Revenue Department

Proceedings of the Board of Revenue
Dated 24th November 1876.

Read the following

Extra No 3.
From S. G. Horsfall Esquire
Ag Collector of
Madura

To H. E. Stokes Esquire
Ag Secretary to the
Board of Revenue
Madras.

Sir,

I have the honor to acknowledge the receipt of the Boards Proceedings of the 15th Instant upon my letter of the 7th Instant reporting upon the State of the season in this District.

2. I trust that my subsequent letters have fully explained to

the Board the very adverse nature of the Season and the urgent necessity there is for immediate and very extensive relief works. I have just now come into the Periakolam Taluq and regret to find that things are not much better here than elsewhere, the dry crops are nearly all lost and the Nunjah crops are in a critical condition and will be lost in this Taluq also if rain does not fall in 10 or 15 days at the latest. The Season is described by one and all as the worst that has ever been known. The Punjah and Nanjah

crops

14/16..2P

crops may be said to have both failed universally and this is a thing unknown hitherto. Mr. Nicholson's Subsequent report as to the Ramnad division is not favorable. I forward it with its enclosure. Mr. Martin is away in the Palni Taluq and I have no more recent information from him but am expecting to hear from him daily and will submit his letter to the Board the moment it is received. The Temporary Deputy Collector who is now in the Melur Taluq reports privately most unfavorably of that portion of the Melur Taluq which he has just inspected and

urges

urge immediate relief works. It is impossible for me to estimate at the present moment until the returns showing the result of the inspection made by the Divisional Officers and Tahsildars are received what the out-turn of the whole District will be. So far as I have been able to see for myself the out turn of dry crops is not more than 1/8th; and this including lands watered from wells. I form this opinion after carefully going through the Dindigul, Melur, Madura, Tirumangalam, and Periakolam Taluqs. Palni is reported to be

in

in a very bad state though I have not been able to visit it yet, and with regard to Ramnad and Shevagungah I have reason to believe as already stated in my previous letter that Mr. Nicholson was too sanguine. In Dindigul, Madura and Tirumangalam I may say that wet crops are entirely lost. In Palni I have no reason to suppose that they are better off. In Melur and Periakolam there may be a yield of one fourth, not more, and this too is contingent upon a good fall of rain within the next fortnight. I regret that

I

I have not any precise information about Shevagungah and Ramnad, but I dont expect these divisions to be much better off than Melur and Periakolam in this respect. The cultivation season is passing and unless rain falls soon I fear that Ramnad will be no better off for wet cultivation than Madura itself.

3. On receipt of the Boards Proceedings under reply I wrote at once to the Deputy Collector at Madura directing him to telegraph to the Board present prices in Madura. I also give below the prices ruling here in the market held to-day.

They

They are 2d Sort rice 5 measures per Rupee

| | |
|---|---|
| Raggy | 9½ |
| Cumboo | 8½ |
| Cholum 1st Sort | 8½ |
| Black gram | 12 |
| Samei | 10 |
| Varagu | none |

I can only regret that in forming their Estimate the Board should have compared the prices ruling in October 1875 with those of October '76 and would respectfully submit that to arrive at a just conclusion the Board will be pleased to compare the prices ruling in November of last year with those which may be reported by Telegram by the Deputy Collector. I have to remark too that the year 1875 was by no means a favorable year.

4. I have directed the Deputy Collector to forward direct to the Board the information called for in paragraph 4 as I am unable to furnish it myself. Out of the 12,000 Rs referred to by the Board 8,000 Rupees have been already allotted and the divisional Officers urged to press on the execution of the works. I expect that the balance will be allotted at the meeting of the Local Fund Board to be held at Madura to day.

