I have the honor to report that, with the exception of the marginally-noted villages in the Orange Valley, which formed the subject of my letter to Board of 27th ultimo, No. 13, and in the villages near Musnagoody, the Badagas have a sufficient supply of seed-grain.

2. The cultivated area in the affected locality last year was 2,000 acres and in the vicinity of Musnagoody 1,000 acres. The cultivators in these localities have no seed-grain and no

money to purchase it at Hassanur, the only available market. The Badaga cultivators tell me that they require twenty-five Madras measures of seed-ragi or samay for one acre. This appears to be an extraordinary waste of seed, but it is the custom of the country. I should think ten measures per acre ample, and beg to request the sanction of Government to advancing them in money half the value of seed-grain at this rate, repayable in three annual instalments. The sum required is Rs. 2,000. For the villages near Musnagoody the seed-grain required is less, and is estimated to cost Rs. 1,000. I have the honor to request sanction to making an advance to the ryots up to this amount, or a total for both tracts of Rs. 3,000.

I have the honor to request early orders on this proposal, as owing to the recent copious rain in the affected locality ploughing has commenced, and seed-grain will be required in a fortnight or three weeks.

THE payment of an advance of Rs. (3,000) three thousand will be disposed of in the Revenue Department.

Miscellaneous.

COMMUNICATED to the Board of Revenue.

2. Reports from other districts have already been communicated; and while at Trichinopoly, His Grace the Governor was informed of twenty villages in Madura where seed would be required by the ryots.

Proceedings of the Madras Government, Revenue Department,
5th April 1877.

3. The Board will dispose of this and all similar reports or applications; with authority to direct the necessary disbursements, which, it is observed, can be recovered like arrears of revenue.
