GOVERNMENT OF MADRAS.

# REVENUE DEPARTMENT.

---

**12th September 1877, No. 2,704.**

Read the following paper :—

No. 189. Proceedings of the Board of Revenue, dated 18th July 1877, No. 3,341.

Read the following letter from Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, toC. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Ootacamund, 6th July 1877, No. 343 : —

WITH reference to the concluding portion of paragraph 3 of the Board's Poceedings, No. 604 of the 13th February last, I have the honor to submit a letter from the Forest Officer of the Cuddapah Division explaining the cause of the large expenditure in fencing the Gathala reserve in the Cuddapah Division ; this reserve was almost entirely enclosed with a stone wall instead of the aloe fence and ditch generally planted and dug round the other reserves ; the aloe fence had been found almost useless owing to the quantities of wild pig and where put up, it is now being replaced by stone walls.

---

ENCLOSURE No. 1.

From H. H. YARDE, Esq., Deputy Conservator of Forests, Cuddapah Division, to Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, dated Codoor, 21st May 1877, No. 98.

Ap[illegible] No. 147, dated 17th instant, and paragraph 3 of Board's Proceedings No. 60[illegible] last, I have the honor to inform you that the large expenditure which it became necessary to incur for the fencing of the Gathala Nookanapully reserve was explained in my letter, No. 133, dated 17th July 1876, in reply to yours of the 16th June 1876, No. 882.

2. When fencing work was commenced in the several reserves I was directed to fence them with aloes in ditching, but from experience I found out that the aloes were greatly destroyed by wild animals and the ditching silted up, and when I began fencing the Gathala reserve for better protection, I put up a stone fencing, only thirty-five chains being aloes without incurring any extra cost in the rates per chain.

3. The fencing is a substantial one, but a little damage has been done to it recently when the reserves were thrown open to the villagers for the collection of leaves, &c., for cattle ; but this damage will be repaired without entailing any cost to this department, as Government have sanctioned the repairs of the reserve fences as a famine work on my application to the Colllector.