5. In proposing that large sums should be expended upon metalling the roads of the District I was of opinion that this really was a most useful form of relief especially for the inhabitants of our

large

large towns such as Madura, Dindigul, Tirumangalam, Palni and Melur. The metalling of roads will facilitate and cheapen the carriage of supplies; the work being done on existing lines of communication will be easily accessible to all; such work is multiform. It includes the collection of stones and gravel, the breaking and packing of stones, the spreading of gravel and watering and tamping. This will give employment to male and female young and old and to large numbers on a small space. Moreover I consider that this work is of a reproductive character inasmuch as it must reduce the cost of carriage and at the same time lessen, I am informed by the District Engineer, the cost of maintenance in future.

6. In addition to roads there are innumerable tanks throughout the district which more or less require repairs and I hope shortly to have a list of such works ready. The District Engineer reports that the grant for agricultural repairs for this year is already allotted to works and that the greater portion of it has been expended. I have as an emergent measure sanctioned the immediate commencement as relief works of the following works in the Tirumangalam Taluq for which Estimates have been received from the District Engineer but for which no funds are available.

| | | Rs |
|---|---|---|
| // | Repairing Valandoor large tank | 812 |
| // | Do Poolancolam Tank | 928 |
| // | Do Allefondam Periacommoy tank | 375 |
| // | Do Odayikolam Tank & Channel | 302 |
| // | Do Muchiolam Tank | 645 |
| // | Do Kulkolam Tank & Channel | 462 |
| // | Do Alady Tank | 182 |
| // | Do Arasacolam Tank | 282 |
| // | Do Kilavanary Tank | 248 |
| | | 4,236 |

I trust my action in this matter will meet with the Boards' approval. I hope in a few days to be able to direct the commencement of works in other Taluqs where most needed and earnestly solicit that Government will be pleased to place sums at my disposal for this purpose.

I

7. I have already in consultation with the Deputy Conservator of Forests opened the reserve forests alluded to by the Sub Collector to Cattle for grazing. I have further issued a notice to the ryots allowing them to cultivate Punjah crops in their Nanjah lands, and am so far as I am able doing everything in my power to meet the demands of the season and to alleviate the distress of the people.

8. I have as permitted by the Board instructed Tahsildars to suspend the issue of all Coercive process and I again solicit permission to postpone the collection of the Kist which falls due on the 15th proximo. I believe that the Suspension of the

issue

issue of Coercive process will absolutely result in the non-payment of the Kist and that not a ryot of the District will voluntarily come forward with his Kist this year but the knowledge that the Government is paying attention to their condition and the knowledge that the collection of the Kist is postponed will go a long way towards reassuring the ryots and encourage them to recultivate their lands when an opportunity occurs. I trust that the Board will not hesitate to sanction this measure and give me early information of the same that I may make it generally known throughout the District.

9. I will submit hereafter

my proposals as to the Punjah remissions to be granted, but may say that they must be very large

15th November 1876.

No. 451.

From The Ag Hd Asst Collector
of Madura

To The Ag Collector of Madura

Sir, I have the honor to forward a report in a tabular form on the rain fall, State of Crops, and market prices in this Division for the week ending 11th Instant.

I

10/166

I regret that it is unfavorable as regards Sivagunga, Mudukullattoor and Tiruchooly which have had little or no rain though one good rain would probably save the crops in the latter two divisions.

The other divisions have been more fortunate.

The present state of the weather appears to be against any prospect of rain.

I have &ca
Sd/ F. A. Nicholson.
Ag Hd Asst Collector

8 P

---

Submitted to Government in continuation of Boards' Proceedings dated 15th November No $\frac{2838}{1876}$.

The price of rice is much the same as in Madras but the prices of dry grain are comparatively moderate.

The Board approve of the measures taken by the Collector to allow of the cultivation of dry grain on the lands usually irrigated and to stay the issue of coercive processes. Should the season still continue unfavorable the collection of the Kist that falls due on the 15th proximo may be stayed.

