Proceedings of the Board of Revenue

(Separate Revenue).

Dated 17th December

1898.

Mis. No. 5030.

Resolution.

An indent in quadruplicate for stores required for the Customs Department in 1899-1900 is submitted to Government, with the request that it may be sanctioned and forwarded to the Secretary of State. All the articles were included in the forecast for 1899-1900 forwarded by Government to the Secretary of State (Vide Government Order Mis.No.3680, dated 9th September 1898).

2. The Board has, however, on reconsideration decided to apply for Avery's instead of Pooley's weighing machines, as it finds from experience that these are better suited to the needs of the department.
