GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

1st June 1877, No. 1,875-A.

Famine Relief.

Read the following paper :—

No. 12-A. Diary, No. 4, of the Acting Third Member of the Board of Revenue.

From Vencatagiri to Gudur, 25 miles, through the Vencatagiri Division of the Vencatagiri Zemindari.

THE road to Gudur passes through a very poor jungly country, apparently thinly inhabited. A considerable quantity of gravel and metal has been stocked, and the road has been widened in places. I understand that there is an estimate of about a quarter of a lakh of rupees for the thorough re-making of this road. The Raja's tank repairs have not been proceeded with since the money was made over to the Collector, but the Raja has furnished a list of eighteen works for which estimates were prepared by his people, and on which a commencement is said to have been made by him. Since writing Diary No. 3 I am told that the road work from Vencatagiri to Gudur has been stopped, so there is much need for other work in the Vencatagiri Division. The population is about 50,000, of which only 1,000 are employed on the roads and 956 are in camp. The outlay on relief-works (roads) hitherto is Rupees 1,420, irrespective of what may have been spent on collecting material on the Gudur road under the Public Works Department. The Raja is anxious that his grant for relief should be spent on irrigation-works only, and I conclude that the cost of the road in progress, Naidupet to Vencatagiri, will be debited to Local Funds and that of the camp to Famine.

2. The cattle seem fairly well off; there has been a little rain, and there is grass in places besides enough water for the present. The markets are supplied from Vencatagiri. The engineering supervision is hardly sufficient. The Bengal Overseer cannot manage the road and prepare estimates and superintend work on scattered tanks as well; he will want assistance for supervision, especially if the Sub-Magistrate is employed mainly on magisterial work.

3. On leaving the Vencatagiri Zemindari the aspect of the country is changed, the sterile, gravelly soil that produces little but jungle ceases, and from the frontier to Gudur, the cusbah of the taluq of that name, the fallows are green with grass; there is water in several tanks and some cultivation round wells. There is a relief-house at Gudur where 790 people are fed. When I visited the place I found a large number of Pariahs who asserted that they could not gain admittance. The Superintendent informed me that he had not had time to attend to them; but as this was 9 o'clock in the morning, and the people had come over-night, I am inclined to infer that it was rather a case of selection, and that the Pariahs were denied admittance, not on account of their social status, but on the plea that they were able to work. I will discuss this subject with the Collector, and may be able to make my suggestions when reviewing the diaries hitherto written and reporting on the general condition of the southern divisions of the Vencatagiri Zemindari.

DIARY No. 4.

From Vencatagherry to Gudur, 25 miles,
through the Vencatagherry Division
of the Vencatagherry Zemindari.

THE road to Gudur passes through a very poor jungly country, apparently thinly inhabited. A considerable quantity of gravel and metal has been stocked and the road has been widened in places. I understand that there is an estimate of about a quarter of a lakh of Rupees for the thorough remaking of this road. The Rajah's tank repairs have not been proceeded with since the money was made over to the Collector, but the Rajah has furnished a list of 18 works for which estimates were prepared by his people and on which a commencement is said to have been made by him. Since writing Diary No. 3, I am told that the road work from Vencatagherry to Rapur has been stopped, so there is much need for other work in the Vencatagherry division. The population is about 50,000, of which only 1,000 are employed on the roads and 956 are in camp. The outlay on relief works (roads) hitherto is Rupees 1,420, irrespective of what may have been spent on collecting material on the Gudur road under the Public Works Department. The Rajah is anxious that his grant for relief should be spent on irrigation works only, and I conclude that the cost of the road in progress, Naidupet to Vencatagherry, will be debited to Local Funds, and that of the camp to Famine.

The cattle seem fairly well off; there has been a little rain and there is grass in places besides enough water for the present. The markets are supplied from Vencatagherry. The engineering supervision is hardly sufficient. The Bengal Overseer cannot manage the road and prepare estimates and superintend work on scattered tanks as well; he will want assistance for supervision especially if the Sub-Magistrate is employed mainly on magisterial work.

distressed districts.

Diary No 4
From Venkatagerry to Gudur
25 Miles through the
Venkatagerry division of
the Venkatagerry Zeminda-
ri.

The road to
Gudur passes through
a very poor jungle
country, apparently
thinly inhabited. A
considerable quantity
of gravel and metal has
been stocked and the road
has been widened in
places. I understand that
there is an estimate of about
a quarter of a lac of Rupees
for the thorough re-making of
this road. The Rajah's tank
repairs have not been pro-
ceeded with since the money
was made over to the Collec-
tor, but the Rajah has fur-
nished a list of 18 works for
which estimates were pre-
pared by his people and
on which a commencement
is said to have been made
by him. Since writing diary
No 3 I am told that the road
work

work from Vincatagerry to
Rapur has been stopped, so
there is much need for other
work in the Vincatagerry
division. The population is
about 50,000 of which only
1000 are employed on the
roads and 950 are in Camp.
The outlay on relief works
(roads) hitherto is Rs 1420
irrespective of what may
have been spent on collecting
material on the Gudur road
under the D.P.W. The Rajah
is anxious that his grant
for relief should be spent
on irrigation works only, and
I conclude that the cost of
the road in progress, Naidu-
pet to Vincatagerry, will be
debited to local funds and
that of the Camp to famine.
The cattle seem fairly well off -
there has been a little rain &
there is grass in places besides
enough water for the present.
The markets are supplied
from Vincatagerry. The Engi-
neering supervision is hardly

sufficient. The Bengal Over-
seer cannot manage the road
and prepare estimates and
superintend work on scat-
tered tanks as well. he will
want assistance for super-
vision especially if the Sub-
Magistrate is employed main-
ly on Magisterial work.
On leaving the Vincatagerry
Zemindary the aspect of
the country is changed. the
sterile gravelly soil that
produces little but pingle
ceases, and from the frontier
to Gudur the trisbah of the
tating of that name, the
fallow are green with
grass. there is water in sev-
eral tanks, and some cul-
tivation round wells. There
is a relief house at Gudur
where 400 people are fed.
When I visited the place I
found a large number of
pariahs who asserted that
they could not gain admit-
tance. The Superintendent
informed

informed me that he had
not had time to attend to
them, but as this was 9
o'clock in the morning and
the people had come over-
night, I am inclined to
infer that it was rather
a case of selection and
that the pariahs were
denied admittance - not on
account of their social sta-
tus but on the plea that
they were able to work. I
will discuss this subject
with the collector and may
be able to make my sug-
gestions when reviewing
the diaries hitherto written
and reporting on the general
condition of the southern divi-
sions of the Venkatagerry
Zemindari.