The Board do not wish to fetter the Collector in selecting works of relief but as a rule Earth work for the formation of roads and tanks is preferable to metalling roads

Attention

Attention might also be paid to simple works of village improvement. Expenditure on sanctioned Estimates for irrigation repairs is approved and a grant of Rs 4236 is sanctioned. The Board await the Collector's proposals for a remission of dry assessment.

*Proceedings of the Madras Government, Revenue Department,*
*17th January 1877.*

No. 384. Read the following Proceedings of the Board of Revenue, dated 24th November 1876:—

Read the following letter from J. G. HORSFALL, Esq., Acting Collector of Madura, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Periakolam, 20th November 1876, Extra No. 3:—

I HAVE the honor to acknowledge the receipt of the Board's Proceedings of the 15th instant upon my letter of the 7th instant reporting upon the state of the season in this district.

2. I trust that my subsequent letters have fully explained to the Board the very adverse nature of the season and the urgent necessity there is for immediate and very extensive relief works. I have just now come into the Periakolam Taluq and regret to find that things are not much better here than elsewhere; the dry crops are nearly all lost, and the nunjah crops are in a critical condition and will be lost in this taluq also if rain does not fall in ten or fifteen days at the latest. The season is described by one and all as the worst that has ever been known. The punjah and nunjah crops may be said to have both failed universally, and this is a thing unknown hitherto. Mr. Nicholson's subsequent report as to the Ramnad Division is not favorable. I forward it with its enclosure. Mr. Martin is away in the Pulni Taluq, and I have no more recent information from him, but am expecting to hear from him daily and will submit his letter to the Board the moment it is received. The Temporary Deputy Collector, who is now in the Melur Taluq, reports privately most unfavorably of that portion of the Melur Taluq which he has just inspected and urges immediate relief works. It is impossible for me to estimate at the present moment, and until the Returns showing the result of the inspection made by the Divisional Officers and Tahsildars are received, what the outturn of the whole district will be. So far as I have been able to see for myself the outturn of dry crops is not more than one-eighth, and this including lands watered from wells. I form this opinion after carefully going through the Dindigul, Melur, Madura, Tirumungalum, and Periakolam Taluqs. Pulni is reported to be in a very bad state though I have not been able to visit it yet; and with regard to Ramnad and Shevagungah, I have reason to believe, as already stated in my previous letter, that Mr. Nicholson was too sanguine. In Dindigul, Madura, and Tirumungalum I may say that wet crops are entirely lost. In Pulni I have no reason to suppose that they are better off. In Melur and Periakolam there may be a yield of one-fourth, not more, and this, too, is contingent upon a good fall of rain within the next fortnight. I regret that I have not any precise information about Shevagungah and Ramnad, but I do not expect these divisions to be much better than Melur and Periakolam in this respect. The cultivation season is passing, and unless rain falls soon I fear that Ramnad will be no better off for wet cultivation than Madura itself.

3. On receipt of the Board's Proceedings under reply I wrote at once to the Deputy Collector at Madura directing him to telegraph to the Board present price in Madura. I also give below the prices ruling here in the market held to-day.

They are—

| | | | |
|---|---|---|---|
| Second-sort rice | 5 | measures per Rupee. | |
| Raggy | 9½ | ,, | ,, |
| Cumboo | 8½ | ,, | ,, |
| Cholum, first sort | 8½ | ,, | ,, |
| Black gram | 12 | ,, | ,, |
| Samei | 10 | ,, | ,, |
| Varagu | None. | | |

I can only regret that in forming their estimate the Board should have compared the prices ruling in October 1875 with those of October 1876, and would respectfully submit that to arrive at a just conclusion the Board will be pleased to compare the prices ruling in November of last year with those which may be reported by telegram by the Deputy Collector. I have to remark, too, that the year 1875 was by no means a favorable year.

