GOVERNMENT MADRAS.

REVENUE D PARTMENT.

5th Septemb 7, No. 2,647.

2647/1

Read the following papers:—

No. 55. From Major A. deC. SCOT ., Acting Superintendent of Revenue Survey, to C. G. MASTER, Secretary to Government, Revenue Department, dated Ootacamun July 1877, No. 2,295-97.

As the decision of the Government ndia in the matter of the honorarium hitherto paid to Major C. C. Sargeaunt, tant Superintendent in charge of the Central Office, communicated to me by t ler of this Government, No. 2,217, dated 5th July 1877, re-opens the que of the remuneration of this officer for the special duties performed by hin t devolves upon me to address the Government on the subject.

2. The duties of the Assistant Su ntendent in charge of the Central Office of the Revenue Survey Departm are, as the Government are aware, important and onerous. I cannot better vey a general idea of their nature than by attaching a transcript of that p ion of the annual report for the past year which relates to the Office in Mad s, and which was written, of course, without any reference to the present que n; and I may add that in the annual report of the previous year, Colonel iestley bore testimony to Major Sargeaunt's zeal and ability in the perforn e of his present duties.

3. So far then as relates to that s of the question, Major Sargeaunt has shown himself to be deserving of t consideration of the Government; but in bringing forward his case, I woul pecially rely on the fact that his duties involve residence at the Presidency, ere, as is well known, the expense of living is considerably greater than it is at ountry stations.

4. If Major Sargeaunt held a mi y staff appointment, he would be entitled to Presidency house-rent at t ate of Rupees 100 per mensem; and I may observe that the same allo e is granted to military officers in the Public Works Department who are rawing consolidated salaries.

264

5. Taking into consideration the ure of the duties performed by this officer, the fact that, under the ne heme of organisation recently sanctioned, there will shortly be a considera ncrease in annual outlay for establishment in the Central Office, and the personal expenditure involved by a residence in Madras, I consider that I istified in respectfully recommending that a special monthly allowance upees 100 should be attached to the office which Major Sargeaunt holds, that the payment of such allowance should date from the withdrawal, a ected by the Government, of the honorarium hitherto paid.

1

W

Extract from Annual Repor 6-77, Central Office.

At the Central Office the General Branch ha engaged, as usual, in the work connected with correspondence, the preparation of statistica ents, and the checking of the accounts of expenditure and periodical returns of the several y Parties. As respects other branches it may be noted that the Tracing Department is co d with the tracing, typing, and insertion of details on transfer paper of all manuscript maps r d from Survey Parties or compiled in the Central Office or by other Departments; the chief being, of course, that connected with the village maps, on the scale of 16 inches to the mile, f Settlement Department, and those of waste land-blocks or estates in Coorg, the Nilgiris, and d. The coloring of impressions prior to issue and the examination a correction of transfer ngs and proof lithographs affords employment to considerabel number f men.

The preparation of exaggerated drawings rom the village maps for reduction by photography to the 1 inch to a mile or taluq map scale, an the work of photography itself may be considered to form a distinct section of the Central Office peration.

The Lithographic Printing Department, th an average of 15 presses at work and with its proper complement of printers and pressmen, multiplies copies of the tracings on transfer-paper to any extent which may be desired.

The Letter-press Printing Branch is chi y engaged in setting up type and printing names for the transfer-tracings which are to be sub uently laid down on stone or in printing forms for use by parties in the field.

A considerable number of draught me re engaged in the preparation of manuscript maps and plans of a miscellaneous character.

The Map Record Department is charged h the receipt, issue, and registry, as also with the proper arrangement and care of all manuscri nd printed maps and records.

The Store Branch deals similarly with ellaneous stores and scientific instruments used throughout the Revenue Survey Departm

Major Sargeaunt, Assistant Super of Revenue Survey, has been in general charge throughout the year of the multifarious oper briefly described above, and it is to this officer's zeal and energetic supervision that the go rn of the year is, I believe, mainly due.

The work of lithographing the 16-in 4-inch to a mile village maps is represented by a total area disposed of amounting to 4,714 re miles. Out of this, however, an area of 283·14 square miles was traced and printed out of hours, to meet an emergent demand from the Revenue Settlement Department; but ev r making a corresponding deduction, the area remaining is greater than that reported outturn in any preceding year. The cost of lithography, as applied to these village maps een Rupees 9,372 equivalent to a rate of Rupees 2 per square mile as compared with a rate pees 2-6-2 for the year.

