GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

8th June 1877, No. 1,926-A.

Famine Relief.

Read the following paper:—

No. 132-A. Proceedings of the Board of Revenue, dated 23rd May 1877.

Read the following letter from Captain F. H. WINTERBOTHAM, Commanding, E. Company, "Queen's Own" Sappers, to J. H. MASTER, Esq., Collector of Bellary, dated 10th May 1877, No. 235:—

I HAVE the honor, in bringing the following facts to your notice, to express a hope that you may see fit to support this my application for some extra allowance for myself whilst employed on famine relief duty:—

1. The head-quarters of the Company under my command arrived at Bellary from Bangalore on 8th March 1877 for employment, by order of Government, on famine relief-works under the Civil authorities.
2. On arrival I was ordered to send out some Sappers to the southern and western taluqs, and to employ the remainder on the relief-works at Mainwaring's tank. I personally superintended and had the entire charge of this work.
3. On May 2nd; I received from you a copy of the Government Order placing the Company for distribution on works under your orders.
4. I have since then, by your order, sent off parties to Kurnool, Gooty, and Adoni and for work on the Bellary-Hooblee State Railway, and I am about to proceed to meet Mr. Glenny at Gooty and Mr. Oldham at Adoni to confer with them about the employment, halting, payment, &c., of the men; and I must frequently visit those and other parties to keep my knowledge of, and interest in, the men and their work.
5. The pay, working pay, &c., of the whole of the Sappers in the district has been drawn by me at Bellary, and I have had to make arrangements for the disbursement of the same to the men wherever employed, and also for the keeping of the arms, accoutrements, &c., of the men whilst they are away from Bellary. I have also personally to make arrangements for and superintend the movements of parties ordered from one place to another, and to advance from my own private funds cash for Railway fare, cart-hires, &c., for parties so moving.
6. I have to collect and record information regarding the work, hutting, pay, health, behaviour, &c., of all my men, not only of those in this district, but also of those on famine relief-works at Madras, Cuddapah, and Kurnool, and in many other ways, such as the granting of family certificates, &c., a great deal of extra office work has been thrown on my hands.
7. The whole of my men are on famine relief-works, and the head-quarters of the Company so employed was ordered to be established at Bellary, and from here I am conducting the work of the Company, and (where the distribution of the men on works does not entirely preclude the possibility of my doing so) superintending to the best of my ability the men on work.

Revenue Department, 8th June 1877, No. 1,926-A.

8. I think I am right in saying that almost all Government servants in the district are receiving a sort of extra famine allowance, and that I am nearly the only one actually placed under the Civil authorities for employment on famine relief-works not receiving any extra allowance whatever! and I trust I may have shown that I am entitled to an extra allowance also, in which case I feel certain that you will give my application the weight of your support, and I don't not but that it will receive the sanction of Government.

2. The Collector should make such arrangements as will obviate the necessity of Captain Winterbotham advancing his own money for the transport and other expenses of the Sappers.

It seems to me that the
question for solution is this:
Is Capt. W. a Civil
Engineer? He & his Company
have been at Bellary for
some time & the men have
been scattered a good deal.
He appears to have had
some time charge, to
be of the work in
connection with it. but
I don't know under what
circumstances. A
late application to the
D.O. for the papers
connected with the
work resulted in a
reply that there were
none.

Handwritten notes:
I am not sure
that Capt W. has been
definitely of the Civil E.
to work under Civil E.
He is in charge of the
assault. He has
naturally the work of
them at the D.O. who
were boring for the
in the tank close
to the doors. but I
do not see any
provision allowance. I
know his travelling is only
paid.

