2. The quantities are
143.8 tons to Mysore and 454.4
tons to Hyderabad; or a
daily average of 13 tons to
the former and 35 tons to the
latter country.

3. Judging from
the figures, the carrying power
of the draught animals does
not seem to have much di-
minished; the bandy load
seems to be about $\frac{2}{5}$ of a
ton. (True Copy & Extract)
