2. *Prices.*—The advance noticed in last week's report still continues, but it is so slight in most districts as scarcely to affect the average; it is most noticeable in the *Kistna* District. *Cumboo* has fallen slightly in five districts; the marked decline in *Chingleput* is of no significance, it being only a single quotation. Turning to details for districts the fluctuations in *Nellore* do not call for remark; in *Cuddapah* rice has risen in the sub-division and is not quoted at all for *Kamalapore*, where apparently *ragi* only is procurable; dry grains are for the most part stationary; in *Ballary* rice has risen at six stations and *cholam* generally; the quotations for

Harpanhally are exceedingly high, only 4½ seers of rice and *cholam* and 3½ seers of *cumboo* being procurable for a rupee; *Chingleput* calls for no remark; in *North Arcot* rice has fallen at four stations and dry grains are cheaper at *Vellore* and *Arcot*, but have risen at *Gudiatum* a few miles further down the line; in *South Arcot* the upward tendency as regards rice is general; in *Trichinopoly* dry grains are not quoted except at

head-quarters; for some time past the absence of quotations in this district has attracted notice; the Collector should explain the cause; in *Madura* the market is steady, in *Tinnevely* *cholam* has risen at *Sattur* and *Sankaranamarkovil*, and for *Ottapidaram* and *Nanguneri* dry grains are not quoted; in *Coimbatore* there is a slight fall in the price of rice at *Collegal*, but a rise at five stations; there is a marked fall as regards *cholam* and *ragi* at *Pollachy*; in *Salem* there is no material change; dry grains are apparently still not procurable at *Oosoor*. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

3. *Rainfall.*—Rain was registered in all the distressed districts except *Tinnevely*, but it was everywhere very light, the average for *Malabar* even being only 1.15 inches for the week. In *Nellore* there was but a light shower in the north, only 1.15 inches for the week. In *Cuddapah* rain was gauged at seven stations, and in *Ballary* at six, but the fall nowhere exceeded half an inch, and in most cases amounted only to a few cents; in *Chingleput* there was a good fall in *Conjeveram* and a slight sprinkling in all the other taluqs; in *North Arcot* there was very heavy rain at *Wallajah*, 5 inches having been gauged; good falls of an inch and more were also registered at *Polur*, *Arcot*, *Chittoor*, and *Maderpauk*, and light showers at six other stations; in *South Arcot* the influence of the monsoon was generally felt; there was a good fall at *Virdachellum*, and nearly an inch at three other stations; in *Trichinopoly* there were very heavy falls of 2½ and 3½ inches, respectively, at *Perambalur* and *Udayarpoliem*, and good showers elsewhere; in *Madura* all taluqs except *Periacolum* received some

rain, but the falls were light; in *Coimbatore* there was only a slight sprinkling, and no rain was recorded at *Pollady*; in *Salem* there were good showers at *Ahtur* and *Dharampuri*, and a heavy fall on the *Nilgiris*. Notwithstanding the rain which has fallen the telegraphic season reports for the week unanimously affirm that more is required to save the crops dependent solely on the falling rain from perishing and secure anything like a fair outturn. The showers appear to have been too light and partial, and though they have been of much benefit they have not been sufficient to ensure a moderate harvest; the accounts of the state of the crops do not materially differ from those telegraphed last week.

4. *Grants and Outlay*.—The grants up to the 25th August aggregate Rupees 2,68,69,493, and the outlay was as follows:—

6. *Numbers on Relief Works*.—The numbers on relief works in each district are compared below with the figures for the week preceding:—

	2,338	1,850	— 988
	954,747	935,262	— 19,485

There is again a decrease which occurs chiefly in Bellary. For the *Kistna* District the actual numbers for last week were not reported, 17,000 being merely an estimate; the exact state of affairs cannot be ascertained until the detailed reports are received. For *Nellore* the figures are not complete; there is a slight decrease, returns from *Podili* and *Darsi* not having been received; allowing for this the total is probably about the same as last week. The usual details for the Buckingham Canal are noted in the margin. The numbers employed under the Department of Public Works elsewhere were 2,110.

