GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

20th June 1877, No. 2,062-B.

Famine Relief.

Read the following paper:—

No. 453-C. Endorsement of the Chief Secretary to Government, dated Fort St. George, 12th June 1877, No. 1,243.

Read the following letter from Surgeon A. M. ROSS, Zillah Surgeon, Nellore, to Deputy Surgeon-General W. J. VANSOMEREN, M.D., Deputy Surgeon-General, Indian Medical Service, Presidency and Northern Districts, dated 4th June 1877, No. 102.

I HAVE the honor to report on the result of my examination of the coolies on relief-works in the neighbourhood of Nellore on the 21st May 1877.

COOLIES FIRST WEIGHED.

Men.—Thirteen were examined. Three lost weight, one $3\frac{1}{2}$ lbs., one $1\frac{1}{2}$ lbs., one 1 lb. = total 6 lbs.; six gained weight, one $4\frac{1}{2}$ lbs., one $2\frac{1}{2}$ lbs., one 2 lbs., two 1 lb., one $\frac{1}{2}$ lb. = total $11\frac{1}{2}$ lbs.; but the one who gained most in weight, (Chinna Suri Myla Ryall Reddy, No. 26 in the list who gained $4\frac{1}{2}$ lbs.) owed it entirely to dropsical effusion; four remained stationary; two were dropsical and anæmic, and two were anæmic.

Women.—Twenty-two were examined. Ten lost weight, one 4 lbs., one $2\frac{1}{2}$ lbs., three 2 lbs., three $1\frac{1}{2}$ lbs., two $\frac{1}{2}$ lb. = total 18 lbs.; eight gained weight, one $\frac{1}{4}$ lbs., one 3 lbs., one $2\frac{1}{2}$ lbs., one $1\frac{1}{2}$ lbs., two 1 lb. and two $\frac{1}{2}$ lb. = total 14 lbs.

Four remained stationary, one was anæmic and dropsical, five were anæmic and affected more or less with scurvy, three were dropsical, six were anæmic and three scorbutic.

Boys.—Five were examined. Two lost weight $\frac{1}{2}$ lb. each. = total 1 lb., two gained weight, one 1 lb., one $\frac{1}{2}$ lb. = total $1\frac{1}{2}$ lbs.

One remained stationary, one was anæmic, one scorbutic, and one scorbutic and pot-bellied.

Girls.—Seven were examined. Four lost weight, one $4\frac{1}{2}$ lbs., two $1\frac{1}{2}$ lbs., and one 1 lb. = total $8\frac{1}{2}$ lbs. Three gained weight, one 2 lbs., one 1 lb., one $\frac{1}{2}$ lb. = total $3\frac{1}{2}$ lbs. One was anæmic and very thin, one slightly scorbutic, and one anæmic.

COOLIES EMPLOYED ON ROAD RELIEF-WORKS.

Men.—Seventeen were examined. Eight lost weight, one 4 lbs., one $3\frac{1}{2}$ lbs., one $2\frac{1}{2}$ lbs., one 2 lbs., one $1\frac{1}{2}$ lbs., one 1 lb., and two $\frac{1}{2}$ lb. = total $15\frac{1}{2}$ lbs. Seven gained weight, one $5\frac{1}{2}$ lbs., one $2\frac{1}{2}$ lbs., two 2 lbs., one $1\frac{1}{2}$ lbs., one 1 lb., and one $\frac{1}{2}$ lb. = total 15 lbs. Two remained stationary. One was very thin and scorbutic, one anæmic and scorbutic, and one anæmic.

Comparative weight is an approximate, but by no means an accurate measure of loss or gain of muscular substance. No. 4 on the list, for instance Polwoo, a muscular-looking man of 30 years of age, has only lost 2 lbs. since first examined, but his muscles instead of being "hard as nails" as when first examined are now quite soft to the feel, and he himself states that he feels a loss of muscular power and disinclination for exertion.

I have noticed this falling off in several who have not lost weight perceptibly.

Women.—Twenty-one were examined. Eight lost weight, one 4 lbs., one 3 lbs., one $2\frac{1}{2}$ lbs., three 2 lbs., two $1\frac{1}{2}$ lbs. = total $18\frac{1}{2}$ lbs.

Twelve gained weight, two 5 lbs., one 4 lbs., (had a heavier cloth on), one $2\frac{1}{2}$ lbs., one 2 lbs., three $1\frac{1}{2}$ lbs., (one wore a heavier cloth), two 1 lb., and two $\frac{1}{2}$ lb. = total 26 lbs.

One remained stationary, one was dropsical, three anæmic, one very anæmic and scorbutic, and one scorbutic.

In the case of No. 17 on the list, Voolanapathy Chinne, a tall well-made young woman of 20 years of age, who has not lost more than $\frac{1}{2}$ lb. weight since she was first examined, the breasts which, when she was first seen, were well developed, have now almost totally disappeared.

Revenue Department, 20th June 1877, No. 2,062-B.

Boys.—Eleven were examined. Five lost weight, two 1 lb. and three $\frac{1}{2}$ lb. = total $3\frac{1}{2}$ lbs; one gained $1\frac{1}{2}$ lbs., five remained stationary. One was anæmic and scorbutic, two pot-bellied and anæmic, and one pot-bellied and scorbutic.

