are stationary. In Cuddapah prices are extremely high everywhere, but especially at Jammala-madaga, Budiwali, and Kadra, where barely five seers of rice are procurable for a rupee; in Bellary the only change is a slight movement upwards; the average for all dry food grains is higher than in any other district. In Chingleput the advance is gradual everywhere; in North Arcot there is not much change in the prices of dry grains, but rice is dearer by a seer at Vellore and Kangandy and by two seers at Tripaty, whilst at Wallajah second-sort rice is stated not to have been procurable; hence the quotation is for first-sort rice. The very considerable enhancement of the price at Tripaty is perhaps due to misquotation in the preceding

week when rice was reported to be cheaper by a seer than at any other station in the district; the Board, however, doubt the correctness of the statement that second-sort rice was not obtainable at Wallajah, a place of considerable trade in close proximity to the line of rail. The matter should be explained. There is no change in the market; in South Arcot and in Trichinopoly prices are given for second-sort rice as compared with quotations for third sort last week; in Udayarpolliem only 4.72 seers of rice are procurable for a rupee and dry grains are not quoted. In Madura and Tinnevely there is no particular change to note; in Coimbatore there is a decline in the price of rice at head-quarters and at Erode, Bhowany, Sattiamangalam, Caroor, and Udumipettah, but at Collegal it has advanced to 4.48 seers per rupee; cholam is not quoted, and ragi is less than six seers a rupee; no dry grains are quoted for the head-quarter station, but it can hardly be

3. Rainfall.—The report under this head is again, the Board regret to say, anything but satisfactory. In Nellore, Bellary, and Madura the register for the week is blank, and elsewhere the fall has been too light and partial to be of much service. At no station was more than three-quarters of an inch recorded (Malabar of course excluded) and generally the fall was only a few cents. The Board are

glad, however, to be able to state that since the date to which the returns relate telegraphic intimation of a change for the better has reached them from several quarters; good falls of rain have been reported from Vizagapatnam, Godavery, Kistna, and Bellary, and the monsoon rains which have been holding off so long appear to be setting in again; the Board trust that this relief will be in time to save the withering crops to some extent; for the pasturage and water-supply the rains will prove of inestimable benefit.

4. *Grants and Outlay.*—The grants up to the 21st July aggregate Rs. 2,07,77,283 and the outlay as reported was as follows:—

The returns show a net increase of 27,401, the districts in which the accession of numbers is most marked being Cuddapah, North Arcot, Madura, and Salem. In Nellore the figures given in the abstract do not represent the real state of affairs as the returns are not complete, figures for J. and Venkatagiri being wanting; excluding

two divisions, there appears to have been a slight falling off due to the stoppage

talucs, as well as for large numbers of starving paupers from the Nizam's Dominions and Kurnool; this explanation does not, however, satisfactorily account for the fact that the coolies employed in the Adoni Taluq number more than a-third of the total for the district and very nearly as many as all the laborers on works throughout the Cuddapah District. The Board suspect that some other cause is at the root of the matter. The increase elsewhere is due to greater intensity of distress, whilst the marked falling off in Kudlighi, Harpanahally, and Dharmavaram is ascribed to the measures introduced by Mr. Puckle. The numbers on the Bellary-Hubli Railway were 9,685, viz., 1,667 from Bellary and 8,018 from Hospett.

been a slight falling off due to the stoppage of works in Kandukur, the reason for which is not explained. The numbers at work on the Buckingham Canal with the districts to which the coolies belong are shown in the margin; those employed under the

supervision of the Public Works Department throughout the rest of the district numbered 3,385.

been repeated from last week. In Bellary there was a net increase of only 1,720, but in the Adoni Taluq numbers again rose by 9,393. The cause of the startling excess of numbers in that taluq still remains a mystery; it has been explained that the works are more extensive than elsewhere and provide for a portion of the distressed population of the neigh-

boursing

8. In Chingleput the increase is slight and does not call for remark. The numbers on the Conjeeveram-Chingleput line are again exactly the same as in the preceding week, viz., 24,366; the explanation of this is, the Board believe, that gangs are always maintained at the same strength. Under the D. P. W. 943 coolies were employed. In North Arcot the increase is not explained; it is spread over the whole district. In Madura the increase occurs chiefly in Tirumangalam and is attributed to cessation of agricultural operations; the nature of the work on which the coolies in Dindigul are employed should be more clearly explained and the Collector will report on the subject. In Coimbatore increase of distress raised the number of applicants for labor in Erode, Caroor, Bhowny, and Pollachy. In Salem, the Taluqs of Salem, Namkul, and Uttengherry show a considerable increase of numbers attributed to the commencement of fresh works.

