Read the following papers :—

No. 541. From Major H. R. MEAD, R.E., District Engineer, South Arcot, to the Acting Chief Engineer for Buildings and Roads Branch—through the Examiner of Public Works Accounts—dated Camp, Ammapett, 5th March 1877, No. 221.

With reference to G.O., No. 241, dated 25th January 1877, approving of the proposal to the Puliankal drainage channel being carried on as a relief work, I have the honor to observe that it is not likely that the balance, Rupees 2,439, of the current year's grant of Rupees 3,000 can be fully utilized by the end of March, I would therefore suggest a surrender of Rupees 1,400 from the balance.

2. I take also the opportunity of bringing to your notice that the Collector is of opinion that the work in question may be carried out by the Revenue Department if it is marked out by the Public Works Department. I have accordingly directed the Range Officer to hand over the remaining work, but now it would appear that some assistance from this Department is needed, the number of coolies expected on the work being large. Even if this assistance is now rendered the large sum cannot be fully spent. Hence the necessity for surrendering the amount in question.

3. The amount received by the Collector on account of the work in question will be accounted for by him to the Examiner, as other advances made to his Department, from funds at the disposal of the Public Works Department.
