GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

17th May 1877, No. 1,742.

Famine Relief.

Read the following paper :—

No. 341. Proceedings of the Board of Revenue, dated 2nd May 1877.

Read the following letter from W. S. WHITESIDE, Esq., Collector of North Arcot, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated Gudiatham, 23rd April 1877, No. 282.

AGREEABLY to the instructions conveyed in the Board's Proceedings, dated 12th January 1877, the storage of metal and gravel by the sides of the existing roads in the district is in active progress. The District Engineer, Lieutenant-Colonel Prendergast, has informed me that he has now to repair the roads out of his Budget grant, and that a large quantity of materials is required for the purpose. I have therefore the honor to inquire whether the Public Works Department can now commence to use the metal and gravel that has just been collected under my orders as aforesaid, or whether the materials are to be reserved for the future repair of the roads. An early reply is requested.

THERE is no objection to the metal being now used, provided a careful measurement is made and recorded of the quantity stored before it is touched by the District Engineer. The metal taken will have to be paid for by Local Boards. The District Engineer should not take up roads while relief-work is still in progress upon them.

2. Where roads have been repaired from relief funds probably large savings may be made from maintenance grants, and the attention of the District Engineer should be called to the necessity of making such savings, as the Board fear that the financial position of the Local Funds in 1877-78 will be much worse than that estimated, and that grants for public works will have to be reduced.

FARMING RELIEF No. 1199

Metal and Gravel stored on the sides of the existing
roads in North Arcot.—Approving the Proceed-
ings of the Board of Revenue permitting the Public
Works Department to use the —

grant and that a large quantity of materials is required for the purpose - I have therefore the honor to enquire whether the D.P.W. can now commence to use the metal and gravel that has just been collected under my orders as aforesaid, or whether the materials are to be reserved for the future repair of the roads. An early reply is requested.

North Arcot
Collector's Office } (D) M. S. Philside
Camp Gudiatham } Collector
23rd April 1877

There is no objection to the metal being now used, provided a careful measurement is made

and recorded of the quantity stored before it is touched by the District Engineer. The metal taken will have to be paid for by local Boards. The District Engineer should not take up roads while relief work is still in progress upon them.

2- Where roads have been repaired from relief funds probably large savings may be made from maintenance grants, and the attention of the District Engineer should be called to the necessity of making

Making such savings as
the Board fear that the
financial position of the
local funds in 1877-8 will
be much worse than that
estimated, and that grants
for public works will have
to be reduced.
