GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

10th May 1877, No. 1,635.

Famine Relief.

Read the following paper :—

No. 207. From J. F. PRICE, Esq., Acting Collector of Cuddapah, to J. H. GARSTIN, Esq., Additional Secretary to Government, Revenue Department, dated 5th May 1877, No. 200.

I HAVE the honor, in reference to the accompanying copy of a letter from Conductor Farley, on special duty in this district, to request the early instructions of Government as to whether the whole of the rice in each depot is to be taken out and examined.

2. If this is required, the inspection of rice in the sub-division alone will be a very long job.

3. From G.O., Revenue Department, No. 1,457, dated 17th ultimo, I gather that all that is required is that an examination of the general condition, &c., of the rice in each depot should be made. I should think that this could be properly effected by looking into the state of, say, 15 to 20 per cent. of the bags in each store.

Enclosure No. 1.

From Conductor H. FARLEY, Commissariat Department, Bellary, to J. F. PRICE, Esq., Acting Collector of Cuddapah, dated Royachoti, 30th April 1877.

AGREEABLY to your official memorandum, No. 279, dated 25th April 1877, I beg respectfully to inform you that I proceeded to Royachoti by cart on the night of the 26th instant, and arrived on the morning of the 28th. I went to the depôts at once to examine the grain, and found that every godown was crammed up to the roofs of the buildings with bags, so that it was impossible to examine them or to take a correct account of their numbers, and to bring them out for the purpose required; there is not a single tarpaulin or mat to cover the bags in case of rain coming on suddenly. However, I have arranged to remove the bags of one godown at a time, and after being examined and counted, to have them stored in again before nightfall. This one depot alone has 15,000 bags and more too to go over carefully, which will take a considerable time. I therefore respectfully request that Mr. Travers's Assistant may be sent to the other depot to facilitate the work, as requested in Government Order, &c., if there are any more, otherwise it will take a longer period to go over them all single handed.

No. 208.

ORDER THEREON, 10th May 1877, No. 1,635.

Miscellaneous.

ONLY such per-centage of the grain need be examined as the Commissariat Conductor deems necessary, to enable

him to form a fair opinion of its general condition.
