GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

18th June 1877, No. 2,025.

Read the following paper:—

No. 359. Proceedings of the Board of Revenue, dated 19th May 1877.

Read the following letter from A. RAMACHENDRA ROW, Deputy Collector, to R. DAVIDSON, Esq., Acting Collector of Kurnool, dated Nundial, 24th April 1877, No. 44.

With reference to your Endorsement, No. 773, dated the 3rd instant, at the foot of Board's Proceedings, Miscellaneous No. 4,699, dated 28th ultimo, communicating G.O., No. 1,204, dated 23rd idem, I have the honor to state that it is impossible to close the irrigation accounts therein alluded to earlier than June next, and I solicit you will be pleased to resubmit the case for the favorable consideration of Government, and obtain their sanction for the continuance of the establishment to the end of June next as originally applied for and supported by yourself and the Board.

2. The examination of the Company's accounts in connection with the demand for supply of water, and the crops up to 31st December 1876, has shown that they stand in need of thorough revision. These discrepancies* have been brought to your notice in my letters, Nos.

* In Ramalkota and Koilkuntla Taluqs. 31 and 33, dated 9th and 14th ultimo, respectively. With the first of these communications I submitted copy of a letter† from the Chief Engineer, in which he admits the state of the accounts, and observes thus: "The demand made by the Company for water supplied up to 31st December is also defective."

† No. 11, dated 2nd March 1877.

3. Writing‡ on the same subject, Mr. Wilks, Conservancy Engineer, Upper Section, observes thus: "With regard to the differences in the Ramalkota Taluq mentioned by the Deputy Collector"

* * * I may explain that in this taluq the actual measurements are very much behind hand, owing to the removal of the measuring officer to a more extended district, and the measurement was therefore very much delayed."

4. Similar discrepancies have since been brought to light in the taluqs of Nundikotkur, Nundial, and Sirwell, and these are also to be reported to the Chief Engineer.

5. Without a correct adjustment of the areas of dry cultivation supplied with canal water, our Jamabandy can never be complete. On the completion thereof the water-rate settlement will have to be taken up by the Government and Company's officers jointly. The Settlement accounts will embrace considerably larger area than usual, and the greater the sphere of irrigation, the more tedious is the process of settlement each individual claim requiring a minute examination on both sides (Company and Government).

Submit

Revenue Department, 18th June 1877, No. 2,025.

6. Very recently* I have addressed you a letter setting forth the peculiar difficulties attending the settlement this year, and later still I received a communication† from the Chief Engineer in which he proposes to put off the adjustment of the dry crop cultivation, which, under G.O., No. 1,329, dated 23rd September 1876, requires no joint settlement to the date of the water-rater settlement. This proposition, however, I am not inclined to support, but will in a separate communication submit my views for your final orders.

7. It is, however, clear that, under any circumstances, it is impossible to close the irrigation work before the end of June next, and I beg you will be pleased to represent, in strong terms, the urgency of the case to Government.

No. 435.

SUBMITTED for the favorable consideration of Government through the Board of Revenue.

2. The Acting Collector is fully satisfied that the retention of the special establishment till the end of June is necessary.

KURNOOL,
8th May 1877.

(Signed) R. DAVIDSON,
Acting Collector.

SUBMITTED for the favorable consideration of Government with reference to G.O., dated 23rd March 1877, No. 1,204.

2. The Board concur with the Collector in considering the retention of the special establishment till the end of June necessary.

Proceedings of the
Board of Revenue

27th May 1871

At a meeting of the
Board of Revenue

held on the 27th May 1871

for the purpose of considering
the petition of the

proprietors of the
land in the parish of

St. John's, in the County of
Dublin, for the purpose of

obtaining a lease of the
land for the purpose of
building a house for the
use of the poor.

And it is the order of the Board
that the petition be referred to the
Commissioners of the General Land
Revenue for their consideration.
