No. 386. Read the following Proceedings of the Board of Revenue, dated 29th November 1876:—

Read the following letter from W. S. LATER, Esq., Acting Collector of Kurnool, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 25th November 1876, No. —

I HAVE the honor to inform you that I have placed a copy of Board's Proceedings, No. —, dated 17th November 1876 before a general meeting of the subscribers for the Kurnool Relief-houses held yesterday morning and the members have resolved to request the Board of Revenue to consider their application for a contribution before Government and get a definite reply from them as to whether the full amount of contribution solicited by them will be granted. They say that it is very necessary that they should have some idea of what aid Government will give them as they will have to alter their plan of relief operations accordingly. It is expected that the relief-houses will have to be kept open at least ten months more, i.e., until the people can harvest a crop with the aid of the next south-west monsoon, and the Committee are naturally anxious to know whether they are to keep the houses going all this time with 11,881 Rupees or double that amount as the knowledge will materially help them in deciding the utmost limit to which they can safely extend their operations.

2. At present relief is administered only in the worst cases of distressed cripples. If the present number of people continue to be fed, the funds available may last eight or ten months, but it can scarcely be expected that the number will be the same. As the season becomes more severe and distress more general, the people seeking admission into the relief-houses will largely increase and then more funds will be required. If the Committee know for certain whether Government aid will then be forthcoming, they will be better able to arrange for all emergencies.

THE Collector is referred to Proceedings of Government, dated 27th November 1876, No. 1,815.

2. The expediency of restricting gratuitous relief to those who are physically incapacitated for work cannot be too strongly insisted on.
