Famine Relief.

Read the following paper :—

No. 114. Proceedings of the Board of Revenue, dated 21th August 1877, No. 3,950.

THE Relief Reports for the week ending 18th August will be submitted to Government with the usual statements and maps.

2. *Prices.*—The district averages show an upward tendency, but it is generally slight; in the Kistna and Madura Districts all grains are dearer, and in Nellore, Kurnool, Chingleput, South Arcot, and Trichinopoly two out of the three principal dry food-grains have risen; on the other hand, there is a fall in the prices of all dry food-grains in Tinnevelly and Salem, and in two out of three in Coimbatore. Turning to details for the several districts, the market in *Nellore* appears to be for the most part steady; at Venkatagiri there is a general fall; at Darsi a general rise in prices; at Ongole two out of three dry grains have declined; at Atmakur the same proportion has advanced. In *Cuddapah* the fluctuations are nowhere marked, but raggy and rice have gone up slightly, cholum is stationary; in *Bellary* prices have risen again at Hindupur, also at Anantapur; at Harpanhalli there is a slight advance as regards rice, only 4·73 seers being procurable for a Rupee. In *Chingleput* prices have risen in the Sub-division; in *North Arcot* the same feature is observed in Vellore, Arcot, Palmanair, and Punganur; at Tripatty there is a fall in dry grains, whilst at Maderpauk they are apparently not procurable; in *South Arcot* there is no particular change; in *Trichinopoly* dry grains have risen at head-quarters and are apparently still not procurable at Kulitalai and Udayarpoliem; this should be explained; the same remark applies to the Sub-division and Melur in *Madura*, and Ottapidaram and Nanguneri in Tinnevelly. In *Coimbatore* rice has reached 1·27 seers per Rupee in Collegal; it has also risen at Dharapuram; in other respects there is a tendency to fall; in *Salem* also prices are generally stationary. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

3. *Rainfall.*—Rain was registered in all the distressed districts, but, except in the Kistna where there was an average of an inch and a quarter and Malabar where it reached 9½ inches, the falls were light and partial. In *Nellore* showers fell in seven divisions, in *Cuddapah* in six, and *Bellary* in seven, about an inch and three-quarters being gauged at Gooty. In *Chingleput* there was a good fall at Madhurantacum and light showers in four other taluqs; in *North Arcot* no less than nine divisions were visited with rain, but the fall was light; in *South Arcot* there were showers in five taluqs, and in *Trichinopoly* in three. In *Madura* and *Tinnevelly* there was a mere sprinkling. *Coimbatore* shows a good fall at Pollachy and showers in two taluqs, whilst in *Salem* five taluqs received a light fall. More rain is urgently needed everywhere, and the account of the condition of the crops given in the Collectors' season telegrams for the week is not more cheering than the description for the previous week. In *Vizagapatam* the rain is insufficient and seedlings are dying; in Godavery and Kistna, however, the recent rains have revived the standing crops; in *Nellore* dry crops not irrigated from wells are withering except in Polur and Udayagiri; the same description is given of their condition in Cuddapah, the northern parts of *Bellary*, *Trichinopoly*, *Madura*, *Coimbatore*, the *Nilgiris*, and *Salem*; in *North Arcot* the crops are poor, and in *South Arcot* stated to be in a critical condition; in *Kurnool* those which have survived are so far in fair condition, and in *Tinnevelly* the standing crops are generally good, but more rain is required in these districts also. In *Chingleput* pasturage is insufficient and water failing. In a few districts where the harvest has commenced, the outturn has proved very poor, and prospects are generally gloomy.

4. *Grants and Outlay.*—The grants up to the 18th August aggregate Rupees 251,68,493, and the outlay was as follows:—

Under President, Municipal Commission ...	2,448	2,338	— 110
Total ...	987,354	954,747	— 32,607

There is a net decrease of 32,607 for which *Bellary* is mainly responsible, the cause being extensive transfers from the works to village relief in Adoni; in *Kurnool* and *Salem* also there is a considerable falling off; in the former case it is not explained, in the latter it appears to be chiefly due to a temporary stoppage of works during transfer to the Public Works Department. In *Nellore* there is an increase of more than 10,000 which is not explained; it occurs principally in Udayagiri Taluq, and is due to transfers from the canal in consequence of the approaching completion of the work in hand before the receipt of the orders of Government directing the continued employment of the labourers in deepening it. Numbers on the Buckingham Canal are stationary; the districts to which the coolies belong are shown in the margin. Those employed under the supervision of the professional department elsewhere numbered 2,555.

