GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

21st June 1877.

Famine Relief.

Read the following paper :—

No. 468-A. From J. F. PRICE, Esq., Acting Collector of Cuddapah, to J. H. GARSTIN, Esq., Additional Secretary to Government, Revenue Department, Fort St. George, dated Madanapalli, 4th June 1877, Extra No. 1,309.

As showers of rain are beginning to fall in, and there is every appearance of a burst of the monsoon, I have the honor to request the permission of Government to begin paying the Government reserve grain as wages in the sub-division taluqs.

2. I have received a report that several bags of rice were damaged at Royachoti by the rain of the 18th ultimo, and Mr. Swan, Relief Officer in charge, Kadiri, informs me that injury has been, owing to the same cause, done to some of the stock at that station.

No. 468-B. ORDER THEREON, 21st June 1877, No. 2,070-A.

gency of momentary failure of supplies from any cause, and it is to be held for that purpose; but if it be found that from the quantity in any store being excessive with regard to the space available for storing it, and that it is therefore likely to suffer damage, then the Collector may issue so much for use in relief-camps or houses, or for payment of the grain portion of wages, as will enable the remaining grain to be securely and safely kept. Again, if from stress of weather or other cause the usual supplies fail to arrive in any village where Government have grain in store, so as to endanger the local supply running short, then the Government grain should be issued in lieu of money to relief laborers and others in receipt of relief allowances, but it is to be clearly and distinctly notified in such a case that such use of the grain will cease directly on the arrival of fresh trade supplies.

2. When there is danger of the grain becoming damaged unless used, the Collector may exercise his discretion about using it, bearing in mind, however, that it is not the desire of Government to reduce the amount of the reserve at any depot more than any sudden momentary pressure may necessitate.

The Govt reserve grain is primarily intended to meet the contingency of monetary failure of the supplies from any cause, and it is to be held for that purpose; but if it is found that from the quantity in any store being excessive with regard to the space available for storing it & that it is the useful duty to prefer damage, the Collr may issue or cause to be issued for sale in Relief Camps or towns or in payment of the grain portion of wages or bills on the Govt Agent, if such sale can be effected without loss. Upon the other hand if any deficiency should occur in the Govt grain in store or should the Collr think the Govt grain running short & likely to be required for relief purposes, he will apply to the Govt Agent for a supply from other stores.
