as far as possible, by the Head Assst

Sir

With reference to your en-
dorsement of 16th January on the Bezawada
Assistant Apothecary's application
for a temporary shed, I have the
honor

1856.
honor to inform you ~~that~~ I visited
the Hospital this morning & ascertained
from the Medical Officer in charge that
his application was not intended for
a shed for patients afflicted with con-
tagious diseases, but for ordinary sick.

2 There are a large number of travellers
passing through Bezawada every day, and
several of them arrive in a debilitated
state, and after suffering from various
diseases not necessarily contagious. Before
these can be sent on to the Relief works,
they should be kept in Hospital and
cured. But the Medical Officer cannot
find room for them all I think that
without difficulty or danger a temporary
shed could be erected in the vacant
space to the west of the building where
I

I believe the Local Fund Board continue-
-plate eventually raising new wards

6 For Contagious diseases there
are the two Cholera Chaultries beyond
the Ryvis Channel, and I would suggest
the erection of a temporary shed at the
north end of the Tank to the north
of the Town, as being still further
removed from the public than the
Cholera Chaultries round which are
now daily gathered a large quantity
of bandies, travellers, carpenters,
and ironsmiths. This could be
erected hereafter on necessity arising.

But I would advocate the imme-
-diate of the temporary shed near the
Hospital for ordinary patients.

Sir

With reference to your letter
No 56 dated the 6th instant, I have
the honor to refer for your approval
another selection of a site for a temporary
shed at the Hospital Bezawada till
a new ward is erected. The assistant
Apothecary in charge tells me that every
day he has to send away patients for

want of room, whom otherwise he would
take in as in-patients. If the site now
selected will not do, I fear that the
plan must be given up altogether, as
I cannot find a site anywhere else
which would be sufficiently within
reach of the Dispensary.

2 In the enclosed plan is the
site originally proposed and objected
to by you, B, that now proposed.
