Famine Relief.

No. 650-A. Read the following Proceedings of the Board of Revenue, dated 18th April 1877,
No. 1,785 :—

From A. WEDDERBURN, Esq., Collector of Coimbatore, to H. E. STOKES, Esq., Secretary
to the Board of Revenue, dated Madras, 7th April 1877, No. 186.

In continuation of my letter, No. 90, of 6th March 1877, I have the honor to annex a further
list of relief-works sanctioned by me under the rules in Revenue Board's Proceedings, No. 1, of
2nd January 1877, viz:—

BHOWANY TALUQ.

4. Road from Nerinjipett to Cauveripuram, 16 miles, in addition to Rs. 2,640 already sanctioned, at Rs. 290 per mile	2,000

Miscellaneous.

5. Digging a new keddah in the Namantally jungle to provide employment to destitute wudders of the Chengapally and Ponassy villages	1,000
---	-------

Note.—As regards this work Mr. Deputy Collector Mackenzie states as follows :—

"The country from Cauveripuram to this place and all about is in a very parched state, and
the people, particularly of Chengapally and Ponassy villages, are in a half-famished state; they
beg of me to give them work; as I do not know what to do, there being no work of any kind here
for them, I have employed them to bring grass from the hills; this will do for feed of elephants and
to build sheds for them by-and-bye. As there is a good number of wudders about here, all coming
to me for employment, I intend setting them to work to dig a keddah in the Namantally jungles.
This collecting of dry grass and digging keddah will keep the people employed for two or three
months, by which time we hope to get rain when the people will find employment in their fields."

BHOWANY,
27th March 1877.

(Signed) G. McWATTERS,
Acting Sub-Collector.

With these letters the Collector of Chingleput forwards a revised list of relief-works for the Caroor and Dharapuram Taluqs, containing certain items marked "fresh" which are works not hitherto approved; and also a further list of relief-works sanctioned by the Board's rules.

- the new items in the first list only those noted in the margin call for remark. The first will require the sanction of Government, as no more need be said about it till the estimates are received. The Board approve the second work but await estimate. The cost of the third will be recoverable from the Caroor Municipality.

3. Of the other items the allotments for those noted in the margin are increased beyond the amount which the Collector can sanction, and estimates should be submitted to the Board. Estimates are also awaited for road Nos. 1, 2, and 3.

and 3. the Dharapuram Taluk. The lump allotments for village sanitation and water-supply should not be included in such lists; but estimates and allotments for such works in detail should be sanctioned under the rules by the proper authority from the general grants for relief-works.

4. The Collector seems to think that the approval of an entry in one of these lists of relief-works is equivalent to sanction of an estimate, but this is not so. Estimates must be drawn up and sanctioned for all of them except for such works as storing metal on roads which are approved at a certain quantity and a certain rate per mile.

5. The Board note that No. 8, Irrigation Works, Caroor Taluk, "raising the bund of the Pogalore channel, Rupees 4,400," is not marked as a fresh work, but is found in no previous list except that of the 7th April, No. 116, now under disposal. The Collector is not competent to sanction it, and estimate must, as above stated, be sent to the Board. The estimates and proposed grants for the works named in the margin have now been raised, so that the totals are beyond the Collector's competence, and estimates in these cases also are awaited. It is observed that the length of the Nerinjipett Chaverrypoornam road is given as 12 miles only in the list of 1st January 1877.

No. 1/85
Proceedings of the Board of Revenue
Dated 17 April 1877

Read letters from the Collector of Coimbatore
dated 7 April 1877, No. 116/117, forwarding
a list of relief works requiring sanction.

With these letters the Collector of Coimbatore
forwards a revised list of relief works for
the Caror & Dharaपुरam taluqs containing
certain items in red ink which are works
hitherto approved, & also a further list of
relief works sanctioned by him under the
Board's rules.

2. Of the new items in the first list only
those noted in the margin call
for remark. The first will
require the sanction of Govern-
ment and no more need
be paid about it till the
estimates are received. The Board approve the
estimate second work but await estimate.
The cost of the third will be recoverable from
the Caror Municipality.

are also awarded for Road Nos. 1, 2 & 3 in the
 Charapuram Taluk. The lump allotment for
 village sanitation & water supply should not be
 included in such lists; but estimates & allot-
 ments for such works in detail should be sanc-
 tioned under the survey by the proper authority
 from the general grants for relief works.

4. The Collector seems to think that the approval
 of an entry in one of these lists of relief works is
 equivalent sanction of an estimate, but this is
 not so. Estimates must be drawn up and
 sanctioned for all of them except for such
 works as stoning metal on road which are
 approved at a certain quantity & a certain rate
 per mile.

5. The Board note that no 8. Irrigation works
 "Baron taluk" Raising the bund of the Logan
 channel, Rs 4400 is not marked as a fresh
 work, but is found in no previous list except that
 of the 7th April No. 116 now under disposal. The
 Collector is not competent to sanction it & estimate
 must as above stated be sent to the Board. These
 estimates & proposed grants for the
 works named in the margin have
 now been raised so that the totals
 are beyond the Collector's competence
 & estimates in these cases also are awarded. It is
 observed that the length of the Krimipett

5. Digging a new Reddab in
the Namantally jungle to
provide employment to desti-
tute traders of the Chengapally
and Poriassy villages — Rs 1,000

Note. As regards this work, the
Deputy Collector, Mackenzie
states as follows:—

"The country from Kannur
to Neringiputt

to Neringiputt place and all
about, is in a very poor
state, and the people suffer
early of Chengapally and Poriassy
villages are in a half famish-
ed state; they beg of me to
give them work; as I do not
know what to do, there being no
work of any kind here for them
I have explained them to bring
grass from the hills, this will
do for feed of elephants and
to build sheds for them by and
bye. As there is a good number
of traders about here all
coming to me for employment
I intend setting them to work
to dig a Reddab in the Namantally
jungle

And the jungles. This collecting
of dry grass and digging Kud-
dalu will keep the people
employed for two or three
months by which time we
hope to get rains when the
people will find employment
in their fields."
