GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

24th September 1877, No. 2,596.

Famine Relief.

Read the following paper:—

No. 593. From A. J. STUART, Esq., Sub-Collector of Cuddapah, to J. P. PRICE, Esq., Acting Collector of Cuddapah, dated Royachoti, 11th September 1877, No. 196.

1. GIVE the honor to forward the enclosed return of physical inspection from Mr. Maclean as supplement to my letter, No. 174, dated 4th September 1877.
2. One-third were found bad and sent to village relief. Nearly as many were classed as indifferent and rather more than one-third as good and fair.
3. Children show worst, but on the whole Mr. Maclean considers the return satisfactory. If his standard includes under bad what I should put as indifferent, as is probable, I agree, but if not, then two-thirds nearly included under indifferent and bad is a very high average as compared with other taluqs. Probably the truth lies as usual midway, and the Kadiri coolies are, as they were when I saw them, worse than those in other taluqs. They have now been weeded, and we shall see in a fortnight or a month whether those that remain deteriorate or not.

Enclosure No. 1.

STATEMENT showing the Physical Condition of 3,163 Coolies on the Kadiri and Madanapalli Road.

Class.	Good.	Fair.	Indifferent.	Bad. Sent to Village Relief.	Very Bad Sent to Hospital.	Total.	Remarks.
Men	232	205	285	204	...	926	It will be seen that the men are, physically speaking, the best and the six-ply children the worst. Of the women there were 6 pregnant, 2 being in good condition, 2 fair and 2 indifferent. The children as a rule were very poor, but some of the men in very fine condition. On the whole the condition of these coolies is satisfactory, and I believe has much improved since last inspection. Owing to having only a short time at my disposal I was unable to obtain the physical condition of the coolies on the Kadiri-Royachoti Road and at Patnam.
Women	175	254	338	483	...	1,250	
Children	66	75	447	299	...	887	
Nursing Mothers ..	94	61	64	120	...	339	
Six-ply Children ..	14	58	67	90	1	230	
Total	581	653	963	1,196	1	3,163	

(Signed) A. D. MACLEAN,
on Special Duty.

Revenue Department, 24th September 1877, No. 2,896

No. 174

Statement for the information of Government. There seems to be something wrong in Mr. Macdonald's classification. He has probably taken the lines standard under "indignant and bad." As Mr. Smart observes, another fortnight or so will show whether the vessels improve or the reverse, or remain stationary in condition.

Cebu, 14th September 1877.

(Signed) J. W. JOHNSON,
Special Deputy Collector,
for Acting Collector.

No. 174

Under reference, 24th September 1877, No. 2,896.

Macdonald.

Revenue.

(True Extract.)

(Signed) J. H. GARTIN,
Additional Secretary to Government.

To the Collector of Customs,
" the Board of Revenue,
" the Sanitary Commissioner,
" the Financial Department.

Ed. J. W. Fletcher.

2896

Class	Good	fair	Unimpaired	Ready to start	Condition	Total
all	222	26	295	204	"	986
10 women	175	253	370	488	"	1286
children	16	78	114	209	"	467
Working men	24	61	6	120	"	261
6 pie children	14	59	57	90	1	220
	501	652	903	1061		3117

very short time at my disposal. I was unable to obtain the physical condition of the children and of the women.

From April 1st to June 1st

Physical condition

Remarks.

It was found that the men are physically speaking the best and the 6 pie children the worst of the women were very poor, showing in good condition 2 pie and 2 in different. The children as a rule were very poor but some of the men in very fine condition. On the whole the condition of the men is better than that of the women.

improved since last inspection - owing to the fact that the children are all now in the hands of the women.

From April 1st to June 1st
Physical condition
From April 1st to June 1st

Callahan and Jefferson
offices - Grand Rapids Mich.

Figure 1. The effect of the concentration of the *Agaricus bisporus* spores on the growth of *Agaricus bisporus* on the substrate. The concentration of the spores was 10⁴ spores/g substrate (a), 10⁵ spores/g substrate (b), 10⁶ spores/g substrate (c), 10⁷ spores/g substrate (d), 10⁸ spores/g substrate (e), 10⁹ spores/g substrate (f). The substrate was 100 g of substrate (100 g of substrate + 100 g of substrate).

I have the honor to inform you that the enclosed
contains a photograph collection from Mr. Maclean
as supplement to my letter No. 174 dated 4th
September 1897.

2. One third were found dead and sent to
Tallahassee by rail. Nearly all the eggs were collected at
different and rather more than 1/2 of good and
favor.

3. Chelsea shows worth but on the whole Mr. Dickinson considered the volume satisfactory. If his standard included underhand what I should not put as a gift, what at least I should agree, but if not then by no means include it.
