of the Madras Government in the
arch 1877, No. 739 :—
Commissioner for Madras, dated 1st March
1877.

February, I have the honor to report

the reservoir had been apparently all

of growth is now being extensively

It are still unclosed, and the escape of
water, by night and day, for the benefit

right before us, and the requirements
advocate immediate action in closing
second crop now under cultivation can be
possible the advantage of a few extra
in comparison with the inconvenience
the failure of its usual water-supply.