Girls.—Nine were examined. Eight lost weight, one 5 lbs. (had been sick), two $1\frac{1}{2}$ lbs., three 1 lb., two $\frac{1}{2}$ lb. = total 12 lbs. One gained $1\frac{1}{2}$ lbs. One was scorbutic and anæmic, and one scorbutic.

No. 4,573.

FORWARDED for information.

MADRAS,
8th June 1877.

for Deputy Surgeon-General Major
Presidency and Northern Districts.

Dated 4th June 1877

Civil Dispensary
Nellore

From

A. M. Ross Esquire
Zillah Surgeon
Nellore

To

The Deputy Surgeon General
M. S. Presidency
Northern District
Madras

Sir

I have the honor to report
on the result of my examination of the Coolies on
Relief works in the neighbourhood of Nellore on
the 21st May 1877.

Coolies first weighed

Men

Thirteen were examined.

Three lost weight, One $3\frac{1}{2}$ lbs, one $1\frac{1}{2}$ lbs, one 1 lbs =
Total 6 lbs. Six gained weight, one $4\frac{1}{2}$ lbs, one $2\frac{1}{2}$ lbs,
one 2 lbs, two 1 lbs, one $\frac{1}{2}$ lbs = Total $11\frac{1}{2}$ lbs. but the
one who gained most in weight Chinna Swari Myla
Ryal Reddy (no 26 in the list who gained $4\frac{1}{2}$ lbs.)
owed it entirely to dropsical effusion. Four remain-
ed stationary. Two were dropsical and one
two were anemic.

Women

Twenty two were Examined

Two lost weight, one 4 lbs one 2 1/2 lbs, three 2 lbs, three 1 1/2 lbs, two 1/2 lbs = Total 18 lbs.

Eight gained weight one 4 lbs, one 3 lbs one 2 1/2 lbs, one 1 1/2 lbs, two 1 lb & two 1/2 lbs. = Total 14 lbs.

One remained Stationary

One was anemic & dropsical, five were anemic & affected more or less with dropsy, three were dropsical, six were anemic & three scorbutic.

Boys

Five were Examined

Two lost weight 1/2 lbs each = Total 1 lb.

Two gained weight one 1 lb, one 1/2 lb = Total 1 1/2 lbs.

One remained Stationary

One was anemic, one scorbutic and one scorbutic & potbellied.

Girls

Seven were Examined

Four lost weight one 4 1/2 lbs two 1 1/2 lbs and one 1 lb = Total 8 1/2 lbs. Three gained weight

one 2 lbs, one 1 lb, one 1/2 lb = Total 3 1/2 lbs. One was anemic & very thin one slightly scorbutic & one anemic.

Coolies Employed

on Road Relief

works

Seventeen

Men

were Examined

Eight lost weight, one 4 lbs, one 3 1/2 lbs, one 2 1/2 lbs, one 2 lbs, one 1 1/2 lbs, one 1 lb & two 1/2 lbs = Total 18 1/2 lbs.

Seven gained weight one 5 1/2 lbs,

one 2 1/2 lbs two 2 lbs, one 1 1/2 lbs, one 1 lb & two 1/2 lbs = total 15 1/2 lbs.

Two remained Stationary. One was very thin & scorbutic, one anemic & scorbutic & one anemic.

Comparative weight is an approximate but by no means an accurate measure of loss or gain of Muscular Substance No. 4 on the list for instance. It was a muscular looking man of 30 years of age has only lost 2 lbs since first Examined, but his muscles instead of being "hard as nails" as when first Examined are now quite soft to the feel. He himself states that he feels a loss of Muscular power & disinclination for exertion.

I have noticed this falling off in several who have not lost weight perceptibly.

Women

Twenty one were Examined.

Eight lost weight one 4 lbs, one 3 lbs, one 2 1/2 lbs, 2 lbs, two 1 1/2 lbs = Total 18 1/2 lbs

Twelve gained weight. Two 5 lbs, one 4 lbs, (had a heavier cloth on) one 2 1/2 lbs, one 2 lbs, three 1 1/2 lbs, (one wore a heavier cloth), two 1 lb & two 1/2 lbs = total 26 lbs.

One remained Stationary.

One was dropsical three anemic, one very thin

& Scorbute & one Scorbute.

In the Case of No 17 on the list
Voolanapaty Chinnee a tall well made young
woman of 20 years of age who has not lost more
than $\frac{1}{2}$ lbs weight since she was first examined,
the breasts which when she was first seen
were well developed have now almost totally
disappeared.

Boys ——— Eleven were Examined

Five lost weight two 1 lbs. & three $\frac{1}{2}$ lbs =
Total $3\frac{1}{2}$ lbs. One gained $1\frac{1}{2}$ lbs. Five
remained stationary. One was anemic
& Scorbute, two not belied & anemic & one
not belied & Scorbute.

Girls ——— Nine were Examined

Eight lost weight one 5 lbs (had been
sick) two $1\frac{1}{2}$ lbs three 1 lbs two $\frac{1}{2}$ lbs = Total 12 lbs.
One gained $1\frac{1}{2}$ lbs. One was Scorbute and
anemic & one Scorbute.

I have the honor to be
Sir