7. In *Cuddapah* there is a slight decrease on the whole, though numbers rose in the Sub-division; this is ascribed partly to the removal of inefficients and partly to coolies leaving the works for the harvest. The figures for each taluq are given in the margin. *Bellary* shows a large falling off as already stated; this is due to the removal from the works in

Adoni of a large number of strangers who have been relegated to their own country, and transfer of inefficient laborers to gratuitous relief. The decrease in Dharmaveram and Bellary appears to be also due to transfers to gratuitous relief; the increase in Raidrug seems to be nominal and the result of the greater completeness of the returns. The numbers on the Bellary-Hubli Railway were 9,033, of whom 5,348 belonged to Bellary Taluq and 3,685 to Hospett.

8. Details for *Kurnool* are not as yet available. In *Chingleput* the increase occurs chiefly in Madurantacum; numbers on the Chingleput-Conjeveram Railway remained the same as in last week, viz., 25,316. In *North Arcot* the increase is general throughout the district; owing to the omission of the Kalastri returns it is considerably understated; probably nearly 5,000 must be added; in *Trichinopoly* increasing distress and an influx of destitute poor from neighbouring districts have swelled the numbers; in *Madura* there was a large accession of numbers in Tirumangalam, but a corresponding falling off in Pulni; the increase in *Coimbatore* is due to greater pressure; the falling off in *Salem* is ascribed to temporary stoppage of work during the completion of arrangements for transferring the supervision to the Public Works Department.

9. The total number of famine coolies working under the supervision of the Public Works Department during the week was 227,039 against 226,239 in the previous week, excluding North Arcot for which no information has been furnished.

10. The enhanced rate of wages appears to be in force everywhere except parts of Jamalmadugu in *Cuddapah*; Chendragiri, Wallajah, Trittany, Arconum, and Maderpauk in *North Arcot*; and Rapur and Venkatagiri in *Nellore*. The reason for the existence of the lower scale in these places has not yet been explained; the cause of the multiplicity of rates in Jamalmadugu and Pulivendla should be stated.

11. *Gratuitous Relief.*—The following are the district totals:—

* Particulars not given.

There is again a formidable increase in the number of those admitted to gratuitous relief; of the net increase, amounting to 115,000, Salem contributed more than half; in Bellary and Coimbatore also numbers rose considerably. The greater portion of the increase occurs under the head of village relief. There was a large decrease in the number of children in receipt of subsistence allowance on the works; it occurs chiefly in Bellary and Kurnool; numbers fell off considerably in Madura also. Of the forty-three deaths amongst the children on the works forty-one are entered against Kurnool.

12. The marginal figures show the progress of measures taken for the extension of gratuitous relief, the figures for the past week being adopted for the Kistna District. The increase in the number of relief centres occurs in Coimbatore and Salem, twenty-six having been newly opened in the former district, and twenty-two in the latter. In *Nellore* nearly half the increase occurs in the number of children in receipt of subsistence allowance on the works. In *Cuddapah* the decrease is not real, there being a large falling off in Royachoti owing to defective returns. In *Bellary* there is a net increase of nearly 20,000, the result of an increase of about 33,000 under the head of village relief, and of a decrease of 3,000 and 10,000, respectively, under camps and 3-Pie children; this is due chiefly to the large transfers from the works to village relief in Adoni; detailed statements have not yet been received from Kurnool. In *Chingleput* the returns from Sydapet showed an excess of nearly 8,500 over the true total owing to an error; the increase during the week under review is therefore really about 9,700; it occurs mainly in Madurantacum and Trivellore; in *North Arcot* also the total is understated owing to the omission of figures for Kalastri (4,663 last week) and to an unexplained decrease of 4,400 in Narayanavanam which will probably prove to be due to an error; in *South Arcot*, *Trichinopoly*, and *Tinnevelly* the figures do not call for particular remark; distress is being more intensively felt. In *Madura* numbers in camps in Periakolam have diminished by one-half owing to some having been drafted to works and others sent to their villages; in *Coimbatore* there is a large accession of numbers in the sub-division which is the part of the district most severely affected, whilst in *Salem* the bulk of the increase is due to the admission of 45,000 additional distressed persons to village relief in Darampuri; in this taluq out of a population of 190,000 nearly 80,000 or 42 per cent. are in receipt of gratuitous relief. A report from Mr. Puckle, just received, states that the condition of the taluq resembles that of the most distressed parts of Cuddapah and Bellary, which sufficiently accounts for the large numbers on the hands of Government. The taluqs of Salem, Tripatore, and Kistnagiri also show a considerable increase. The returns for the Nilgiris were received at the last moment; they should reach the Board's office on Thursday at latest.

