GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

8th May 1877, No. 1,669.

Famine Relief.

Read the following papers:—

No. 156. Proceedings of the Board of Revenue, dated 26th April 1877, No. 1,930.

From R. J. MELVILLE, Esq., Acting Collector of Madras, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated 26th April 1877, No. 122.

With reference to the accompanying copy of a letter from the Deputy Collector of Madras, No. 605, dated 14th instant, I have the honor to request that the sanction of Government may be obtained for retaining the establishment sanctioned in G.O. No. 69, dated 9th January 1877, for a further period of two months from the 9th proximo. The District Engineer considers this additional period sufficient—vide docket, No. 313, dated 19th instant, enclosed.

Enclosure No. 1.

From C. CUNDASAWMY MOODELLY Acting Deputy Collector, to R. J. MELVILLE, Esq., Acting Collector of Madras, dated 14th April 1877, No. 605.

I HAVE the honor to inform you that the temporary establishment sanctioned in connection with the Madras Junction Canal under G.O. No. 69, of 9th January last, for four months, at an aggregate cost of Rupees 109 per mensem,* was entertained on the 9th idem, and the period of retention of its services expires on the 8th May next.

1 Surveyor	Rs. 60
1 Clerk	25
3 Lascars at 12 Rupees each	24
Including batta	100

2. Owing to alterations in the course of the canal and the necessity there exists for taking up more land than what was originally estimated for the width of the canal, which was sanctioned in G.O. No. 1,782, of 28th March 1877, the exact extent of land required in each holding has not been as yet ascertained. Frequent measurements had to be made as the line was bent and altered in several places to avoid valuable properties as much as possible, and the Surveyor and Lascars are constantly required to remain with the Canal Engineer and assist in his work. The plans for all the sections had to be made by our establishment, as the Public Works Department sent no plans, and the areas computed. The measurement work will take up some time more, as the additional lands required all along the line have just been sanctioned by Government.

3. The valuation of the house properties and of the cultivation and trees on the several pieces of land falling within the line occupies a good deal of time. The bulk of the compensation has yet to be paid as the exact extent required from each individual's land is not yet determined by the Public Works Department, and the work of the temporary establishment will have to be retained till all this work is finished.

4. I beg to request therefore that Government sanction may be obtained for retaining the services of the temporary establishment for a further period of four months from the 9th May next.

(True Copy.)

(Signed) R. J. MELVILLE,
Acting Collector.

Enclosure No. 2.

From Captain S. G. CLARKE, R.E., Executive Engineer, A. J. Canal, to Major R. W. THOMSON, R.E., District Engineer, Presidency, dated — April 1877, No. 88.

Has the honor to state, with reference to his No. 267, of the 18th instant, that it would appear necessary to entertain the services of the Revenue Officer and his Assistants for another two months, within which time the final settlement for all land required may be adjusted.

Revenue Department, 8th May 1877, No. 1,669.

2. The delay caused has been mainly due to the original line having been altered to suit various persons, interests and to other incidental circumstances.

No. 313.

Copy forwarded to the Collector of Madras with reference to his No. 227 of 17th April 1877.

14th April 1877.