7. In *Cuddapah* there is a considerable increase which occurs chiefly in *Pulivendla*, *Jammalamadugu*, and *Royachoti*; the explanation as regards the two first taluqs is greater pressure of distress and transfer of able-bodied paupers from village relief; for *Royachoti* no explanation is furnished. In *Bellary* there is again a considerable falling off, half the decrease occurs in *Adoni* and is due to the relegation of inefficient coolies from the works to village relief; in *Bellary Taluq* it is due to the same cause, in *Alur* and *Tadpatri* it is stated to be owing to dismissal of coolies, it is presumed with tickets for relief in their villages. In *Dharmavaram* there is a considerable increase on the other hand owing to the opening of fresh works, and in *Hadgalli* to increase of distress. The numbers on the Bellary-Hubli Railway were 8,079, of whom 4,651 belonged to Bellary Taluq and 3,428 to Hospett.

8. In *Chingleput* numbers are nearly the same as in the previous week. On the South Indian Railway 23,156 coolies were employed against 25,316 in the week before; elsewhere 1,419 were employed under the Public Works Department. In *North Arcot* the increase is chiefly nominal and is due to the inclusion of figures for *Kalastry* in this week's total; in *Madura* it occurs in *Tirumangalum Taluq* and is ascribed to the resumption of agricultural operations in consequence of the recent fall of rain; in *Coimbatore* the fluctuations in the several taluqs are slight and call for no remark; in *Salem* the decrease appears to be owing to the incompleteness of the returns.

9. The total number of famine coolies working under the supervision of the professional department was 229,602 against 227,039 in the previous week; the returns from *North Arcot* are not complete.

10. The enhanced rate of wages seems to have been in force everywhere except in the taluqs of *Cuddapah* and *North Arcot* noticed in last week's review and in the *Polur Division* of *Nellore*. The multiplicity of rates in *Jammalamadugu* and *Pulivendla* shows that the instructions regarding regulation of wages are not observed in those taluqs.

* Particulars not given.

The increase in the number of those admitted to gratuitous relief is again very considerable, but is less by fifty thousand than in the previous week. It occurs chiefly in Kurnool, North Arcot, and Coimbatore; in the two first-named districts it appears under the head of village relief, and in Coimbatore under that of relief houses. The abstract at the foot of the statement shows that relief to the poor in their villages is being more widely extended as compared with relief in camps, the distribution of the increase between the two forms of relief being in the ratio of about six to four. There is a decrease of about 14,000 in the number of children in receipt of subsistence allowance on works in Bellary, which is partly counterbalanced by an increase in Cuddapah, Madura, and Coimbatore.

12. The marginal figures show the progress of measures taken for the extension of gratuitous relief adopting last week's figures for the Kistna District. The increase in the number of relief centres occurs chiefly in Coimbatore and Salem, 11 having been newly opened in the former district and 21 in the latter; North Arcot and Salem contribute most largely to the increase in the new inspection circles and in

the number of villages in which relief was afforded, whilst there is a falling off in Bellary. The returns from Nellore are defective, and the total for the week is probably not much, if at all, below that for the previous week. In Cuddapah the increase is chiefly in Cuddapah, Budwail, Royachoti, and Madanapalli and is due to increasing distress and to greater completeness of returns; the decrease in Bellary is not explained; it occurs chiefly in the Adoni Taluq, where a large accession of numbers was noticed last week owing to extensive transfers of inefficient paupers from the works; the returns are probably defective. In North Arcot about half the increase is entered against the Wallajah Taluq, the reason assigned being greater intensity of distress; the remainder is accounted for to a great extent by the inclusion in this week's total of