9. The total number of famine coolies working under the supervision of the professional department was 232,400 against 208,191 in the preceding week as shown in the statement enclosed. The figures for Kurnool are those for the week ending 14th July and no information of this nature can as yet be furnished for North Arcot. The Collector will supply details in future. The returns for the Junction Canal are now made up to Saturday instead of Thursday.

10. The enhanced rate of wages appears to be in force everywhere except in parts of Jammalamadugu, in Cuddapah; Wandewash, Wallajah, Trittany, and Madapauk in North Arcot; and Kanigiri in Nellore. The reason has not yet been explained.

12. The growth in the numbers of receipt of gratuitous relief is very serious and indicates the extent to which the pressure of distress is beginning to be felt in all the districts which have been much affected by the adverse nature of the season. In Cuddapah, Bellary, Kurnool, Chingleput, North Arcot, Madura, and Coimbatore the augmentation in the number of paupers dependent on State relief is especially formidable. The increase in Camps and Relief-houses occurs in Coimbatore, Nellore, and Kurnool and under village relief in Cuddapah, Madura, and Salem; in Bellary, Chingleput, and North Arcot the increase

is divided between the two forms of relief, but in the last-mentioned districts it falls mainly under the head of Village Relief. Bellary, Kurnool, and North Arcot are chiefly responsible for the addition

Number of relief centres	293	423	+ 130
Inspection circles formed	756	786	+ 30
Villages in which relief was given	7,463	7,924	+ 461

and Salem nine and fifteen fresh camps or relief-houses were opened, respectively; the increase in the number of inspection circles occurs in North Arcot and is chiefly nominal, being due to the inclusion of figures for Punganur; the extension of the village relief system to fresh villages is noticeable principally in Cuddapah, Chingleput, North Arcot, and Madura.

In Nellore the increase is general, in Cuddapah, it is most marked in the taluqs of Cuddapah, Budwail, Voilpud, Royachoti, and Kadiri; in Bellary it occurs principally in the Bellary, Harpanahally, Ahur, and Anantapur Taluqs. In North Arcot nearly half the increase is accounted for by the greater completeness of the returns, figures for Punganur and Tripatty being given this week. Numbers rose very considerably, however, in Nellore, Arcot, and Wallajah Taluqs. In Chingleput there has been a large accession to the numbers fed in villages in the Trivalore and Ponneri Taluqs and to the inmates of the Palavarani camp. In South Arcot and Madura the increase is distributed throughout the district; in Coimbatore it occurs chiefly in Erode, Pulladam, Caroor, and Coimbatore, and in Salem in the taluqs of Salem, Trichengode, Dharampuri, and Krishnagerry, the figures for Uttengherry show a large falling off stated to be caused by relegation of able-bodied paupers to works.

17. The usual statement of establishments is enclosed; the cost is Rupees 1,24,446 per mensem.

18. The average strength of resident paupers in Madras Camp was 14,837 and of non-residents 12,554. Of the 14,797 paupers who were resident on the 21st July the numbers belonging to the several districts are distinguished in the margin. The strength in hospital on the 21st July was 812, deaths numbered 229 (of which 218 took place in hospital) or in the ratio of 855 per mille per annum. The outlay during the week was Rupees 16,607, and up to the end of the week Rupees 7,16,102. The President of the Municipality had 3,280 paupers at the Sattengad Camp and 2,233 in works on the 21st July. The expenditure for the week was Rupees 8,051, and up to the end of the week Rupees 68,708.

THE Relief Reports for the week ending 21st July will be submitted to Government with the usual statements and maps as marginally noted.