There is some error in the figures for *Cuddapah* and *Bellary*, as the total of both descriptions of advances does not correspond with the totals for the previous week plus grants made during the week under report. The correct amounts should be reported.

17. The usual statement of establishments is enclosed; the total monthly cost was Rupees 1,36,305; figures for Bellary, Kurnool, and Salem for last week are repeated, returns for this week not having been received.

18. The average strength of resident paupers in Madras camps was 12,444 and of non-residents 13,638. Of the 12,761 paupers resident on the 18th August the districts marginally noted contributed as shown against each. The fresh admissions during the week were 6,275, of whom 2,966 belonged to Chingleput, 2,202 to North Arcot, and 1,021 to Nellore. The numbers employed on various works outside the camps are given in the margin. Except as regards the Junction Canal it is not known how many of these laborers were supervised by the professional department. The Commissioner of Police will be requested to supply the information in future. The strength in hospital on the 18th August was 888, deaths numbered 215 (of which 203 took place in hospital) or in the ratio of 865 per mille per annum. The outlay during the week was Rupees 33,838 and up to the end of the week Rupees 8,18,776. The President of the Municipality had 3,413 paupers in the Sattangad Relief Camp on the date above mentioned and 2,338 on works. His expenditure during the week was Rupees 1,825 and up to the end of the week Rupees 76,251.

19. As information regarding the imports of food-grains into the Presidency may prove of interest, the Board submit an additional statement showing the importations of rice, paddy, and other grains separately for each Maritime district during the week ending 22nd August and the total imports from 1st May 1876 up to the same date, with an abstract showing the countries whence the grain was exported. The figures for the week comprise the imports at the principal ports (which have been selected for the purpose of the weekly telegram to the Government of India) up to Wednesday last, the returns of the previous week being taken for the minor ports. This statement shows the imports during the week at 20,333 tons.

2. *Prices.*—The district averages show an upward tendency, but it is generally slight; in the Kistna and Madura Districts all grains are dearer, and in Nellore, Kurnool, Chingleput, South Arcot, and Trichinopoly two out of the three principal dry food-grains have risen; on the other hand there is a fall in the prices of all dry food-grains in Tinnevelly and Salem and in two out of three in Coimbatore. Turning to details for the several districts, the market in *Nellore* appears to be for the most part steady; at Venkatagiri there is a general fall; at Darsi a general rise in prices; at Ongole two out of three dry grains have declined; at Atmakur the same proportion has advanced. In *Cuddapah* the fluctuations are nowhere marked, but ragi and rice have gone up slightly, cholum is stationary: in *Bellary* prices have risen again at Hindupur, also at Anantapur; at Harpanhalli there is a slight advance as regards rice, only 4·73 seers being procurable for a rupee. In *Chingleput* prices have risen in the sub-division. In *North Arcot* the same feature is observed in Vellore, Arcot, Palmanair, and Punganur; at Tripatty there is a fall in dry grains, whilst at Madrapauk they are apparently not procurable: in *South Arcot* there is no particular change; in *Trichinopoly* dry grains have risen at head-quarters and are apparently still not procurable at Kulitalai and Udayarpoliem; this should be explained; the same remark applies to the Sub-division and Melur in *Madura* and Ottapidaram and Nanguneri in *Tinnevelly*. In *Coimbatore* rice has reached 4·27 seers per Rupee; in Collegal it has also risen at Dharapuram; in other respects there is a tendency to fall; in *Salem* also prices are generally stationary. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

3. *Rainfall.*—Rain was registered in all the distressed districts, but, except in the Kistna, where there was an average of an inch and a quarter, and Malabar, where it reached 9½ inches, the falls were light and partial. In *Nellore* showers fell in seven divisions, in *Cuddapah* in six, and *Bellary* in seven, about an inch and three-quarters being gauged at Gooty. In *Chingleput* there was a good fall at Madrantacam and slight showers in four other taluqs; in *North Arcot* no less than nine divisions were visited with rain, but the fall was light; in *South Arcot* there were showers in five taluqs, and in *Trichinopoly* in three. In *Madura* and *Tinnevelly* there was a mere sprinkling. *Coimbatore* shows a good fall at Pollachy and showers in two taluqs, whilst in *Salem* five taluqs received a light fall. More rain is urgently needed everywhere, and the account of the condition of the crops given in the Collector's season telegrams for the week is not more cheering than the description for the previous week.

