic yard is the ordinary estimate. The District Engineer states that 1,000 cubic yards of metal per mile is required; at this rate the cost of collecting metal per mile is Rupees 625. The Division officers have accordingly applied for additional allotments for provision of 1,000 cubic yards of metal per mile on more important roads, and of less quantity on less important lines. I have the honor to request sanction to the following additional allotments, viz.:—

the difference is
very large — I would like
to know why the Dy Engr
does not state the Rs 7000
per yard at first — the
1000 is a very large
quantity i.e. rather
more than 6 inches thick
for a metal track 9 feet
wide —!