figures for Kalastry, which were omitted last week. In Madura the Sub-Division shows a considerable increase under village relief; in Tinnevely Sattur and Ottapidaram contribute most largely; in Coimbatore there is a net increase of 13,455, which is about the number of additional recipients of relief in the Palladam Taluq alone; the increase in other parts of the district is counterbalanced by a falling off in Caroor and Oodumalpettah to the extent of about 14,000, owing partly to non-receipt of returns and deportation of strangers to their districts. In Salem extensive transfers from village relief to camps were effected in the taluqs of Salem, Namkal, and Tripatore. In Oosoor numbers swelled considerably. No returns have as yet reached the Board from Tanjore, but from the telegraphic season report it appears that about 49,000 persons received aid from Government gratuitously during the week.

13. The following statement shows the ratio of reported mortality calculated on the average strength for the week under review and that preceding. The high rate in Cuddapah and North Arcot camps continues:—

The strength in Hospital on the 25th August was 925, deaths numbered 215 (of which 205 took place in Hospital), or in the ratio of 871 per mille per annum. The outlay during the week was Rupees 26,175 and up to the end of the week Rupees 8,44,951. The President of the Municipality had 2,650 paupers in the Sattangad relief camp on the 25th August and 1,350 on works. His expenditure during the week was Rupees 4,954 and up to the end of the week Rupees 81,204.

19. The imports of food grains into the Presidency during the week were 17,968 tons.

RELIEF REPORTS FOR THE WEEK ENDING 25th A

REVENUE DEPARTMENT.

PROCEEDINGS of the BOARD of REVENUE, dated
31st August 1877, No. 4,045.

THE Relief Reports for the week ending 25th August will be submitted to Government with the usual statements and maps.

2. Prices. — The advance noticed in last week's report still continues, but it is so slight in most districts as scarcely to affect the average; it is most noticeable in the Kistna District. Cumboo has fallen slightly in five districts, the marked decline in Chingleput is of no significance, it being only a single quotation. Turning to details for districts, the fluctuations in *Nellore* do not call for remark; in *Cuddapah* rice has risen in the Sub-division and is not quoted at all for Kama-lapore, where apparently ragi only is procurable; dry grains are for the most part station-ary; in *Bellary* rice has risen at six stations and

is a marked fall as regard

cholam generally; the quotations for Hurpen-hally are exceedingly high, only 4½ seers of rice and cholam and 3½ seers of cumboo being procur-able for a Rupee; *Chingleput* calls for no remark; in *North Arcot* rice has fallen at four stations and dry grains are cheaper at Vellore and Arcot, but have risen at Gudlattum, a few miles further down the line; in *South Arcot* the upward tendency as regards rice is general; in *Trichin-poly* dry grains are not quoted except at head-quarters; for some time past the absence of quotations in this district has attracted notice; the Collector should explain the cause; in *Madura* the market is steady; in *Tinnevely* cholam has risen at Sattur and Sankaranainarkovil and for Otta-pedaram and Nanguneri dry grains are not quoted; in *Coimbatore* there is a slight fall in the price of rice at Collegal, but a rise at five stations; there

3. Rain-fall. — Rain was re-distressed districts except Tin everywhere very light, the a even being only 1.15 inches for In *Nellore* there was but a north; in *Cuddapah* rain was stations and in *Bellary* at six, h exceeded half an inch and in m only to a few cents; in *Chin* good fall in Conjeveram and a s all the other taluqs; in *North* very heavy rain at Wallajah, five i gauged; good falls of an inch a registered at Pohur, Arcot, Chi pank, and light showers at six South Arcot the influence of t generally felt; there was a go cholam and nearly an inch at th in *Trichinopoly* there were very and 3½ inches, respectively, at Udayarpoliem and good showe *Madura* all taluqs, except Peracola rain, but the falls were light; in was only a slight sprinkling and ne ed at Pollachy; in *Salem* there w at Ahtur and Darampuri and a Nilgiris. Notwithstanding the r

fallen the telegraphic season reports for the week unanimously affirm that more is required to save the crops dependent solely on the falling rain from perishing and secure anything like a fair outturn. The showers appear to have been too light and partial, and though they have been of much benefit they have not been sufficient to ensure a moderate harvest; the accounts of the state of the crops do not materially differ from those telegraphed last week.