Three district maps, on a scale of 2 mi an inch, and eight taluq maps, on a scale of 1 mile to an inch, have been printed. A consider mount of extra work has devolved on the Department from the calls made by the Governm maps illustrative of the famine conditions of the districts in this Presidency. One thou opies of maps of this description were distributed to Collectors between December of last yea March 1877, and during the months of January, February, and March 1877, statistical fan ps of the Presidency were supplied to Government for transmission to the Secretary of S d the Supreme Government, representing twelve phases which were co-ordinated from infor received from all the districts. Other maps were prepared at various times throughout r for the Salt Commissioners, for Government, the Revenue Board, Quartermaster-Gener ervator of Forests, the Consulting Engineer for Railways, the Public Works Department, rs of districts and private individuals.

The Photographic Department has b gaged in the reduction of maps to smaller scales, and the preparation of photo-lithographi rs of salt maps, diagrams, &c.

Major Sargeaunt reports that he h d out and introduced successfully a process of positive printing, which is cheaper and m ment than that based on the use of salts of silver. The tendency of silver prints to fade mus prevent their use as permanent records, and any process resulting in the presence of more mpounds would be valuable.

A large number of maps have issued Coloring Department for the use of the Director of Revenue Settlement as well as distr aluq maps.

In the Printing Department a total o 07 impressions have been struck off, giving an average of 2,132 per day and 142 per pre ay.

The general conduct of the Superint nd the office has been satisfactory.

The total expenditure on account of al Office has been Rupees 44,412.

The cost of lithographing maps and ll descriptions has amounted to Rupees 15,697, and the estimated value of maps supplie ernment purposes added to the amount realised by sales makes a total of Rupees 21,651.

Extract from Annual Report 1896

Central Office

At the Central Office the General Branch has been engaged as usual in the work connected with correspondence, the preparation of Statistical Statements and the checking of the accounts of expenditure and Periodical Returns of the several Survey Parties: — as respects other branches it may be noted that the tracing Department is concerned with the tracing, typing & insertion of details on transfer Paper, of all Manuscript Maps received from Survey Parties or compiled in the Central Office or by other Departments the chief work being of course that connected with the village Maps on the Scale of 16 inches to the mile for the Settlement Department and those of waste land blocks or estates in Coorg, the Nilgiris and Wainad. The colouring of Impressions prior to issue and the examination and correction of transfer tracings & Proof Lithographs affords employment of considerable number of men.

The preparation of exaggerated drawings from the village maps for reduction by Photography to the

the 1 inch to a mile or Taluq map Scale & the work of Photography itself may be considered to form a distinct Section of the Central Office Operation

The Lithographic Printing Department with an average of 15 Presses at work and with its proper complement of Printers & Pressmen multiplies copies of the tracings on transfer paper to any extent which may be desired

The Letter Press Printing branch is chiefly engaged in setting up type & printing names for the transfer tracings which are to be subsequently laid down on Stone or in printing forms for use by Parties in the field.

A considerable number of Draughtsmen are engaged in the preparation of Manuscript Maps & Plans of a miscella chara

The Map Record Department is charged with the receipt, issue & registry as also with the proper arrangement and care of all Manuscript & Printed Maps & Records.

The Store branch deals similarly with Miscellaneous Stores and Scientific Instruments used throughout the Revenue Survey Department.

Major Sargeaunt Assistant Superintendent Revenue Survey has been in general charge throughout the year of the multifarious operations briefly described above and it is to

this

this Officer's zeal and energetic supervision that the good out turn of the year is I believe mainly due.

The work of lithographing the 16 inch and 4 inch to a mile village maps is represented by a total area disposed of amounting to 4714.17 square miles. Out of this however an area of 283.14 square miles was traced & printed out of office hours to meet an emergent demand from the Revenue Settlement Department but even after making a corresponding deduction the area remaining is greater than that reported as the out turn in any preceding year. The cost of lithography as applied to these village maps has been Rupees 9372 equivalent to a rate of Rs 2 per square mile as compared with a rate of Rs 2-6-2 for the year

Three District Maps on a scale of 2 miles to an inch and eight Taluq Maps on a Scale of 1 mile to an inch have been printed. A considerable amount of extra work has devolved on the Department from the calls made by the Government for maps illustrative of the famine conditions of the Districts in this Presidency. One thousand copies

of

of maps of this description were distributed to Collectors between December of last year & March 1877 & during the months of January February and March 1877 Statistical Famine Maps of the Presidency were supplied to Government for transmission to the Secretary of State & the Supreme Government representing twelve phases which were coordinated from informations received from all the Districts. Other maps were prepared at various times throughout the year for the Salt Commissioners, for Government, the Revenue Board, Quarter Master General, Conservator of Forests, the Consulting Engineer for Railways, the Public Works Department, Collectors of Districts and Private Individuals.

