1457/1

Proceedings of the Madras Government, Revenue Department,
17th April 1877.

Famine Relief.

No. 388. *Dated* 17*th April* 1877, *No.* 1,457.

Miscellaneous.

THE Governor in Council considers it desirable that the Government reserve grain in the Cuddapah District should be examined and its condition reported. The Commissary-General will, therefore, be requested to depute a competent officer of the grade of Conductor for the above purpose.

2. The officer will report himself, on arrival at Cuddapah, to the Collector, and will then proceed to the several depôts in the district in such order as the Collector may point out, and carefully examine the reserve grain which has been forwarded to those depôts by Colonel Hicks, reporting its condition and quantity (in tons or in bags), with any suggestions that may occur to him for its greater security from damp and the attacks of insects.

3. If, at or near any depôt or on the road thereto, there should happen to be any remainder of the stores of grain locally purchased by the district officers, its condition should be also reported upon after examination in a similar manner; but the reports on the Government reserve grain and that locally purchased must be kept perfectly distinct.

4. If the services of Mr. Travers, the Assistant Grain Transport Agent, can be spared, it might facilitate the disposal of the matter if he were to take part in the inspection under the instructions of the Collector.
