GOVERNMENT OF MADRAS
REVENUE DEPARTMENT.

16th May 1877, No. 1,738.

Famine Relief.

Read the following paper:—

No. 333. Proceedings of the Board of Revenue, dated 2nd May 1877.

THE Board deem it necessary again to call the attention of Collectors of distressed districts to the undue proportion of road-works which are being undertaken as relief-works. The unkeep of these roads hereafter will seriously cripple the local funds; and in all probability these funds will be chargeable also with the cost of construction of all roads now made.

2. It is desirable, therefore, that projects for new roads should not be entertained, but that repairs of irrigation works should be taken up instead. Of these, any number of useful works can be found, notwithstanding that, as the Board are aware, many have been taken up by the Public Works Department. If road-works cannot be avoided, Collectors should direct the laborers seeking employment on existing roads.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 2nd May 1877.

The Board deem it necessary again to call the attention of Collectors of distressed districts to the undue proportion of road works which are being undertaken as relief works. The upkeep of these roads hereafter will seriously cripple the local funds; and in all probability these funds will be chargeable also with the cost of construction of all roads now made.

2. It is desirable therefore that projects for new roads should not be entertained, but that repairs of irrigation works should be taken up instead. Of these, any number of useful works can be found; notwithstanding that, as the Board are aware, many have been taken up by the Public Works Department. If road works cannot be avoided, Collectors should direct the laborers seeking employment to the completion of road works already undertaken, or to the storage of metal on existing roads.
