1296

*Proceedings of the Madras Government, Revenue Department,
3rd April 1877.*

No. 20. Read the following Proceedings of the Board of Revenue, dated 20th March 1877, No. 1,267:—

following letter from W. S. FOSTER, Esq., Collector of the Godavery
Esq., Secretary to the Board of Revenue, dated
y 1877, No. 59:—

REFERRING to Board's Proceedings of the 2nd January 1877, No. 4, I have the honor to enclose copies of the Sub-Collector's letter of the 16th instant, No. 34, and the statement therewith received, giving the information required by the Board. Mr. Kelsall recommends that Rupees 1,260 may be remitted in 13 villages in the Rajahmundry Taluq, but I am not inclined to recommend the granting of remissions in any of the villages except Namavaram, as the amount recommended to be remitted does not in many cases exceed even 10 per cent. of the demand, while in some cases it comes to even 2 per cent. and less. I hardly think that the loss is enough to require remissions. I have, however, asked the Sub-Collector to reconsider his proposals, and inform me if there are any exceptional cases. When I hear from him I shall address the Board on the subject again, if necessary.

ENCLOSURE No. 1.

From J. KELSALL, Esq., Acting Sub-Collector, to W. S. FOSTER, Esq., Collector of the Godavery District, dated Mamidada, 16th February 1877, No. 34.

In reply to the Board's Proceedings of 2nd January 1877, No. 4, I have the honor to forward a statement giving acreage and average assessment of the villages in which I recommend that dry remissions should be given.

The rainfall of 1875 was 36.95 inches and in 1876 it was 29.98 inches, but in the latter year it fell in unusually early months.

3. I have not given Fieldwar particulars, but I have visited the majority of these villages and seen for myself the condition of the dry crops. There is one tract of country among the hills bordering on Rajole and Kadium in the southern and centre part of the taluq, and a few villages under the hills near the Rampah country. There is one village by itself, Narendrapur, on poor sandy soil in which the outturn of dry crops will be about one-eighth.

4. I have reduced the estimate as far as possible.

(True Copy.)

(Signed) H. RICHARDSON,
Deputy Collector for Collector.

ENCLOSURE No. 2.—Statement.

The amount of the proposed dry remission is very small, and the Board doubt whether any should be granted. However, as in the case of the Yernagudem Taluq, they authorize the Collector to use his discretion as to the grant of remission in villages, where 10 per cent. and upwards of the punjah beriz is considered proper, up to the limits proposed, and subject to the restrictions defined in Board's Proceedings, 1st March 1877, No. 941.

(True Copies and Extract.)

(Signed) H. E. STOKES,
Secretary.

APRIL.
Nos. 20-21.

Remission.—Recording Board's Proceedings
authorising Collector of Godavery to use his
discretion in granting — in villages where 10 per
cent and upwards of the punga bet is considered
proper.

remitted in 13 Villages in the
Rajah Mundry Taluq, but I
am ^{not} inclined to recommend the
granting of remissions in any
of the villages except Samavaram
as the amount recommended to
be remitted does not in many
cases exceed even 10 percent of the
demand while in some cases
it comes to even 2 percent and
less. I hardly think that the
loss is enough to require remissions.
I have however asked the sub
collector to reconsider his proposals
and inform me if there are any
exceptional cases. When I
hear from him I shall address
the

the Board on the subject again
if necessary.

From

J. Kellsall Esq^r

Sub Collector

Godavari District.

To

W. S. Foster Esq^r

Collector Godavari Dist^{ct}

Sir.

In reply to the Board's
Proceedings of January 2, 1877 No. 4
I have the honor to forward a
statement giving average and
average assessment of the
villages in which I recommended
that

that dry permissions should be
given.

2 The rainfall of 1875 was
36.95 inches, and in 1876 it was
29.95 inches, but in the latter
year it fell in unusually early
months.

3 I have not given fieldward
particulars, but I have visited
the majority of these villages
and seen for myself the condition
of the dry crops. There is one tract
of country among the hills
bordering on Rajole and Gadli-
nun in the southern and entire
part of the Talug and a few
villages under the hills near
the Pampa country. There is
one

one village by itself named
-rapur on poor sandy soil in
which the outturn of dry crops
will be about $\frac{1}{8}$.

4. I have reduced the estimate
as far as possible.