In *Vizagapatam* the rain is insufficient, and seedlings are dying; in Godavery and Kistna, however, the recent rains have revived the standing crops; in *Nellore* dry crops not irrigated from wells are withering, except in Polur and Udayagiri; the same description is given of their condition in Cuddapah, the northern parts of *Bellary* *Trichinopoly*, Madura, Coimbatore, the Nilgiris,

and Salem; in North Arcot the crops are poor, and in *South Arcot* stated to be in a critical condition, in *Kurnool* those which have survived are so far in fair condition, and in *Tinnevelly* the standing crops are generally good, but more rain is required in those districts also. In *Chingleput* pasturage is insufficient and water failing. In a few districts where the harvest has commenced the outturn has proved very poor, and prospects are generally gloomy.

4. *Grants and Outlay.*—The grants up to the 18th August aggregate Rupees 2,51,68,493, and the outlay was as follows:—

Total ..	987,364	954,747	— 32,607

There is a net decrease of 32,607, for which *Bellary* is mainly responsible, the cause being extensive transfers from the works to Village Relief in Adoni. In *Kurnool* and *Salem* also there is a considerable falling off; in the former case it is not explained; in the latter it appears to be chiefly due to a temporary stoppage of works during transfer to the Public Works Department. In *Nellore* there is an increase of more than ten thousand, which is not explained; it occurs principally in Udayagiri Taluq, and is due to transfers from the Canal in consequence of the approaching completion of the work in hand before the receipt of the orders of Government directing the continued employment of

7. In *Cuddapah* there is a slight decrease on the whole though numbers rose in the sub-division; this is, ascribed partly to the removal of inefficients and partly to coolies leaving the works for the harvest. The figures for each taluq are given in the margin. *Bellary* shows a large falling off; as already stated this is due to the removal from the works in Adoni of a large number of strangers who have been relegated to their own country and transfer of inefficient laborers to gratuitous relief. The decrease in Dhurmavaram and Bellary appears to be also due to transfers to gratuitous relief; the increase in Raidrug seems to be no the result of greater completeness of th

The numbers on the Bellary-Hubli Railway were 9,033, of whom 5,348 belonged to Bellary Taluq and 3,685 to Hospett.

8. Details for *Kurnool* are not as yet available. In *Chingleput* the increase occurs chiefly in Madrantacam; numbers on the Chingleput-Conjeveram Railway remained the same as in last week, viz., 25,316. In *North Arcot* the increase is general throughout the district; owing to the omission of the Kalastri returns it is considerably understated: probably nearly 5,000 must be added; in *Trichinopoly* increasing distress and an influx of destitute poor from neighbouring districts have swelled the numbers; in *Madura* there was a large accession of numbers in Tirumangalam, but a corresponding falling off in Pulni; the increase in *Coimbatore* is due to greater pressure; the falling off in *Salem* is ascribed to temporary stoppage of work during the completion of arrangements for transferring the supervision to the Public Works Department.

9. The total number of famine coolies working under the supervision of the Public Works Department during the week was 227,039 against 226,289 in the previous week, excluding North Arcot, for which no information has been furnished.

10. The enhanced rate of wages appears to be in force everywhere except parts of Jammalamadugu in *Cuddapah*, Chendragiri, Wallajah, Trittauy, Arconum, and Maderpauk in *North Arcot*, and Rapur and Venkatagiri in *Nellore*. The reason for the existence of the lower scale in these places has not yet been explained; the cause of the multiplicity of rates in Jammalmadugu and Pulivendla should be stated.

* Particulars not given.

