TAMIL NADU ARCHIVES

GOVERNMENT OF TAMIL NADU

Revenue DEPARTMENT

G.O. No.	20 25	Press.
B.P. No.		Mis.
Dated	10.4.1877	197 .

Not to be folded or roughly handled.

Am I to understand that
 the work is done? If so
 the amount of material spent
 is no longer estimate but
 should be actual sanctioned.
 It is true in the papers
 that employment of coolies
 is not intended. I have no
 recollection of any such
 order! The working parties
 took advantage of local
 arrangement in other places
 where coolies have been
 taken to work when needed -
 amounting about the cost of
 their recruitment

Not direct - we need
 at submission of bills

Now,

For orders

The Collection of Revenue
 through the
 Rev. B. 10 approximate
 estimate amounting in
 aggregate to 2428800
 for finishing 88 1/2 miles
 of road under construction
 in the Raneelabatta &
 Pattikoda Taluqa -
 The reasons why the
 estimate is so high
 are set out by the
 Special Assistant
 to Clogston. The
 chief reason seems
 to be the coolies
 are employed instead
 of carts to carry the
 material to the road
 for distances varying
 from 1/2 to 1 1/2 miles.
 This charge for supervision
 is included in the estimate.

2025
2

10 per cent. This,
it is submitted, is
unreasonably high.
If reduced to 5%
there will be a saving of
No. 12144.

Orders are requested
whether the estimates
are to be sanctioned

2/4/77 L.H.C.

for that has been com-
pleted & estimated "5"
Complete 10/1
8/4

I doubt in any
further postponing
the estimate
performance. It may as
this is deferred the
Aut. Dept. with object
of the admission of
the Expenditure.

The am! has
already been exceeded
so we can gain
nothing by not saving
L.H.
