GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

12th May 1877, No. 1,703.

Read the following paper:—

No. 245. From Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, to the Hon. D. F. CARMICHAEL, Officiating Chief Secretary to Government, Revenue Department, Fort St. George, dated Ootacamund, 26th April 1877, No. 44.

With reference to the G.O., No. 1,302, of the 3rd instant, I have the honor to remark that the collection of forest produce at the museum could scarcely be fully utilized to the extent a separate forest museum might be by officers or others of this department, or men studying for our profession; it would always be liable to be crowded by the general public. I am still of opinion that the Forest Department should have a museum of its own, and that it should, if possible, be attached to the offices of the Board of Revenue.

2. Should it, however, be decided that the expenditure for two forest collections, one for the public and one for the special study of the Forest Department, is not authorized, Dr. Bidie's proposals in paragraph 7 of his letter might be acted upon; as for our purposes, it would be essential that all the different forest products should be collected together.

No. 246. ORDER THEREON, 12th May 1877, No. 1,703.

Forest, No. 5.

HIS GRACE the Governor in Council resolves to approve the suggestions made by Dr. Bidie in paragraph 7 of his letter, dated the 27th March 1877, No. 96. The forest products will be placed separately in the room available and be under the Curator's care and custody.

2. His Grace in Council trusts that the Conservator and his officers will use their best endeavours to supply it promptly; if possible, the collection should be complete within twelve months. He desires that there should be two specimens of the wood of each timber tree—one cut lengthways, with the bark left on; the other the cross section, also with the bark left on. Seeds, dried flower, and leaves should also accompany.