There is again a formidable increase in the number of those admitted to gratuitous relief; of the net increase amounting to one hundred and fifteen thousand, Salem contributed more than half, in Bellary and Coimbatore also numbers rose considerably. The greater portion of the increase occurs under the head of village relief. There was a large decrease in the number of children in receipt of subsistence allowance on the works; it occurs chiefly in Bellary and Kurnool: numbers fell off considerably in Madura also. Of the 43 deaths amongst the children on the works 41 are entered against Kurnool.

12. The marginal figures show the progress of measures taken for the extension of gratuitous relief, the figures for the past week being adopted for the Kistna District. The increase in the number of relief centres recurs in Coimbatore and Salem, 26 having been newly opened in the former district and 22 in the latter. In *Nellore* nearly half the increase occurs in the number of children in receipt of subsistence allowance on the works. In *Cuddapah* the decrease is not real, there being a large falling off in Royachoti owing to defective returns. In *Bellary* there is a net increase of nearly 20,000, the result of an increase of about 33,000 under the head of village relief, and of a decrease of 3,000 and 10,000 respectively under camps + three-pie children; this is due chiefly to the large transfers from the works to village relief in Adoni; detailed statements have not yet been received for Kurnool. In *Chingleput* the returns for Sydapet showed an excess of nearly 8,500 over the true total owing to an error; the increase during the week under review is therefore really about 9,700; it occurs mainly in Madrantacum and Trivellore; in *North Arcot* also the total is under-stated owing to the omission of figures for Kalastri (4,663 last week) and to an unexplained decrease of 4,400 in Narayanavanam, which will probably prove to be due to an error; in *South Arcot*, *Trichinopoly*, and *Tinnevelly* the figures do not call for particular remark; distress is being more intensely felt.

In *Madura* numbers in camps in Periakolam have diminished by one-half owing to some having been drafted to works and others sent to their villages; in *Coimbatore* there is a large accession of numbers in the sub-division, which is the part of the district most severely affected, whilst in *Salem* the bulk of the increase is due to the admission of 45,000 additional distressed persons to Village Relief in Darampuri; in this taluq, out of a population of 190,000 nearly 80,000, or 42 per cent., are in receipt of gratuitous relief. A report from Mr. Puckle, just received, states that the condition of the taluq resembles that of the most distressed parts of Cuddapah and Bellary, which sufficiently accounts for the large numbers on the hands of Government. The taluqs of Salem, Tripatore, and Kistnaghiry also show a considerable increase. The returns for the Nilgiris were received at the last moment; they should reach the Board's Office on Thursday at latest.

13. The following statement shows the ratio of reported mortality calculated on the average strength for the week under review and that preceding. The death-rate in Cuddapah and North Arcot continues very high:—

There is some error in the figures for *Cuddapah* and *Bellary*, as the total of both descriptions of advances does not correspond with the totals for the previous week *plus* grants made during the week under report. The correct amounts should be reported.

17. The usual statement of establishments is enclosed; the total monthly cost was Rupees 1,56,305; figures for Bellary, Kurnool, and Salem for last week are repeated, returns for this week not having been received.

18. The average strength of resident paupers in Madras Camp was 12,444 and of non-residents 13,638. Of the 12,761 paupers resident on the 18th August, the districts marginally noted contributed as shown against each. The fresh admissions during the week were 6,275, of whom 2,966 belonged to Chingleput, 2,202 to North Arcot, and 1,021 to Nellore. The numbers employed on various works outside the camps are given in the margin. Except as regards the Junction Canal it is not known how many of these laborers were supervised by the professional department. The Commissioner of Police will be requested to supply the information in future. The strength in hospital on the 18th August was 888; deaths numbered 215 (of which 203 took place in hospital), or in the ratio of 865 per mille per annum. The outlay during the week was Rupees 33,838 and up to the end of the week Rupees 8,18,776. The President of the Municipality had 3,413 paupers in the Sattangad Relief Camp on the date above mentioned and 2,338 on works. His expenditure during the

19. As information regarding the imports of food-grains into the Presidency may prove of interest, the Board submit an additional statement showing the importations of rice, paddy, and other grains separately for each maritime district during the week ending 22nd August, and the total imports from 1st May 1876 up to the same date, with an abstract showing the countries whence the grain was exported. The figures for the week comprise the imports at the principal ports (which have been selected for the purpose of the weekly telegram to the Government of India) up to Wednesday last, the returns of the previous week being taken for the minor ports. This statement shows the imports during the week at 20,333 tons.
