GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

28th May 1877, No. 1,896 B.

Famine Relief.

Read the following paper:—

No. 542-D. Proceedings of the Board of Revenue, dated 9th May 1877, No. 2148.

Read the following letter from C. F. MacCARTIE, Esq., Special Assistant Collector of Cuddapah, to J. F. PRICE, Esq., Acting Collector of Cuddapah, dated 27th April 1877, No. 73:—

I HAVE the honor to submit the report for the week ending Friday, 27th instant, upon the physical condition of the famine relief coolies in the Cuddapah Taluq as directed in your circular of March 1877.

The following parties were inspected by myself:—

Boogga Road, 16 gangs, total number 800.

Yerraguntla Road 5 do. do. 195.

Dongalchervu, 23 do. do. 1,065.

I was obliged to depute the duty of inspecting the other works in the taluq to the Tahsildar owing to absence on special duty elsewhere.

He reports that the condition of the coolies is very satisfactory, and that cases of emaciation have not increased.

No change whatever for the worse was apparent on the Boogga road work people, the percentage of weakly persons being as before about 3 per cent.

On the Dongalchervu tank also the people seemed to have improved; of 1,065 inspected 47 were old people and 33 only were in a reduced condition, which gives a percentage of $3\frac{1}{2}$ only of persons whom I consider to have been affected by the low rate. The old people were by no means in bad heart, and, as they would never fatten much, it is unfair to include them with people who are distinctly weakly in appearance in striking an average. The average of weakly people at the last inspection a fortnight before was a trifle over 4 per cent. In noticing the Yerraguntla party in my last report, I observed that a falling off was apparent, which I attributed to the poverty of that part of the taluq, and that I had taken steps to ease them by slightly reducing the task and by ordering their wages to be calculated according to the price of rice in Yerraguntla village.

This gave them an increase of one pie per head per diem or the exact amount of concession allowed in a recent Government Order. On inspecting them on the 24th instant, I found a striking improvement in their appearance as out of 193 inspected 15 only were in a reduced state, which gives a percentage of $7\frac{1}{2}$ per cent., and the people altogether had lost the depressed look which struck me on my last inspection over a fortnight before; this must be ascribed to the slight increase in rate and to the fact that more advantage was taken of the provision for non-laboring children of which the people were slow to avail themselves of at first under the impression that they would be forcibly vaccinated or transported to Nellore.

On the whole no harm has resulted, and I consider that the present scale may be continued as far as this taluq is concerned for a time at least.

Wages are calculated according to the price of rice and not raggy, which is considerably cheaper than the former.

No. 195.

FORWARDED for the information of the Board of Revenue. Mr. MacCartie's report shows that the coolies are in good condition, but from what he says it is evident that they have, except perhaps at Yerraguntla, not been living upon 1 lb. of grain. From what I saw of the country on the banks of the Pennair about 4 1/2 miles from Yerraguntla and where the raggy crops had just been harvested, I am inclined to think that the people at Yerraguntla have been able to obtain raggy. I consider that it would be unsafe to alter the present standard. The Special Inspecting Medical Officer's opinion is that the diet given to the prisoners in the relief camp who have nothing in the way of labor to do is insufficient. (This is the cooked food resulting from 20 ounces of grain with pepperwater and vegetable added.)

Cuddapah,
1st May 1877.

(Signed) J. W. JOHNSTON,
Special Deputy, for Acting Collector.

SUBMITTED for the information of Government.

2. There seems no need to make immediate change here. The fact that raggy is obtainable and that the wages are computed with reference to the price of rice explains the result. The increase of one pie allowed by Mr. MacCartie at Yerraguntla could scarcely have produced so marked an effect.

No. 73.

From

C. F. Mac Carthy Esq
Spl. Asst. Commr
Cuddapah

To

J. F. Price Esq
Asst. Commr
Cuddapah

Sir,

I have the honor
to submit the report for
the week ending Friday
27th instant upon the
physical condition of
the Famine Relief Coolies
in the Cuddapah Taluq
as directed in your

regular of March 1877.

The following parties
were inspected by myself

Noogga road 16 gangs total No 800

Yerraguntla do 5 do do 195

Bongal Cheruvu 23 do do 1065

I was obliged to dispute
the duty of inspecting
the other works in the
Taluk to the Tahsildar
owing to absence on spe-
cial duty elsewhere.

The reports that the
condition of the Taluk
is very satisfactory & that
the number of emigrations have
not increased.

To change whatever

for the worse was a
parent on the Noogga
road work people the
percentage of weakly
persons, being as before
about 3 per cent.

On the Bongal Cher-
uvu work also the peo-
ple seemed to have im-
proved of 1065 inspected 47
were old people & 33 only
were in a reduced condition
which gives a per cent-
age of $3\frac{1}{2}$ only of persons
whom I consider to have
been affected by the low
rate. The old people were
by no means in bad health
and they would never

fallen much, it is un-
fair to include them with
people who are distinctly
weakly in appearance in
striking any average. The
average of weakly people
at the last inspection
a fortnight before was
a triple over 4 per cent.

In noticing the Yerraguntla
party in my last re-
port, I observed that a
falling off was apparent
which I attributed to
the poverty of that part
of the taluk & that I
had taken steps to ease
them by slightly reducing the

Relief Camp who have
nothing in the way of
bounties is insufficient.
This is the cooked food re-
sulting from 20 oz of grain with
pepper water & vegetable
added.

Gundapa Taluk (D) J. W. Johnson
Officer at Rayachoti
Spl. Dy for
Col.

Submitted for the infor-
mation of Govt.

2. There seems no need
to make immediate change
here. The fact that Rayachoti
is obtainable & that
the wages are computed
with reference to the
price of rice explains

the result. The increase
of one pie allowed by Mr
McCartie at Yerragunt
la could scarcely have
produced so marked an
effect.

(True Copy & Co)

Order
Secretary

To The Addl Secy to Govt M.D.

The back & by ordering
wages to be calculated ac-
cording to the price of rice
in Yerraguntla village.
This gave them an in-
crease of 1 pie per head or
per diem or the exact
amount of conception
allowed in a recent G.O. On
inspecting them on the 22nd
Inst. I found a striking
improvement in their ap-
pearance about of 193 in-
spectes 15 only were in a re-
duced state which gives
a percentage of $7\frac{9}{13}$ per-
cent & the people altho. in-
ferior had lost the de-
pressed look which

Thank me on my last
inspection over a fortnight
before this must be as-
cribed to the slight increas-
in rate & to the fact that
more advantage was ta-
ken of the provision for
now laboring children of
which the people were
slow to avail themselves
of at first under the
impression that they
would be forcibly vacci-
nated or transported to
Vellore.

On the whole no harm
has resulted & I consider that
the present work may be

continued as far as this
thing is concerned for a time
at least.

Wages are calculated
according to the price of grain
& not ragg which is con-
siderably cheaper than
the former.

Goodapa 18th Sept 1895
In Office of M. P. P. (C) C. P. de G. (C)
spl 18th Sept 1895
(True Copy)

No 195.

Forwarded for the in-
formation of the Doct^r.
Mr. de G. has reported that
that the coolies are in
good condition but from
what he says it is evi-
dent that they have

perhaps at Yer-
ragumbla, not being
using upon it of grain.
From what I saw of the
country on the bank of
the Pennan about 5 1/2
miles from Yeragumbla
& where the Ragi crops
had just been harvested
I am inclined to think
that the people at Yer-
ragumbla have been able
to obtain Ragi. I con-
sider that it would be im-
safe to allow the present
standard. The special
inspecting ^{that} officer's opinion
is that the diet given
to the paupers in the