2. Prices.—The prices of all food-grains have risen almost universally, but the district averages show no very sudden advance in any district; in Trichinopoly prices may be said to be stationary, and in Coimbatore there is even a slight decline in the prices of rice and cholum. The districts of Kistna, Nellore, Cuddapah, Chingleput, North Arcot, and Tinnevely are those in which the advance in the

price of rice is most appreciable amounting to about half a seer per Rupee. Turning to details for each district, the Nellore returns show a considerable rise in the prices of rice at all stations except four; dry grains have risen in like manner. At Venkatagiri Rapur, and Kandukur prices are stationary. In Cuddapah prices are extremely high everywhere, but especially at Jammalnadugum, Budwail, and Kadiri, where barely five seers of rice are procurable for a Rupee; in Bellary the only change is a slight movement upwards; the average for all dry food-grains is higher than in any other district. In Chingleput the advance is gradual everywhere; in North Arcot there is not much change in the prices of dry grains, but rice is dearer by a seer at Vellore and Kangandi and by two seers at Tripatty, whilst at Wallajah second sort rice is stated not to have been procurable; hence the quotation is for first sort rice. The very considerable enhancement of the price at Tripatty is perhaps due to misquotation in the preceding week when rice was reported to be cheaper by a seer than at any other station in the district; the Board however doubt the correctness of the statement that second sort rice was not obtainable at Wallajah, a place of considerable trade, in close proximity to the line of rail. The matter should be explained. There is no change in the market in South Arcot, and in Trichinopoly prices are given for second sort rice as compared with quotations for third sort last week; in Udayarpottem only 4.72 seers of rice are procurable for a Rupee, and dry grains are not quoted. In Madura and Tinnevely there is no particular change to note. In Coimbatore there is a decline in the

three-quarters of an inch registered (Malabar of course excluded), and generally the fall was only a few cents. The Board are glad however to be able to state that since the date to which the returns relate telegraphic intimation of a change for the better has reached them from several quarters; good falls of rain have been reported from Vizagapatam, Godavery, Kistna, and Bellary, and the monsoon rains which have been holding off so long appear to be setting in again; the Board trust that this relief will be in time to save the withering crops to some extent; for the pasturage and water-supply the rains will prove of inestimable benefit.

4. *Grants and Outlay.*—The grants up to the 21st July aggregate Rupees 207,77,283, and the outlay as reported was as follows:—

price of rice at head-quarters and at Erode, Bhowany, Sattiamungalum, Caroor, and Udumulpettah, but at Collegal it has advanced to 4.48 seers per Rupee; cholam is not quoted and raggy is less than six seers a Rupee. No dry grains are quoted for the head-quarter station, but it can hardly be that they are not procurable. In Salem the tendency is upwards, but it is nowhere very marked. The highest and lowest prices for rice and the dry grain most commonly in use are marginally noted.

3. *Rainfall.*—The report under this head is again, the Board regret to say, anything but satisfactory; in Nellore, Bellary, and Madura the register for the week is blank, and elsewhere the fall has been too light and partial to be of much service. At no station was more than

7. In Cuddapah there was again a considerable enhancement of numbers occurring chiefly in the Proddatur Taluq and ascribed to the increased pressure of distress; the fluctuations in the other taluqs are not so marked; the figures for Madanapalli and Voilpand appear to have been repeated from last week. In Bellary there was a net increase of only 1,720, but in the Adoni Taluq numbers again rose by 2,393. The cause of the startling excess of numbers in that taluq still remains a mystery; it has been explained that the works are more extensive than elsewhere, and provide for a portion of the distressed population of the

neighbouring taluqs as well as for large numbers of starving paupers from the Nizam's Domains and Kurnool; this explanation does not however satisfactorily account for the fact that the coolies employed in the Adoni Taluq number more than a third of the total for the district and very nearly as many as all the laborers on works throughout the Cuddapah District. The Board suspect that some other cause is at the root of the matter. The increase elsewhere is due to greater intensity of distress, whilst the marked falling off in Kudlighi, Harpanhalli and Dharmavaram is ascribed to the measures introduced by Mr. Puckle. The numbers on the Bellary-Hubli Railway were 9,685, viz., 3,667 from Bellary and 6,018 from Hospett.

