PROCEEDINGS OF THE BOARD OF REVENUE, dated 8th May 1877.

Read the following letter from J. F. PRICE, Esq., Acting President of the Local Fund Boards, Cuddapah District, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated 19th April 1877, No. 221 :—

Completing Kurli ghaut, a portion of road from Muddunur to Kadiri. Item No. 3, Part I of the current year's Budget.

WITH reference to paragraph 8 of Board's Proceedings, No. 3,206, of 18th December 1876, I have the honor to submit herewith an estimate, &c., for the marginally-noted work, amounting to Rupees 34,600, as reduced by the Local Board, and to request that the Revenue Board will be good enough to obtain the sanction of Government for the same.

2. Though there is an allotment of Rupees 5,000 for the work in the current year's Budget, there being a deficit balance of Rupees 32,940 under Road Fund on the 28th February 1877, the Circle Board have resolved to allot funds for the work when available.

3. Copy of District Engineer's letters, Nos. 2,515 and 2,783, of 6th February and 5th March 1877, and the Circle Board's resolutions on the subject are herewith submitted.

ENCLOSURE No. 1.

Copy of a letter from the District Engineer of Cuddapah, to the Acting President of the Local Fund Boards, Cuddapah District, dated Jammalmadugu, 6th February 1877, *No.* 2,515.

WITH reference to your No. 59, dated 30th ultimo, I have the honor to forward herewith two books of sections, three sheets of survey plans with a plan for store-shed, two specifications, two estimates, and an abstract estimate with a detail and abstract estimate for a store-shed amounting to Rupees 36,400, of which Rupees 11,235 have been spent up to 31st March 1876 for constructing a road over Kurli ghaut in Pulivendla Taluq from 66th mile 2nd furlong 115 yards to 71st mile, and request you will obtain early sanction of Revenue Board for the same with an allotment of funds, as the execution of this work will be of much advantange as a relief work in that part of the country and will open up the road between Pulivendla and Kadiri.

Copy of a letter from the District Engineer of Cuddapah, to the Acting President of the Local Fund Boards, Cuddapah District, dated 5th March 1877, *No.* 2,783.

WITH reference to the resolution of the Local Fund Board, Cuddapah Circle, under date the 22nd ultimo, communicated with your letter, No. 117, of the 26th idem, I have the honor to inform you that huts with mud walls and a chupper roof would, in my opinion, be a simple waste of money as they would be destroyed by white-ants in a very short time; and so if the Board is not prepared to pass my plan, &c., I would suggest that the item for huts be struck out altogether.

Extract from the Proceedings of the Local Fund Board, Cuddapah Circle, dated 22nd February 1877.

* * * *

1. Read letter from the District Engineer, dated 6th February 1877, No. 2,515, requesting sanction for an estimate, amounting to Rupees 36,400, for constructing a road over Kurli ghaut in Pulivendla Taluq.

The Board consider that such very extensive buildings as the "tool sheds" mentioned in the estimate are not required, even supposing that in addition to their legitimate use for the custody of tools they are employed as shelters for officers inspecting and superintending the works. The District Engineer is requested to forward as soon as possible estimates for a less expensive kind of building. The Board is of opinion that a hut with mud walls and chupper roof would be quite as much as is required.

Extract from the Proceedings of the Local Fund Board, Cuddapah Circle, dated 13th April 1877.

* * * *

1. Read Resolution, No. 1, dated 22nd February 1877.

Read District Engineer's letter, No. 2,783, of 5th March 1877, stating, in reply to the Circle Board's resolution above quoted, that huts with mud walls on the Kurli ghaut would be a waste of money, and suggesting in consequence to strike out the item for huts if the Board do not pass the plan, &c., already sent.

The Board observes that the road will soon be completed, and resolves to strike the item "tool sheds" out of the estimate as proposed by the District Engineer. The remainder of the estimate is sanctioned. Funds will be allotted when available.

Enclosures Nos. 2 to 7.—Plans.

Enclosure No. 8.—Estimate.

Enclosure No. 9.—Specification.

Enclosure No. 10.—Report.

The plans and estimate, amounting to Rupees 34,600, for constructing a second-class road over the Kurli ghaut, a portion of road from Muddanur to Kadiri (length 3 miles 5 furlongs and 105 yards), are submitted for the sanction of Government after reference to the Chief Engineer. This is the work which is specially noticed in paragraph 8 of the Board's Proceedings, dated 18th December 1876, No. 3,206, recorded in G.O., Financial Department, dated 8th January 1877, No. 64.

2. The importance of the road is clearly explained in the Assistant Engineer's specification report (dated 2nd February 1877) accompanying the estimate.

3. The original amount of the estimate was Rupees 36,400, but the Local Fund Board have reduced it to Rupees 34,600 by disallowing the provision of Rupees 1,800 for two store-sheds, as they are of opinion that such expensive buildings are not required. The latter amount includes an outlay of Rupees 11,235 incurred on the work up to the close of 1875-76.

4. The work appears as Item No. 3 in Part I of the current year's Budget of the Cuddapah Circle with an allotment of Rupees 5,000 which is not to be utilized, the Road Fund of the Circle having closed with a deficit of Rupees 32,940 on the 28th February 1877. The President is requested to ascertain and report at once what the actual deficit was on the 31st March last and how he proposes to meet it.

5. The Board note that funds for the work in question are to be allotted when available, and that therefore the allotment of Rupees 5,000 should be considered cancelled.
