Read the following paper:—

No. 229. Proceedings of the Board of Revenue, dated 30th May 1877, No. 2,495.

Read the following Proceedings of the Madras Government, dated 9th May 1877, No. 1,677, Revenue Department.

ABSTRACT.—*Salt Excise in the Districts of Malabar and South Canara.*—Recording observations on letter from the Government regarding the introduction of— in lieu of the Government monopoly, and requesting the Board to report the date on which the change should be introduced.

The Board are of opinion that the Salt Excise Act should be brought into force in Malabar and Canara from the 1st July 1877. The manufacturing season in the latter district usually commences in March, and it is necessary that an early date should be fixed to give the manufacturers time to mature their plans and obtain licenses and to admit of the Collector making the requisite arrangements. As regards the abandonment of the Government supply, the Board consider that November 1st may safely be fixed. This will afford ample time to merchants to import after the cessation of the monsoon before the Government stores are closed. The Trade Returns show that importations of salt on private account from Po. Bay commenced last year in September, 134 tons having been imported from that place into South Canara and no less than 2,675 tons into Malabar during that month, whilst small quantities of Goa salt were imported into the former district during June, July, and August. The earliest possible date which will admit of merchants making their arrangements should be adopted in order that the utmost experience of the working of the new measure may be gained before the Coast is closed again. The stock of Government salt which will remain in store on the date named will probably exceed half a year's supply and suffice as a reserve to meet contingencies; the following statement exhibits the actual quantity of salt in store on the 30th April, the latest date up to which information is available in the Board's Office, and the average sales by Government and private imports for the past three years. A draft Notification is submitted herewith:—

NOTIFICATION.

It is hereby notified that the Malabar Salt Excise Act (No. VI of 1871) will be brought into operation in the Districts of South Canara and Malabar from the 1st July 1877, after which date it shall not be lawful to manufacture salt within such Districts except under license duly granted by the Collector, to whom intending manufacturers should apply for information regarding the conditions on which, and the localities at which manufacture will be permitted. Any person manufacturing or attempting to manufacture salt in South Canara or Malabar without license after the date above specified will render himself liable to the penalty provided by Section 4 of the Act.

2. The sale of salt by Government in Malabar and South Canara will cease from the 1st November next, on which date the Government stores will be closed and the supply left thenceforward to private trade; when private trade is thoroughly established the Government stocks will be gradually sold by auction after due notice. No restriction will be placed on the importation of duty-paid salt into the above Districts by any land route, and all existing ports now open for other goods will be open for salt on payment of the duty prescribed by law unless covered by a certificate that duty has been already paid in respect of such salt. Bonded warehouses for the custody of salt until duty is paid will be maintained only at the following ports—
