Famine Relief.

No. 660-A. Read the following Proceedings of the Board of Revenue, dated 18th April 1877, No. 1,742 :—

Read the following letter from W. S. WHITESIDE, Esq., Collector of North Arcot, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated Cangoondy, 6th April 1877, No. 231.

THE enclosed is an estimate prepared by the Wallajah Range Officer for the repair of the spring channel of Perumbulipaukum, a village in the Wallajah Taluq.

2. This channel has a large wet ayacut under it, but is greatly out of repair, and there is an immense growth of prickly-pear on its banks. I am aware of the Board's order prohibiting the destruction of prickly-pear. The growth of this plant on the channel-bunds is, however, so considerable that its removal is absolutely necessary not only to allow of the execution of repairs at present, but also for the proper maintenance of the bunds in future. The repair of this channel will, in addition to its being a remunerative work, supply labor to a considerable number of the distressed poor that are in want of employment in that part of the taluq.

3. The estimate amounts to Rs. 4,660, and I request that you will be good enough to obtain an early sanction of the Board for the immediate execution of the repairs to the channel in question.

SANCTIONED, but the rates seem high, and the Collector should get the estimate reviewed by the District Engineer. Care should be taken to thoroughly eradicate and destroy the prickly-pear.

Proceedings of the Board of Revenue

Dated 18th April 1877

B.D. G.O. No. 3849 Read the following No. 231

From H. S. Whitelaw Esquire
Collector of North Arcot.

To H. E. Stokes Esquire
Secretary to the
Board of Revenue
Madras.

Sir

The enclosed is an estimate prepared by the Wallajah Range Officer for the repair of the Spring Channel of Perumbulipankam a village in the Wallajah Taluq.

2. The Channel has a large wet ayacut under it, but is greatly out of repair and there is an immense growth of prickly pear on its banks.

I

I am aware of the Board's order prohibiting the destruction of prickly pear. The growth of this plant on the channel banks is, however, so considerable that its removal is absolutely necessary; not only to allow of the execution of repairs at present, but also for the proper maintenance of the banks in future. The repair of this channel will in addition to its being a remunerative work, supply labor to a considerable number of the distressed poor that are in want of employment in that part of the Taluq.

3. The estimate amounts to Rs 4 bbs and I request that you will be good enough to obtain an early sanction of the Board for the immediate execution of the repairs to the channel in question.