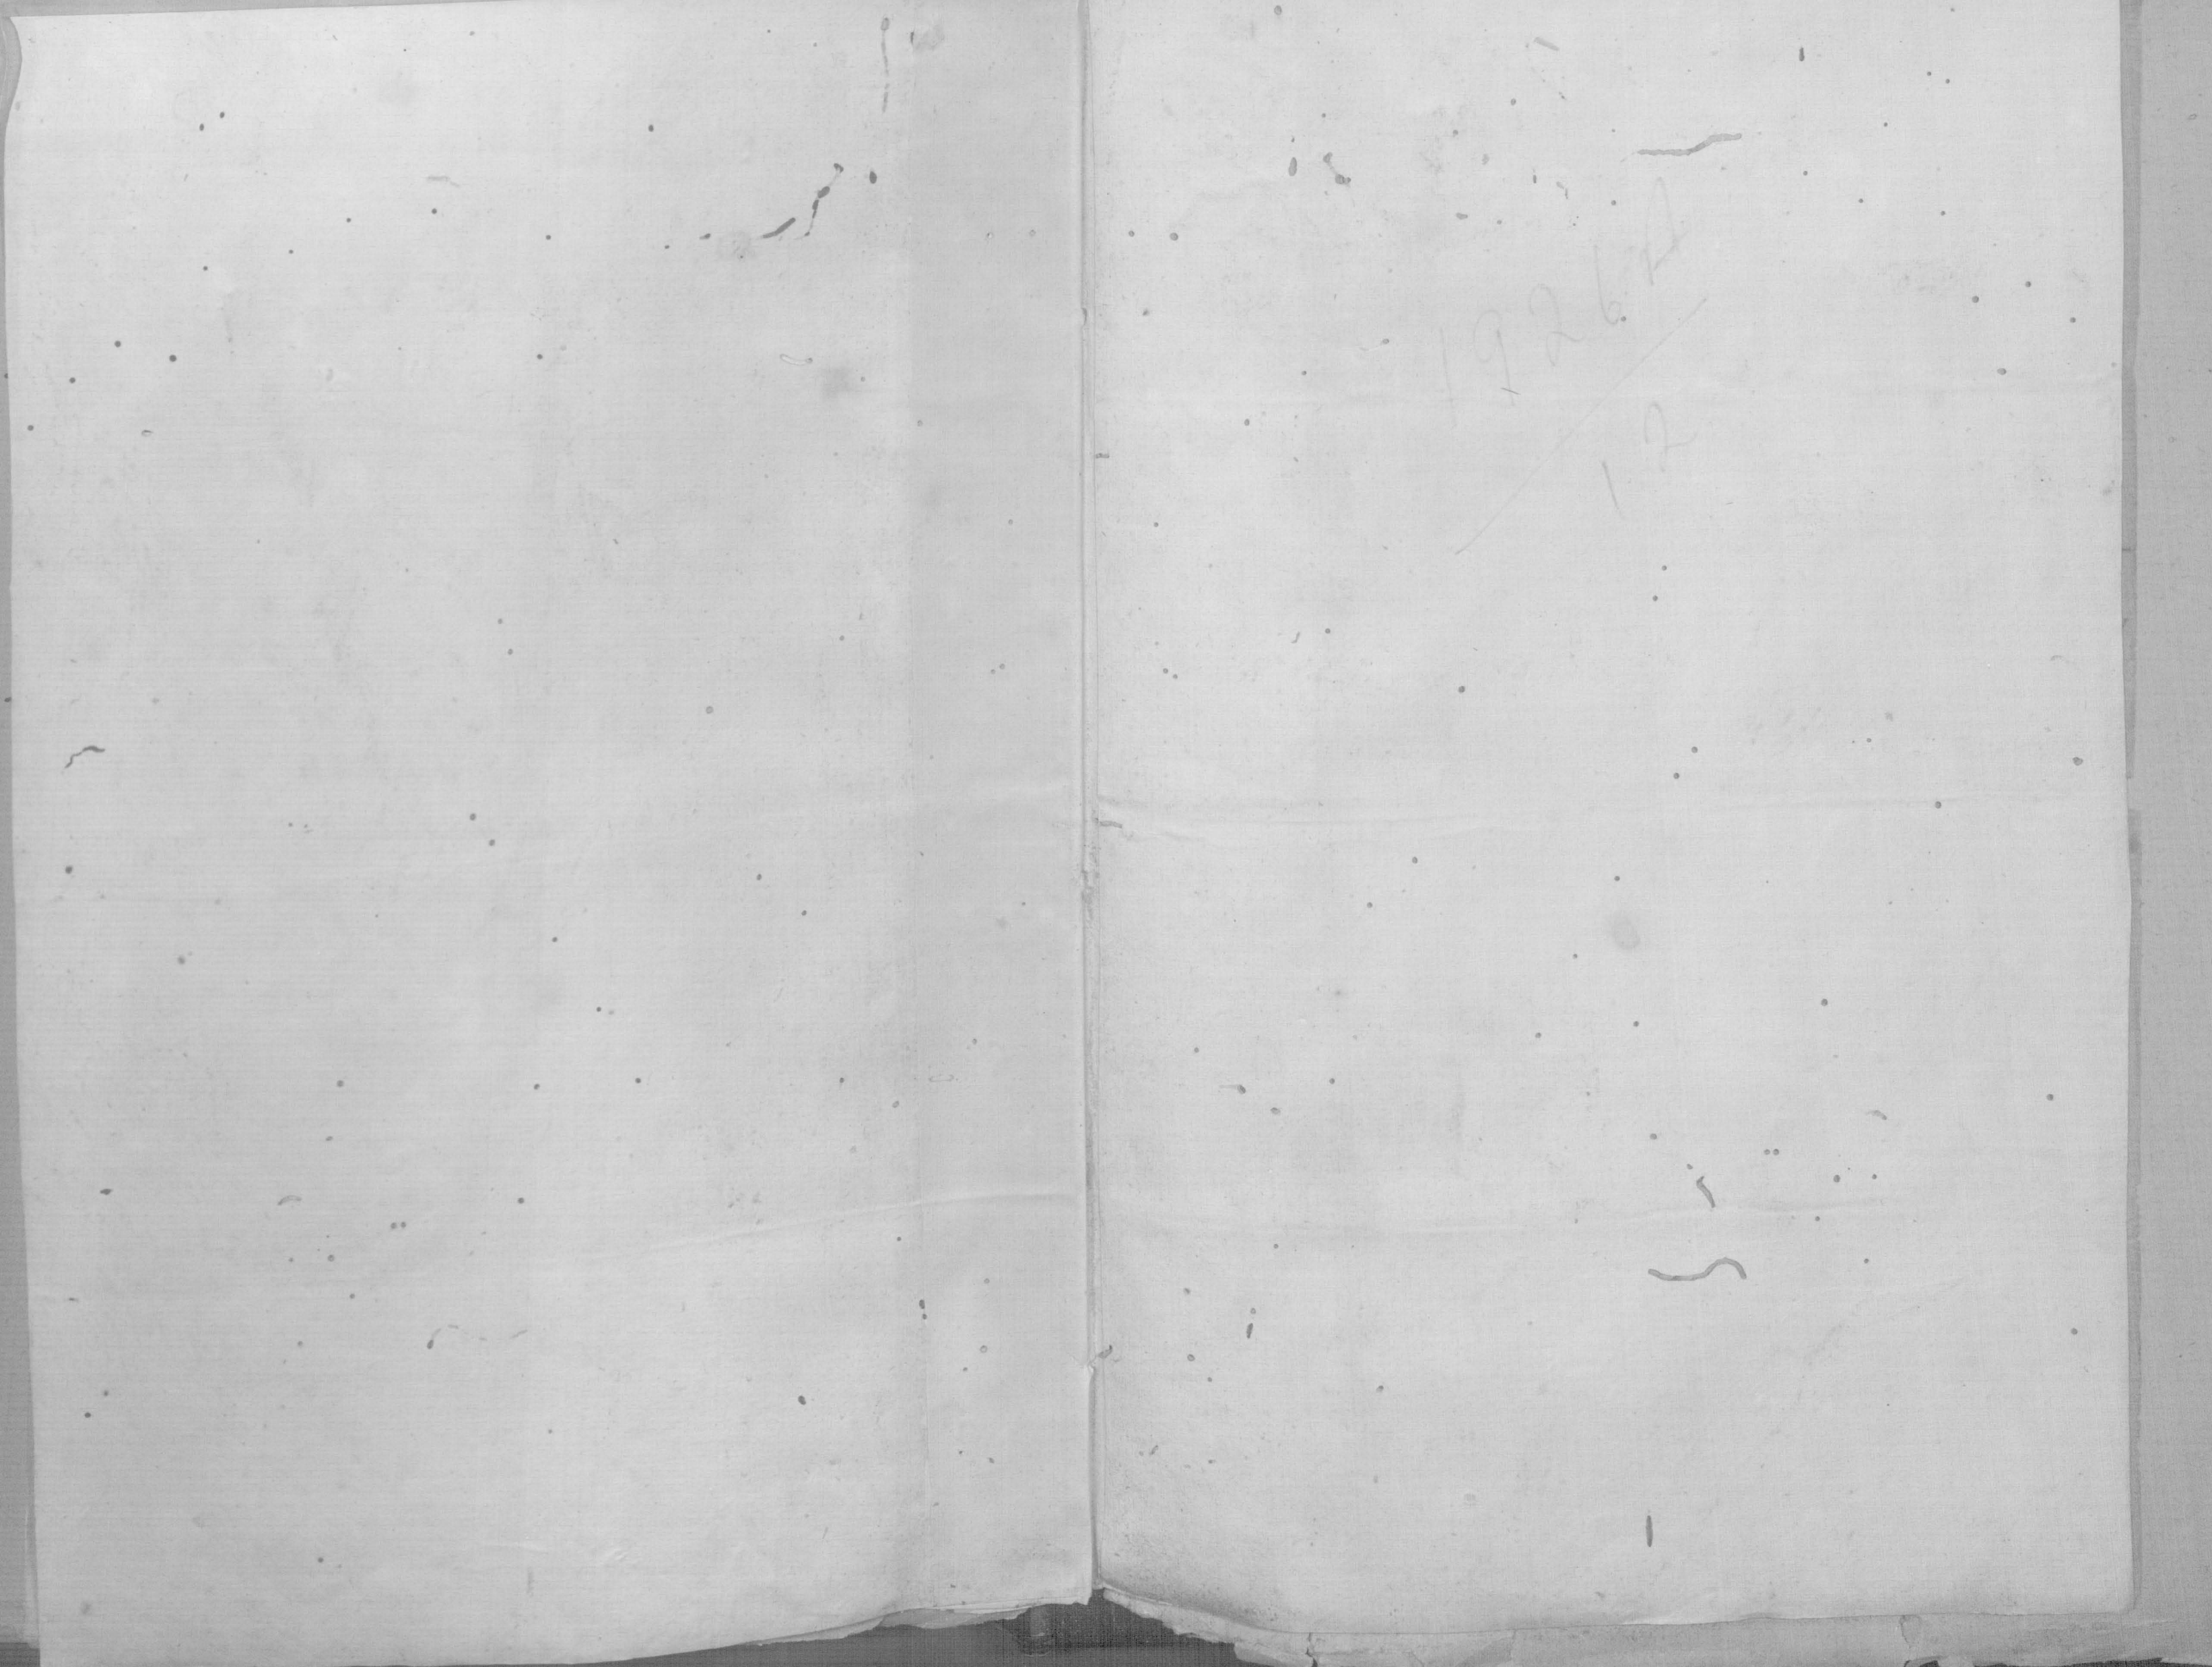

Handwritten notes:
I think he was in the
same position as the latter
officer on the East Coast Coast
if he is not much.
