No. 399A. Read the following Proceedings of the Board of Revenue, dated 28th March 1877:—

Read the following letter from J. F. PRICE, Esq., Acting Collector of Cuddapah, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated Pullanpett, 19th March 1877, Extra No. 404.

I HAVE the honor to report, for the orders of the Board, that I have permitted the Head Assistant Collector, on his representing to me that if I did not do so the coolies of the Sidhout Taluq would in a few days be without work, to go on with the repairs of the Sidhout and Budwail main road, i.e., clearing channels and supplying metal and gravel from the 11th to the 19th mile.

2. A rough estimate, amounting to Rupees 14,000, has been sent in by the Range Officer for this, but I have asked for another which I will transmit in due course.

3. The work is one which can be stopped at any time without injury or loss. Care will, of course, be taken that it does not interfere with the plans of Government in regard to sending coolies to the East Coast Canal.

Jubbulpur cholam at Bellary 9.53, last week 9.79; raggi or lesser millet 9.05, last week 9.31; cumbu 8.39, last week 8.61 seers of 80 tola. Import tons 2,696. Accounts from two railway stations, only; 218,280 persons on relief-works. Net decrease as compared with return for previous week 7,628; principal decrease is in Bellary and Adoni Taluqs. This is owing to removal of able-bodied coolies for the purpose of sending to Nellore and to Hooblee railway, and the rejection of others who refuse to go to these works. The increase in some taluqs is owing to more coolies having come to relief-works, and in Hadgalii, some more persons from Hyderabad and Dharwar having been temporarily admitted. 79,444 gratuitously fed. Increase as compared with return for previous week 13,317; this is owing to the payment of 3 pies to the children of coolies employed on relief-works and to the opening of relief-houses in several villages. 3,908 gratuitously fed by private charity aided by Government grant. Sanctioned expenditure 48,16,000, cheques actually granted 49,56,764. Additional Officers, Revenue and Magisterial, Eurasian 1, Natives 20. Police none, relief 39 Europeans and Eurasians. Additional Civil officers, including Survey and Settlement, 59. Medical officers 13. Imports—Government grain

262 tons in the district. Private import 169 tons. The slight rise and fall in the price of grain call for no remark. There was a decrease of 12,261 in the number of coolies, partly from emigration to the Nellore Canal and partly, it is believed, to abuse by the village heads of the relief powers lately granted them. No material change in physique of coolies reported. Emigration to the East-Coast Canal improving; new rate of wages prevail everywhere. Grain payments continue on three works in Cumbum Taluq, notwithstanding the stringent orders sent to Mr. Farmer on the subject.

* There is a large net increase of 2,308 persons on relief works, as compared with the preceding week. Of this increase 7,643 is the number employed on the Railway line, between U.S. and Arcot. There is also an increase of 1,381 persons in the number on relief works in Madurantakam, owing partly to the number employed last week under the Deputy Tahsildar not being included in the return of that week and partly to more labor being available to the D. P. W. consequent on the raggi harvest having been brought to a close.
