Proceedings of the Madras Government, Public Works Department,
5th March 1877. *No.* 743.

No. 92. Read the following letter from Major P. MONTGOMERIE, R.E., District Engineer, Salem, to the Secretary to Government, Public Works Department, dated Yerkaud, 26th February 1877, No. 154 S.L.:—

1 Letter No. 90, dated 27th January 1877, from the Officer in charge of the Salem Range.
1 Letter No. 1,470, dated 3rd February 1877, from the Officer in charge of the Oossoor Range.
1 Petition from the Lascars of the District Engineer's Office.

In submitting for the very favorable consideration of Government the applications marginally noted from officers and employés under my orders in this district, requesting that the special allowances which have been sanctioned in G.O., No. 3,284, dated 4th December 1876, to the members of the department in certain districts may be allowed to their fellow-workmen in Salem also, I have the honor to state that the conditions under which these special allowances were granted to the officials in the then famine districts have unfortunately been much more than fulfilled in this district.

2. The Revenue Board, in their Proceedings which were printed with G.O., No. 29, dated 5th January 1877, distinctly stated that parts of the country seem likely to be as bad as that of the Ceded Districts, and that Salem, among other parts, must be added to the list of distressed tracts. If there can be any doubt on this point, a reference to the Revenue Board's periodical returns of the prices of grain in the different districts, will be sufficient to show that Salem is hardly if anything better off than the worst of the famine districts.

3. Moreover, in the Ceded Districts, the Engineering Staff has been increased *ad libitum*; but in Salem, where the whole of the Famine Relief Works (Irrigation), and many of the roads have been taken up by the Public Works Department, not a single extra hand has been sent to help us; and if it were only for the very great amount of extra work at present imposed upon the department here, I would most respectfully solicit that these special allowances now applied for be sanctioned and with retrospective effect from the 1st of December 1876, when the real state of the district had declared itself and the extra work was required of the department.

No. 93. ORDER THEREON, 5th March 1877, No. 743.

ESTABLISHMENT, No. 7.

THE special allowances granted in Government Orders of the 4th and 28th December, Nos. 3,284 and 3,562, are extended to the Public Works Staff in Salem District.

2. In G.O., No. 286, of the 20th February, the District Engineer has been informed that the Government of India Orders giving increase of pay to employés of the class named are applicable to all districts which satisfy the conditions laid down.

Proceedings of the Madras Government, Public Works Department,
5th March 1877. *No.* 743.

3. All officers and subordinates whose services are made available for Famine Relief Works are placed at the disposal of the Revenue Department, to which therefore the requirements of the Salem District will be referred for consideration.
