Dry ...	1,178	1 12	0 13 0	.....	.....	156 4 0	156 4 0	In general classification Nos. 877-A and 882, the ryot concerned planted 63,000 trees under the private Tope Rules years ago (Fasli 1277), but the grant was cancelled for non-completion of the tope in Fasli 1283. He thereupon petitioned the Collector and a putta was ordered to be given in Fasli 1284 as per Tahsildar's takid, No. 1,108, dated 28th July 1874, but no charge was made as he shared the benefits of the flood then. In the following fasli as the land was unclassified, Sevoy Jamma Sbist was charged at the adjoining rate of 12 Annas per acre. Though detailed classification was made at the beginning of this fasli, the area and the classification lists have not been received yet from the Settlement Office.

I have therefore shown for the purposes of this Settlement the Sevoy Jamma rate in Column D.

He is a respectable ryot and does not claim compensation for the land taken up by the East Coast Canal on the ground of its public utility. But as he says the plantation has cost him much trouble and money, and as I understand that not less than 2,500 tender palmyra trees were destroyed by its excavation in this fasli through these fields, I have recommended the grant of compensation for it at one Anna per tree on an average. Acres 35·34 will be excluded from the putta to be granted this year.