4. *Grants and Outlay.*—The grants up to the 25th August aggregate Rupees 2,68,69,493 and the outlay was as follows:—

There is again a decrease which occurs chiefly in Bellary. For the Kistna District the actual numbers for last week were not reported, 17,000 being merely an estimate; the exact state of affairs cannot be ascertained until the detailed reports are

received. For Nellore the figures are not complete; there is a slight decrease, returns from Podile and

plan is furnished.

In Bellary there is again a considerable falling

Total ..	277,070	261,867	- 15,203

a considerable increase, on the other hand, owing to the opening of fresh works, and in Hadgalli to increase of distress. The numbers on the Bellary-Hubli Railway were 8,079, of whom 4,651 belonged to Bellary Taluq and 3,428 to Hospett.

8. In Chingleput numbers are nearly the same as in the previous week. On the South Indian Railway 23,156 coolies were employed against 25,316 in the week before, elsewhere 1,419 were employed under the Department of Public Works. In North Arcot the increase is chiefly nominal, due to the inclusion of figures for Kalastry

in this week's total; in Madura it occurs in Tirumungalam Taluq and is ascribed to the resumption of agricultural operations in consequence of the recent fall of rain. In Coimbatore the fluctuations in the several taluqs are slight and call for no remark; in Salem the decrease appears to be owing to the incompleteness of the returns.

9. The total number of famine coolies working under the supervision of the professional department was 229,602 against 227,039 in the previous week; and the returns from North Arcot are not complete.

10. The enhanced rate of wages seems to have been in force everywhere, except in the taluqs of Cuddapah and North Arcot noticed in last week's review and in the Polar Division of Nellore. The multiplicity of rate in Jammalamadugu and Pulivendla shows that the instructions regarding regulation of wages are not observed in those taluqs.

* Particulars not given.

The increase in the number of those admitted to gratuitous relief is again very considerable, but is less by 60,000 than in the previous week. It occurs chiefly in Kurnool, North Arcot, and Coimbatore; in the two first named districts it appears under the head of Village Relief, and in Coimbatore under that of Relief-houses. The abstract at the foot of the statement shows that relief to the poor in their villages is being more widely extended as compared with relief in camps, the distribution of the increase between the two

forms of relief being in the ratio of about 1 of children in receipt of subsidiary works in Bellary, which is partly by an increase in Cuddapah, Madure.

12. The marginal figures show

	18th Aug.	25th Aug.
Number of relief centres ..	697	637

of relief centres occurs chiefly in Salem, eleven having been former district and twenty-one in North Arcot and Salem contribute increase in the new Inspection number of villages in which whilst there is a falling off in Bellary from Nellore are defective, and it is probably not much, if at all, previous week. In Cuddapah the in Cuddapah, Budwail, Royachoti, and is due to increasing greater completeness of return Bellary is not explained, it occurs in Adoni Taluq, where a large increase was noticed last week owing to of inefficient paupers from the taluqs are probably defective. In Bellary the increase is entered against Taluq, the reason assigned being of distress; the remainder is great extent by the inclusion in figures for Kalastry which were in Madura the Sub-Division shows increase under Village Relief; in Bellary and Ottapidaram contribute Coimbatore there is a net increase is about the number of additional relief in the Pulladam Taluq and in other parts of the district is a falling off in Caroor and Coimbatore of about 14,000, owing to of returns and deportation of districts. In Salem extensive Village Relief to Camps were of Salem, Namkal, and Tripa numbers swelled considerably, as yet reached the Board from the telegraphic season report it 49,000 persons received aid gratuitously during the week.
