Famine Relief.

Read the following paper:—

No. 613-B. Proceedings of the Board of Revenue, dated 21st June 1877.

Read the following letter from Conductor H. FARLEY, Commissariat Department, Bellary, to J. F. PRICE, Esq., Acting Collector of Cuddapah, dated Tangalore, 6th June 1877, No. 6:—

I beg respectfully to report that I proceeded to Proddatur agreeably to your official memorandum, No. 711, dated 31st May 1877, and examined the reserve grain kept there, also at the sub-depôts as marginally noted, and to report as follows:—

- | | | |
|-----------|---------|-------|
| Proddatur | | 2,319 |
| Mardukur | | 507 |
| Tangalore | | 480 |
1. In the Proddatur depôt I found ten bags of rice slightly eaten by insects and had them removed to be made use of as they will not keep. I also found one bag completely damaged and quite unfit for consumption, therefore recommend it to be destroyed; the remainder of the grain is keeping very good. Samples for your inspection are herewith forwarded.
2. The bags in this depôt are well arranged and well ventilated; one of the back rooms is infested with bandicoots, and the Sheristadar has partly removed the bags from where they have been located.
3. In the Mardukur depôt I found eight bags of rice slightly eaten by insects and had them removed to be made use of; the other bags of grain are keeping good; samples sent.
4. This depôt also has the bags properly arranged and the building ventilated; two of the rooms has mud-flooring with bamboo-matting to lay the bags on instead of stone slabs, which will prevent the white ants from attacking them.
5. In the Tangalore depôt I found four bags of rice eaten by insects, but not much gone, and had them removed. Another bag of rice is partly damaged, which was set aside; the remainder of the grain is keeping good as per samples sent.
6. This godown has good ventilation, but the bags are too closely stowed for want of sufficient space.
7. In conclusion I beg to state that I leave for Jammalmadugu to-morrow morning, the 7th instant.

No. 1427 (Extra).

FORWARDED, with the samples* referred to, for information of the Board of Revenue. The necessary instructions to use those bags stated by Conductor Farley to be in danger of spoiling and to destroy the rice which is damaged have been issued.
