I HAVE the honor to report, for the information of Government, that the rain-gauge at Homes's Gardens, which is examined at 11 A.M. each day, shows a total fall of 24.39 inches from the 15th to this morning. The heaviest fall was between the 17th and 18th, when 14.10 inches were registered.

" 16th to 17th	3.00
" 17th to 18th	14.10
" 18th to 19th	6.43
Total	24.39

I have received no detailed reports from the taluqs as yet; but I understand that heavy rain has fallen throughout the district, and that large tanks have received a fair supply, while small ones are discharging over their calingulahs. The Cortelliar on which the Red Hills Tank is chiefly dependent for its supply from the Velliyar anicut is in fresh and impassable for bandies.
