GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

6th August 1877, No. 2,448-A.

Famine Relief.

Read the following paper:-

No. 60-A. From J. F. PRICE, Esq., Acting Collector of Cuddapah, to J. H. GARSTIN, Esq., Additional Secretary to Government, Revenue Department, Fort St. George, dated Royachoti, 28th July 1877, Extra No. 2,153.

I HAVE the honor to state, for the information and orders of Government, that Mr. Cox, Special Deputy Collector, Budwail, has reported to me that the coolies had such difficulty in procuring rice in the neighbourhood of Budwail that he found it necessary at the last payments to issue reserve grain. He tells me that it is probable that Mr. Harden, Relief Officer in charge of the Porumamilla Range, will have to do the same. He states that there is not now more than a week or ten days' supply of reserve rice on hand.

2. Orders to send up 1,000 bags of the stock at Cuddapah placed at my disposal for relief purposes have been issued by the officer in charge of headquarters, and more can be forwarded.

3. I would suggest that, to meet possible future demands, the reserve at Cuddapah might be replenished from the Government stock at Madras.

No. 20-B. ORDER THEREON, 6th August 1877, No. 2,448-A.

Miscellaneous.

If the Collector requires more grain he should advertise for it under the terms of G.O. of 27th July No. 2,429.

Memo:

I enclose a
letter from Addisaba
which raises the
question of further
distribution of
grain from the
Govt. Reserve at
Madras.

Doubtful that if
it is sent anywhere
it will be sent by
sea to Madras
S. Arch & Nellore
because it can
be sent without
any interference with
the carrying of some of

the country & in
the event of the
Collection in Korea
due to heavy supplies
for the boats & for
relief purposes it
could be easily
laid down. While
looking to the large
imports that are
on their way to
Korea it is not
likely the Govt
will ever be in a
difficultly about
getting any grain to
be sent here for
purposes of food.

He may thus obtain
grain for his journey.
Encourage trade
import and gradually
without intervention
to the extent amount
sufficient by sending a
few bags weekly to
supply his supply from
any temporary interest
such as the
remaining rice.
