The Collector of Chingleput District

SIR,

I have the honor to report for your information that on the 29th ultimo, rain fell at Periacoppam, Vengathur, and Talay, and on the 30th at Trivellore, and some of the villages situated on the south, and east of the Cusabai River. It is reported to have extended to a distance of 4 or 5 miles from Trivellore, and the quantity registered at the Cusabai on the above dates is 26 ozs. On the 29th the fall was but slight, but on the 30th it was heavy accompanied with slight thunderstorm and hail-stone, and lasted for nearly an hour. A good deal of water is to be seen lodging in the ditches on the road sides, and fields, but the rainfall is by no means

2156
sufficient to enable the ryots to resume their agricultural operations, after the long drought the Taluk has experienced. Grass is also beginning to spring up but another heavy shower or two will, I think materially improve pasture.

The Tahsildar is in communication with his Firdars as to whether the fall has been general throughout the Taluk, or otherwise and the result will be communicated to you in due course.

I have &c.