The Photographic Department has been engaged in the reduction of maps to smaller scales and the preparation of Photo lithographic transfers of Salt maps, diagrams &c

Major Sargeaunt reports that he has worked out and introduced successfully a process of positive printing which is cheaper and

and more permanent than that based on the use of Salts of Silver. The tendency of Silver Prints to fade must always prevent their use as permanent records and any process resulting in the presence of more stable compounds would be ~~[illegible]~~ valuable

2647/5

A large number of maps have issued from the Colouring Department for the use of the Director of Revenue Settlement as well as District & Talug Maps.

In the Printing Department a total of 639807 Impressions have been struck off giving an average of 2132 per day & 142 per press per day

The General conduct of the Superintendents and the office has been satisfactory

The total expenditure on account of the Central Office has been Rs 44,412

The cost of Lithographing Maps & Plans of all descriptions has amounted to Rs 1[illegible]697 & the estimated value of maps supplied for Government purposes added to the amount realised by sales makes a total of Rs 21651

No. 2295/97

Revenue Survey Office
Camp Ootacamund
20th July 1877

No 55 From

The Acting Superintendent Rev. Survey

To

The Secretary to Government 2647/1
Revenue Department

Sir

As the decision of the Government of India in the matter of the honorarium hitherto paid to Major C. C. Sargeaunt Assistant Superintendent in charge of the Central Office; communicated to me by the order of this Government No. 2217 dated 5th July 1877 re-opens the question of the remuneration of this Officer for the special duties performed by him, it devolves upon me to address the Government on the subject.

2. The duties of the Assistant Superintendent in charge of the Central Office of the Revenue Survey Department are as the Government are aware important and onerous. I cannot better convey a general idea of their nature than by attaching a transcript of that portion of the Annual Report for the past year which relates to the Office in Madras and which was written of course without any reference to the present question and I may add that in the Annual Report

of

of the previous year Colonel Priestley bore testimony to Major Sargeaunt's zeal and ability in the performance of his present duties.

3 So far then as relates to that side of the question Major Sargeaunt has shown himself to be deserving of the consideration of the Government but in bringing forward his case I would specially rely on the fact that his duties involve residence at the Presidency where as is well known the expense of living is considerably greater than it is at the Country Stations.

4 If Major Sargeaunt held a Military Staff appointment he would be entitled to Presidency house rent at the rate of Rupees 100 per mensem and I may observe that the same allowance is granted to Military Officers in the Public Works Department who are now drawing consolidated salaries.

5 Taking into consideration the nature of the duties performed by this Officer, the fact that under the new scheme of organisation recently sanctioned there will shortly be a considerable increase in annual outlay for Establishment in the Central Office and the larger personal expenditure involved by a residence in Madras I consider that I am justified in respectfully recommending that a special monthly allowance of Rupees 100 should be attached to the Office which

---

which Major Sargeaunt holds and that the payment of such allowance should date from the withdrawal as directed by the Government of the honorarium hitherto paid.

Revenue Department

No. 2647 d 5-9-77

To

The Secretary to the Govt. of India

Depart. of Revenue Agri & Commerce

2647/IV

Sir,

1. Referring to letter dated 28th May last No. 819 from the Secretary to the Government of India in the Financial Department replying to Mr. Carmichael's letter to your address dated 30th March preceding No. 1155, I am directed by His Grace the Governor in Council to submit for the favorable consideration of His Honor the President in Council copy of letter

from

5/9

from the Superintendent of Revenue Survey dated 30th July 1877 No. 2295/97 with enclosure soliciting that a special allowance should be given to the Assistant Superintendent of Revenue Survey on duty at the Presidency.

2 The work to be performed at the Central Office the enclosure to Major Scott's letter contains a description of it - renders the presence of an Assistant necessary for purposes of supervision. This officer has no opportunity of drawing travelling allowance under the reorganization scheme and is restricted to his salary

while

while the expenses of living at the Presidency are heavier than at any up country station.

3 His Grace in Council is decidedly of opinion that some additional allowance is reasonable under the circumstances and directs me to request that, if His Honor in Council agrees in this view of the matter, Presidency House Rent according to rank may be sanctioned to Major Sargeaunt, (or any other officer similarly situated,) as is understood to be allowed to survey officers in Bengal. This concession might have effect from the date on which the honorarium objected to ceased to be drawn.

The outbreak was
probably arose from
the coolies on the
Chintacomadinni
road having fled
to Sorabtoo when
cholera broke
out in the for-
mer work.
(Sd) J.F.P.

[illegible] future orders
think the D.P.W. should
be asked to prepare the
road dams & have culverts
which I think are requi[illegible]

Will be done.
(Sd) J.F.P.

Taking alone.

Offg. Cy for
the Collr

[illegible] for
formation of Govt.

2. There seems to have
been a want of judgment
in selecting the line for
the Kadiri road from
Pulivendla. This
should have the Collrs
early attention & should
be reported on in due
course.
[illegible]
slightest [illegible]
in saying that it would
have been far better
[illegible] the road would
have had easier gradients
