ment quoted above, it appears that he should have prepared.

2. As I wish not to impede the transaction of public business, I have called for the necessary information, but I think that it is only just to myself and those under me that the Board should be in possession of the fact that I was not, until a very late date, asked for it, and that, consequently, the blame as regards delay does not lie with the Revenue Department.

3. Colonel Moberly states that "similar lists will also be required for non-agricultural works, such as roads, &c., carried out by both the Revenue and Public Works Departments. Improvements made for the same by your (the Revenue) Department only. I have no instructions from the Government calling for any such returns. The District Engineer appears to be desirous of putting off upon our overworked shoulders business which should be attended to by his department.

2. The order quoted was addressed to District Engineer under date 20th April, and referred only to irrigation and other agricultural works.