4. I have directed the Deputy Collector to forward direct to the Board the information called for in paragraph 4 as I am unable to furnish it myself. Out of the 12,000 Rupees referred to by the Board, 8,000 Rupees more hove been already allotted and the Divisional Officers urged to press on the execution of the works. I expect that the balance will be allotted at the meeting of the Local Fund Board to be held at Madura to-day.

5. In proposing that large sums should be expended upon metalling the roads of the district I was of opinion that this really was a most useful form of relief, especially for the inhabitants of our large towns, such as Madura, Dindigul, Tirumungalum, Pulni, and Melur. The metalling of roads will facilitate and cheapen the carriage of supplies; the work being done on existing lines of communication will be easily accessible to all; such work is multiform. It includes the collection of stones and gravel, the breaking and packing of stones, the spreading of gravel, and watering and tamping. This will give employment to male and female, young and old, and to large numbers on a small space. Moreover, I consider that this work is of a reproductive character, inasmuch as it must reduce the cost of carriage and at the same time lessen, I am informed by the District Engineer, the cost of maintenance in future.

6. In addition to roads there are innumerable tanks throughout the district which more or less require repairs, and I hope shortly to have a list of such works ready. The District Engineer reports that the grant for agricultural repairs for this year is already allotted to works and that the greater portion of it has been expended. I have, as an emergent measure, sanctioned the immediate commencement as relief works of the following works in the Tirumungalum Taluq, for which estimates have been received from the District Engineer, but for which no funds are available:—

| | | | RS. |
|---|---|---|---|
| (1.) | Repairing | Valandoor Large Tank | 812 |
| (1.) | Do. | Poolancolam Tank | 928 |
| (1.) | Do. | Allegodum Pereacummoy Tank | 375 |
| (1.) | Do. | Oodayikolam Tank and Channel | 302 |
| (1.) | Do. | Muchiolam Tank | 645 |
| (1.) | Repairing | Kulkolam Tank and Channel | 462 |
| (1.) | Do. | Alady Tank | 182 |
| (1.) | Do. | Arasacolam Tank | 282 |
| (1.) | Do. | Kilavanary Tank | 248 |
| | | Total | 4,236 |

I trust my action in this matter will meet with the Board's approval. I hope in a few days to be able to direct the commencement of works in other taluqs where most needed, and earnestly solicit that Government will be pleased to place sums at my disposal for this purpose.

7. I have already, in consultation with the Deputy Conservator of Forests, opened the reserve forests alluded to by the Sub-Collector to cattle for grazing. I have further issued a notice to the ryots allowing them to cultivate punjah crops on their nunjah lands, and am, so far as I am able, doing everything in my power to meet the demands of the season and to alleviate the distress of the people.

8. I have, as permitted by the Board, instructed Tahsildars to suspend the issue of all coercive process, and I again solicit permission to postpone the collection of the kist which falls due on the 15th proximo. I believe that the suspension of the issue of coercive process will absolutely result in the non-payment of the kist and that not a ryot of the district will voluntarily come forward with his kist this year; but the knowledge that the Government is paying attention to their condition, and the knowledge that the collection of the kist is postponed, will go a long way towards reassuring the ryots and encourage them to recultivate their lands when an opportunity occurs. I trust that the Board will not hesitate to sanction this measure and give me early information of the same that I may make it generally known throughout the district.

9. I will submit hereafter my proposals as to the punjah remissions to be granted, but may say that they must be very large.

---

### ENCLOSURE No. 1.

From F. A. NICHOLSON, Esq., Acting Head Assistant Collector, to the Acting Collector of Madura, dated Ramnad, 15th November 1876, No. 451.

I HAVE the honor to forward a report in a tabular form on the rain-fall, state of crops, and market prices in this division for the week ending 11th instant. I regret that it is unfavorable as regards Shevagungah, Mudukullattoor, and Tiruchooly, which have had little or no rain, though one good rain would probably save the crops in the latter two divisions. The other divisions have been more fortunate.

2. The present state of the weather appears to be against any prospect of rain.
