[illegible]

I have been thinking
of you very much lately
and wondering how you are
getting along. I hope you
are well and happy. I am
well at present. I have been
very busy lately, but I
will try to write to you more
often. I love you very much.
Your affectionate son,
John Doe.

Memorandum

1864

The proper height of a tank bund above maximum water level depends upon the depth of water, the waterspread and the direction of prevailing strong winds, and to some extent also upon the slope of the pavement. Large reservoirs often require for their safety a margin of 6 to 8 feet otherwise the water washes over.

2. Apparently it would be advisable that the Estimate referred to, and other similar estimates, if beyond the limits of local sanction, should be submitted to this office for disposal in the usual course. When the submission of estimates is not emergent that sanction should be accorded in the Public Works Dept.

C12-57) R11-57)

and the sanction of execution
of the work from famine relief
funds may then be given when
necessary.
