Not to be folded or roughly handled

No. 545. Read the following endorsement of the District Engineer, Presidency, dated 15th March 1877, No. 6,489 :—

From Captain S. C. CLARKE, R.E., Executive Engineer, Junction Canal Works, to the Collector of Chingleput, dated Fort St. George, 14th March 1877, No. 271.

I HAVE the honor to state that I have been given to understand that 500 coolies will very shortly be transported from the Red Hills to the Adyar camp as they have been reported as fit for employment. There will be sufficient accommodation for that number in the four huts that have been completed; but before they join it will be necessary to have some arrangements made for their supervision while in camp.

The following staff will be required to be organized, and I must ask you to be good enough to appoint them :—

One Native Superintendent.

Four Police men or peons (two for night duty).

The Medical Assistant has already been appointed, and a hut built near the camp hospital for his accommodation. As I shall find it a difficult, if not an impossible matter, to carry out my system of daily payments with my present staff punctually every morning when the extra body of laborers join, it has occurred to me that the Native Superintendent might, without interfering with his other duties, undertake the paying of the 500 coolies under his charge. It would be advisable, therefore, to select a trustworthy individual, and to offer him such pay as may have already been granted by Government to such as are in charge of the other relief camps.

No. 272.

COPY forwarded to the District Engineer, Presidency, with a request that sanction may be obtained to the proposed arrangement for the supervision and for maintaining discipline in the camp.

14th March 1877.

(Signed) S. C. CLARKE, Captain, R.E.,
Executive Engineer.

SUBMITTED to the Chief Engineer, Buildings and Roads Branch, Department Public Works, with a recommendation that the course adopted by Captain Clarke, R.E., may be approved and sanctioned.

(Signed) ROSS THOMPSON, Major, R.E.,
District Engineer, Presidency.

No. 546. ORDER THEREON, 20th March 1877, No. 974.
