Revenue Department

Proceedings of the Board of
Revenue

Dated 14th May 1877

30922-4920 Read the following n^o 334

From The Collector Bellary

To The Secretary to the
Board of Revenue
Madras

Sir,
With reference to para 9
of the Proceedings of the Board
n^o 1315 of the 23rd March, but
only received at Bellary on the
11th April, I have the honor to
enclose copy of a letter n^o 281
of the 26th Ultimo, from the Head
Assistant Collector, which ex-
plains why the members of
labourers in the taking of the
survey were so low.

2. A copy of the Head Assist.
ant Collector's letter n^o 229 of 12th
April

April 1877 on the subject was
sent to the Board with a letter

on the 20th Instant.

Bellary Collis office

of 3rd May 1877, Camp

Garandapalli, anantpur

Tahiq

I have &c

(Sd) J. H. Mather

Collector

No 281

To The Collector of Bellary

Sir,

I have the honor to
report on para 9 of Board's
Proceedings No 1315, of 23rd March
and in doing so to refer ^{you} to para
2 of my letter, No 229, of 12th Instant
where the cause of the very low
numbers employed on relief
works in Hindupur Tahiq, as
compared with those in Ma-
daksira was explained.

2. There has been a consider-
able amount of cholam cul-
tivation under such, and in
tank

tank beds and it happened
that the general strike among
the Hindupur Coolies which
naturally resulted on the
sudden application of strict
tests after a long time of very
lax supervision was followed
and rendered by large numbers
finding employment in the
cholam fields during the
reaping season and this is
the main cause of the num-
bers continuing so low, though
cholera also operated to some
extent.

3. I may add that the reaping
season being over, the numbers
in Hindupur are again going
up being 1556 according to the
latest return.

I have &c
(Sd) H. J. Ross
A S H D Asst^l Collector
(True Copy)

(Three copies)
(57) G. H. Master
Collector

Recorded

2. The Board hope that the high numbers in Madaksira which are ten times those in Kuidpur - a difference hardly to be accounted for by difference in the condition of population - are not due in any degree to laxity of administration.
