Small Coin Depots.

Read the following paper:—

No. 124. *Proceedings of the Board of Revenue, dated 3rd August 1878, No. 7886 (Miscellaneous).*

Read the following letter from W. D. HORSLEY, Esq., Collector of Cuddapah, to the Acting Secretary to the Board of Revenue, dated 27th July 1878, No. 464:—

In reference to the Proceedings of Government in the Financial Department, No. 1106, dated 25th June 1878, I have the honor to request that the Government be prevailed upon to defer establishing a depot for copper and small silver at this Treasury till suitable accommodation is provided.

2. The Treasury is already overcrowded with chests containing stamps and money, and in consequence the work is conducted by the shroffs in an open pandal in front of the building. The room in which the money is kept is dark and unwholesome, and it is with great difficulty and discomfort that examinations are conducted. The whole place leaks like a sieve, and to prevent the bags in the wells rotting banks of earth and sand have to be placed round the wells to prevent the water pouring in.

3. In such a building it is impossible to conduct examinations properly. I have always felt that if money is missing, it will be difficult to say whether it has been mislaid or stolen, for there are ample facilities for either. If I am responsible for the condition of the Treasury and its contents, I must protest most strongly against any measure by which money of large quantity or value is deposited in the Treasury. Small silver and copper occupy space, and that is just what this Treasury cannot afford.

Submitted for the orders of Government with reference to the Government Order quoted and recent correspondence regarding the dilapidated condition of the Collector's Cutcherry.

quarters of the district may be reconsidered.

2. With reference to G.O., dated 10th October 1876, No. 2094, the Public Works Department will take early steps for repairing the public buildings at Cuddapah.