8. In Chingleput the increase is slight and does not call for remark. The numbers on the Cenjeveram-Chingleput line are again exactly the same as in the preceding week, viz., 24,966; the explanation of this is, the Board believe, that gangs are always maintained at the same strength. Under the Public Works Department 943 coolies were employed. In North Arcot the increase is not explained; it is spread over the whole district. In Madura the increase occurs chiefly in Tirumangalam, and is attributed to cessation of agricultural operations; the nature of the work on which the coolies in Dindigul are employed, should be more clearly explained, and the Collector will report on the subject. In Coimbatore increase of distress raised the number of applicants for labour in Erode, Caroor, Bhowany, and Pollachy. In Salem the taluqs of Salem, Namkul, and Uttengerherry show a considerable increase of numbers attributed to the commencement of fresh works.

9. The total number of famine coolies working under the supervision of the professional department was 222,400 against 208,101 in the preceding week as shown in the statement enclosed. The figures for Kurnool are those for the week ending 14th July, and no information of this nature can as yet be furnished for North Arcot. The Collector will supply details in future. The returns for the junction canal are now made up to Saturday instead of Thursday.

10. The enhanced rate of wages appears to be in force everywhere except in parts of Jammalamadugu in Cuddapah; Wandewash, Wallajah, Trittany, and Madapakk in North Arcot; and Kanigiri in Nellore. The reason has not yet been explained.

12. The growth in the numbers in receipt of gratuitous relief is very serious and indicates the extent to which the pressure of distress is beginning to be felt in all the districts which have been much affected by the adverse nature of the season. In Cuddapah, Bellary, Kurnool, Chingleput, North Arcot, Madura, and Coimbatore the augmentation in the number of paupers dependent on State relief is especially formidable. The increase in camps and relief-houses occurs in Coimbatore, Nellore, and Kurnool, and under village relief in Cuddapah, Madura, and Salem; in Bellary, Chingleput, and North Arcot the increase is divided between the two forms of relief, but in the last mentioned district it falls mainly under the head of Village relief.

Number of Relief Centres	393	422	+ 29
Inspection Circles formed	756	780	+ 24
Villages in which Relief was given	7,489	7,964	+ 475

Bellary, Kurnool, and North Arcot are chiefly responsible for the additional number of 3-Pie children. The marginal figures indicate roughly the progress of measures for gratuitous relief. In Coimbatore and Salem nine and fifteen fresh camps or relief-houses were opened respectively, the increase in the number of inspection circles occurs in North Arcot and is chiefly nominal, being due to the inclusion of figures for Punganur; the extension of the village relief system to fresh villages is noticeable principally in Cuddapah, Chingleput, North Arcot, and Madura. In Nellore the increase is general; in Cuddapah it is most marked in the taluqs of Chingleput, Budwai, Voilpad, Royachoti, and Kadiri; in Bellary it occurs principally in the Bellary, Harpanhalli, Alur, and Anantapur Taluqs. In North Arcot nearly half the increase is accounted for by the greater completeness of the returns, figures for Punganur and Tripatty being given this week. Numbers rose very considerably, however, in Vellore, Arcot, and Wallajah Taluqs. In Chingleput there has been a large accession to the numbers fed in villages in the Trivellore and Ponneri Taluqs and to the inmates of the Palaveram camp. In South Arcot and Madura the increase is distributed throughout the district; in Coimbatore it occurs chiefly in Erode, Madam, Caroor, and Coimbatore; and in Salem in the taluqs of Salem, Trichengode, Chinnampuri, and Krishnagherry; the figures for Uttengerherry show a large falling off, and to be caused by relegation of able-bodied paupers to works.

The large outlay in Salem in this form of relief still continues; the explanation called for in reviewing last week's returns is awaited.

17. The usual statement of establishments is enclosed; the cost is Rupees 1,24,446 per mensem.

18. The average strength of resident paupers in Madras camps was 14,852 and of non-residents 12,668. Of the 14,797 paupers who were resident on the 21st July the numbers belonging to the several districts are distinguished in the margin. The strength in hospital on the 21st July was 812, deaths numbered 229 (of which 218 took place in hospital), or in the ratio of 855 per mille per annum. The outlay during the week was Rupees 16,507 and up to the end of the week Rupees 7,16,102. The President of the Municipality had 3,280 paupers at the Sattangad camp and 2,233 on works on the 21st July. The expenditure for the week was Rupees 8,051 and up to the end of the week Rupees 66,708.
